NEW YEAR CHILD IS "BABY" FALK

MR. AND MRS. FLOYD FALK, 511 SO. EVANS STREET, PROUD PARENTS

Tecumseh's New Year child — the first to be born in this village in 1940 — is "Baby" Falk, three-day-old son of Mr. and Mrs. Floyd Falk of 511 South Evans street. And to "Baby" Falk and his parents go all of the gifts that were offered last week by local merchants who sponsored Tecumseh's annual New Year's Baby Contest.

"Baby" Falk, who weighed six pounds and one ounce, arrived at the Falk home at 11:45 New Year's morning. Dr. Ralph Helzerman was the attending physician. According to the doctor, both the mother and child are doing nicely, and it will not be long before he'll be able to say "thank you" for his gifts.

What is the baby's name, Well, we tried to find out,too, but it appears that he hasn't received a title, as yet. Off the record, Mr. and Mrs. Falk, it is understood, had several fine names in mind for a little girl, but the arrival of a boy took them by surprize. The Falks have one other child, a boy about three-and-a-half years old.

The prizes offered for the New Year baby, and to which the Falk family is entitled, follow:

The Tecumseh Flower Shop will send the mother of the child a beautiful bouquet of flowers. Palman's Department Store will furnish the youngster with a baby blanket. The Tecumseh Dairy will deliver a quart of milk to the baby's home for 30 days. C. A. Wright & Son, druggists, will give the parents their choice of $2 worth of merchandise. The Fred Rosacrans & Sons store will give the youngster a crib set, and The Herald will furnish the child's parents with a year's subscription to this newspaper. The Campbell Dry Cleaning Shop will clean and press a suit for "dad" and a dress for "mother" without charge, and the Consumers Power Company will present, for the infant's use, an electric bottle warmer.

GOV'T STUDIES P. O. SITE BIDS

12 PIECES OF PROPERTY OFFERED FOR NEW TECUMSEH BUILDING

Aurorities at Washington are studying 12 site proposals for Tecumseh's new $70,000 postoffice building, submitted to Franc S. Gillespie, postmistress, by local owners and opened in the Tecumseh office, Tuesday. If one of the sites prove satisfactory, it is expected that construction of the building will start next spring.

"We received 12 proposed sites for the new building," Mrs. Gillespie said, "as the result of the government's inquiry. These were opened here and then forwarded to Washington where they will receive consideration. The bids on the local property ranged from $2,000 to $25,000." The postmistress did not reveal the locations submitted.

At the postoffice today, it was said that in all probability an inspector from the department would arrive in Tecumseh during the early part of next week to look over the proposed locations and to make a recommendation to the department. The next step would be for the government to enter into negotiations for the purchase of the property, and then proceed with the construction.

This was the second time that the government has asked for site proposals locally, since Congress allocated funds for the building, nearly two years ago. Previous sites submitted, it is believed, did not prove to be satisfactory to department officials.

RETAIL SCHOOL OPENS TONIGHT

"SEVEN KEYS TO SUCCESSFUL SELLING," TO BE TOPIC OF LECTURE

Tecumseh's 12-week retail school program, under the direction of Ray Morton Hardy, president of the Hardy Institute of Merchandising, with offices in Detroit, will get under way at 7:30 this evening, in the high school. The night school is held under the direction of the board of education, cooperating with the Michigan Department of Vocational Education and the local Chamber of Commerce.

"I am very much interested in a large attendance at the meeting tonight," Mr. Hardy said, "Especially would I like to see automobile salesmen, filling station attendants and real estate agents present. Of course, I am expecting every retail store to be represented.

"I am confident," Mr. Hardy continued, "that 1940 is going to be a selling year, and it should be an unusually good year in Tecumseh. I have spent a great part of my holiday revising my program to fit Tecumseh's needs, and I am sure that the $2 fee for the 12 meetings, as fixed by the board, will be very attractive."

The subject of Mr. Hardy's lecture this evening will be "The Seven Keys to Successful Selling." Mr. Hardy is a member of the faculty of Wayne University, and is a well-known Michigan business analyst.

Three meetings were held by Mr. Hardy before the Christmas holiday, with an average attendance of about 30. It is expected that the attendance at tonight's session will be double that number.

War Books Given To Local Library

The local post of the American Legion has loaned to Tecumseh library four valuable books of reference, two each on the Civil and World War, all four of them being profusely illustrated.

Dr. H. H. Hummel presented two volumes on the Civil War to the post some years ago. Battles and campaigns are described and made clear with maps and in addition there is an extensive chronological list of events covering the entire war period. The illustrations are taken from drawings made by artists in the field and published in contemporary periodicals.

Karl M. Schneider gave the post the two volumes on the World War which were printed by the Disabled American Veterans for the Underwood-Cr Post No. 34. Modern book binding and modern photography have made these two volumes into a history covering participation in the "war to end all wars." The illustrations are largely made from photographs taken by the Signal Corp of the United States Army in camp, on board ship, and in the actual fighting in the field. It shows photographs of men actually being wounded or killed by machine gun and shell fire.

In particular the study of the scenes of the battles and the hospitals give the readers some idea of the horrors of war and show why the American Legion and all other veteran's organizations are absolutely set against the U. S. getting into the present war.

Chronology Of 1939 Published By Herald

Perhaps you had forgotten that it was last May 23 when the U. S. submarine "Squalus" sunk and trapped the 59 members of its crew, and that the day following 33 of that number were rescued. Also, to refresh your memory, it was on October 8 that the Yanks won the world's series, and only last October 1 that Great Britain called 250,000 men to the colors, as the result of the European war.

All of these facts and hundreds of others will be found in the Chronology of the Year 1939, published in another page of The Herald.

The Herald has made it a practice to publish a similar chronology each year for many years. Many persons keep the page for reference, particularly teachers, school children and students of international affairs. This year's chronology is complete up to December 18, giving all of the highlight dates in the European war, foreign and domestic affairs and sports.

FARM PROBLEMS FACE LAWMAKERS

HOW TO INCREASE STATE'S AGRICULTURAL VALUES WILL BE QUESTION

LANSING, Jan. 4 — "Going to market" was the leading agricultural problem in Michigan for 1939.

How to market Michigan's many food products so that the grower-producer can be assured of adequate returns on his investment and the consumer is assured of a quality product at a fair price are problems which the state of Michigan is striving intensively to solve.

In two instances—milk and apples—the state legislature created a separate commission to seek the solution.

The milk marketing board was given the power to fix prices for both producer and consumer—the only agency in state government with such authority.

A apple board was given the responsibility of stimulating demand for Michigan graded apples through a modern advertising program.

Together with an increased inspection program for grading of products—a necessary preliminary to a 1940 program for advertising of other Michigan food products, they constitute a bright spot in the administration's activities since Jan. 1.

Whereas the state and its educational agencies sought for many years to effect better products and better production, the agricultural problem today is that of marketing.

At Washington it has taken the form of extensive subsidies, known as the soil conservation act and other programs designed to effect parity for the farmer with industry and business. Colleges of agriculture and the state and federal

Rural Electrification Discussed By Engineer

Rural electrification, the changes the service has brought to Michigan farm homes and the happiness electricity has afforded to thousands of housewives through the use of more modern conveniences were discussed by Herman Gallagher, Consumers Power Company engineer of Jackson, when he spoke to members of the Tecumseh Rotary Club, following their noon-day luncheon meeting at the Boston Lunch, Tuesday. Mr. Gallagher was the guest of Perry Satterthwaite. Other guests were Roy McPhail of Adrian and Henry Smith of Tecumseh.

Michigan is now the third state in the nation in rural electrification, Mr. Gallagher said, California being first, and Ohio second. At the present time, about 65 per cent of Michigan's farms enjoy electric service, and another 15 per cent are within its reach. Utility companies, he declared, are doing everything in their power to expand their lines and increase the use of electric energy.

Mr. Gallagher, formerly with Michigan State College, has been associated with rural electrification work for nearly 20 years. His talk was interesting as well as educational.

FAIR TRADE LAW RULED INVALID

RIGHT OF STATE TO FIX PRICES IS JOLTED BY COURT DECISION

LANSING, Jan. 4—The right of state government to fix prices was given a disturbing jolt here in a ruling by Judge Leland W. Carr of the Ingham county circuit court holding Michigan's so-called "fair trade" law to be unconstitutional.

Although the court opinion affected only the 1937 statute covering petroleum and bakery products, it indirectly casts a shadow over the 1939 milk price-fixing act, which is already under judicial scrutiny. This law is now in litigation seeking to test the right of the state to invade private industry in the ostensible interest of the public welfare.

Judge Carr's opinion will echo in the 1941 session of the Michigan state legislature. For if there was anything certain it is the likelihood that retail forces in the state will gird again for battle over fair trade legislation. The past two sessions have been battle scenes, and the 1941 round will be no exception.

What is all the shooting about anyway?

And where does the consumer come in?

The fair trade movement is an American hang-over from the idealistic NRA of 1933, the "Blue Eagle" child fathered by the United States Chamber of Commerce and mothered by the Roosevelt administration—a paradoxial couple!

To bounce the business chisler, to prevent unfair competition and to assure everyone of a decent profit was the modest goal that the Blue Eagle sought to achieve. It was a nice idea at least, and everybody was for it as long as there was a Chinaman's chance of it getting somewheres.

But when the United States supreme court unanimously knocked out the national recovery act as an unwarranted invasion of legislative rights, the American business man was left just where he was before—dependent upon himself to solve his business problems.

That is where fair trade legislation came in.

The motive was the same; the scene for action was merely transferred from Washington to Lansing; the state government, not the federal government, was to be the rescuing angel.

The 1937 legislature received the fair trade orphan with sympathy.

Idealistically, no one sheds a tear for the chiseler, the big bad man of the business world. The "rub" came in when legislators sought to decide how big the fair trade tent should be. When the cutting was all over, the big top was reduced to petroleum and bakery products which had maintained powerful lobbies supported by special contributions. Lawmakers decided that something had to be done in the name of fair trade; a "law" had to be passed, and so the measure was enacted.

Judge Carr of Lansing, however, doubted the wisdom of the act from the consumer's point of view as well as from the retailer's. He said in part:

"In the exercise of the police power the principle has been

Schools Reopen For Long Winter Period

The Tecumseh public schools reopened on Tuesday morning after an 11-day holiday recess. The children will not enjoy another extended vacation until March 22, when school will adjourn until April 1, the usual spring recess.

W. L. Berkhof, superintendent, said today that everything is progressing normally in the grade buildings and at the high school, and that for the next three months the "business-as-usual" slogan would be observed. For the most part, he said, the students welcomed the reopening of the school after the holidays. Five new students were enrolled in the several grades this week, Mr. Berkhof said. They are members of families that have recently moved to Tecumseh.

There were no extensive repairs to any of the buildings during the recess, Mr. Berkhof said, the janitors confining their activities to general cleaning, and the waxing of floors.

OLD AGE

Retiring on account of advanced years is stoutly opposed by Roy Holton, writing for a current magazine. Retirement means unhappiness if it does not mean dependence on some pension plan. Forsaking responsibility and active interest in affairs is the most disheartening experience in life. The writer urges that the wisdom of age be retained as needed counsel and ballast for beginners. The consciousness of old age hurts most if one is forced into idleness and into accepting help from the young or from a paternalistic government. Instead of getting out of the way to make room for youth, the writer would have age help youth, or fill niches where age can best serve. The problem of old age would be best handled by maintaining interest in affairs and keeping busy. Old age at 65 or 70 still needs an opportunity and an independent life. The writer concludes: "We speak of social security for the aged as though all that matters is enough to live on. That matters to the aging, as to everyone else: but handing out money alone does not give them nor the rest of us any important social security. We must think about the aged in terms of what they really need."—Wayne (Neb.) Herald.

FARM PROBLEMS

(Continued from Page 1)

extension services have been highly successful in encouraging farmers to grow better products. But in every case it hasn't been easy to solve the new problem of surplus and competition for markets.

Hence, the role of state government as an arbitrator in the milk industry and as a tax collector in the apple industry. Both roles were made possible by acts of the 1939 legislature, and they have occupied much time of Commissioner Elmer A. Beamer.

This extension of state activity, much of which is self-financed by fees, was accompanied, however, by the inevitable increase in payrolls—a fact which has been disturbing to Mr. Beamer amid all the administration's efforts at economy.

The department's payrolls, increased approximately $75,000, are being offset more than $50,000 in fees collected for inspection services. The remainder is covered by legislative appropriations to permit continuance of testing of Michigan livestock.

Commissioner Beamer estimates that payrolls for the inspection of fruits and vegetables will be increased by approximately $27,000 during the present fiscal year. (As we pointed out two weeks ago, the administration's fiscal year began last July 1). This amount of $27,000 will be returnable in fees paid to the department for inspection of farm commodities.

During recent months the demand for service has been steadily increasing with payrolls for the first five months of 1939-40 fiscal year reaching $23,101.54 compared to $11,494.46 for the same period last year. Records disclose that a large portion of this increase was caused by requests for inspection of apples purchased by the Federal Surplus Commodities Corporation. This federal agency required inspection of apples, and returned $8,000 in increased fees to the state for this service.

Compulsory inspection of onions likewise increased a demand for inspection with a corresponding increase in fees.

Other food products which require inspection by the state in the interest of both the producer and the consumer are poultry products and beans. Poultry products alone were responsible for an added $6,000, while another $6,000 is expected on the basis of present expenditures for inspection of beans due to demands for grading of large quantities of colored beans.

In a discussion of inspection payrolls Commissioner Beamer pointed out the department attempted to provide this inspection service upon an actual cost basis with the producers and processors sharing the cost.

The apple commission, from taxes collected from apple growers, reimburses the state department for the cost of apple inspectors who are deputized by the commission to act in its behalf. The amount of money necessary for payment of this inspection staff is advanced to the department monthly.

Approximately $4,000 in the department's payroll increase will be shown as a result of the newly effective farm produce storage, which is operated upon a fee basis, with fees returnable to the department to make the service self-sustaining.

As a result of the 1939 milk marketing act, Michigan milk farmer-producers are $527,000 ahead in income for the year.

This amount represents the increase in price granted to producers on 177,000,000 pounds of milk since Sept. 1. In southern Michigan, for example, prices which ranged from $1.50 to $2.45 per hundredweight have been stabilized. Of the increased producer income, $496,600 went to producers in the Detroit milk area; $7,800 to Muskegon area producers; $8,000 to Ann Arbor and $25,000 to Grand Rapids producers, the latter increases being made voluntarily by distributors.

For the apple growers, the 1939 act has not had an opportunity to function as it has been challenged for constitutionality and is now in the courts.

The 1939 review shows clearly that marketing problems have occupied more time of the legislature and state officials than for many, many years. The trend is significant.

After a day in the heated school room, however, the pupils found they were mistaken, as baby bees came swarming out into the room.

Home

"ALL things come home at eventide,
Like birds that weary of their roaming."

What a fine picture these words paint! And how familiar! Perhaps this trueness and familiarity explain their universal appeal, for men everywhere love the thought of home. Sometimes it is the home they have known in childhood; again it may be one they are enjoying now. Or it may be an ideal which they yearningly hope to attain.

But whatever may be the case, home symbolizes shelter, comfort, joy, contentment, rest, companionship; a place where one is understood, loved, encouraged. These things are legitimate. Yet today there are many who seem homeless or unhappily situated.

"Whither shall I go from thy spirit?" and "I will dwell in the house of the Lord for ever" (Psalms 139:7;23:6), are utterances of one who had at least glimpsed the spiritual aspect of home. He had also seen something of the nature of man—the man whom the Scriptures depict as made "in the image of God"—and so he could say (Psalms 90:1), "Lord, thou hast been our dwelling place in all generations."

The Discoverer and Founder of Christian Science, Mary Baker Eddy, realized that God can only be imaged forth by that which possesses the nature of God. Therefore, man, made in God's likeness, is not a material mortal, but a spiritual idea. In her "Miscellaneous Writings" Mrs. Eddy makes this very clear. She writes (p. 186): "We learn in the Scriptures, as in divine Science, that God made all; that He is the universal Father and Mother of man; that God is divine Love: therefore divine Love is the divine Principle of the divine idea named man; in other words, the spiritual Principle of spiritual man. Now let us not lose this Science of man, but gain it clearly; then we shall see that man cannot be separated from his perfect Principle, God, inasmuch as an idea cannot be torn apart from its fundamental basis."

A young woman who had always loved her home found, after her childhood home no longer existed, that some of her happiest moments were those spent in the homes of her friends. The home atmosphere seemed to make her thought expand. It brought her rest and satisfaction. As she analyzed her thoughts, she began more earnestly than ever to desire a home and to appreciate all the evidences of home she had ever had.

Then suddenly she awakened to the fact that since man is always in the presence of God, his Father-Mother, man is always at home. Joyfully she began to declare this truth for herself, wherever she was—in her room, at her office, or elsewhere. She commenced to see that this same truth was true about all of God's sons and daughters; that as she consciously acknowledged this fact, everyone who came to her must feel the joy and peace of being at home. It was not long before this young woman was sharing an apartment with a friend and experiencing to a greater degree the blessing of being at home. . . .

These comforting passages point to the fact that since God, our Father-Mother, includes all the good there is or ever can be, we need not fear that we shall lose anything precious if we acknowledge, love, and adopt the spiritual concept of home. Nor can we fear that this home will not be progressively beautiful. Indeed, we shall be opening our eyes to behold and experience more of the glories of earth and heaven.

As we discern that man can never be separated from God, we realize that man can never be separated from home. All the good which we see expressed anywhere is evidence of our consciousness of God's presence. Good, then, is not personal, limited, or restricted. Real home is not liable to be broken; for man's relationship to God is God-sustained. Home cannot be lost; it is as ever present as God Himself. It cannot become drab or uninteresting; it is illumined with the radiance of love, filled with the ideas of Truth. Home cannot lack tenderness, companionship, joy, or any other good, for divine Love is always imparting its own tender, joyous qualities. And man is always in the company of God's witnesses. Surely we need not be fearful about our home, for we can always lift our thoughts to accept the home God knows, and receive the blessing He promises: (Isaiah 26:3): "Thou wilt keep him in perfect peace, whose mind is stayed on thee: because he trusteth in thee."—*The Christian Science Monitor.*

CORN LOOKS LIKE PAW

JONESVILLE (MPA)—Looking like the paw of some clumsy animal, a stalk of corn eight inches long has been on display here. At the stalk end it is like any normal ear, but instead of continuing round and straight, it spreads out until at the tassel end there are 11 tips or cob points instead of the customary one. The corn is typical yellow dent.

BREAD BUILDS ENERGY

According to Miss Ruth Weir, head of the home service department of Michigan Bakeries, Inc., the energy supplied by 10c worth of good bread is sufficient for a 25-mile walk.

This fact is based on a comparison of energy values and prevailing prices of common foods.

"Bread leads as our most economical energy food," Miss Weir points out. "Given 10c worth of potatoes, one can walk 20 miles; on the same amount of salmon, 12 miles: milk, 10 miles; eggs, 8 miles; cabbage, 8 miles; steak, 7 miles; and apples, 5 miles."

EVERYTHING HAPPENS

BROOKLYN (MPA)—One thing after another has been happening to 10-year-old Archie Lawrence, Jr. A few weeks after he fell off the roof of a new building, Archie underwent an appendectomy. He had just recovered and returned to school when he was investigating a belt on a water pump, and the pulley caught his right hand and mangled the first finger. He may have to have his tonsils out soon.

NO HITCHING POST

PORTLAND (MPA)—When Tom Beaver parked his car and went into the post office he probably didn't even think about a hitching post. But when a few minutes later someone rushed into the post office and exclaimed that a car had just smashed a big show window in a main street store, Tom had misgivings. He was right; his car had rolled a block from where he had parked it, ending up in the store window.

GETS WHITE SQUIRREL

PERRY (MPA)—Harry Nohel, who lives south of Perry, secured an unusual pet this fall. While in the woods, he captured a white fox squirrel. Except for its tail and the under part of its body, the animal was all white. The pet was quite a curiosity to his neighbors.

FARM PROBLEMS

(Continued from Page 1)

extension services have been highly successful in encouraging farmers to grow better products. But in every case it hasn't been easy to solve the new problem of surplus and competition for markets.

Hence, the role of state government as an arbitrator in the milk industry and as a tax collector in the apple industry. Both roles were made possible by acts of the 1939 legislature, and they have occupied much time of Commissioner Elmer A. Beamer.

The extension of state activity, much of which is self-financed by fees, was accompanied, however, by the inevitable increase in payrolls—a fact which has been disturbing to Mr. Beamer amid all the administration's efforts at economy.

The department's payrolls increased approximately $75,000, are being offset more than $50,000 in fees collected for inspection services. The remainder is covered by legislative appropriations to permit continuance of testing of Michigan livestock.

Commissioner Beamer estimates that payrolls for the inspection of fruits and vegetables will be increased by approximately $27,000 during the present fiscal year. (As we pointed out two weeks ago, the administration's fiscal year began last July 1). This amount of $27,000 will be returnable in fees paid to the department for inspection of farm commodities.

During recent months the demand for service has been steadily increasing with payrolls for the first five months of 1939-40 fiscal year reaching $23,101.54 compared to $11,494.46 for the same period last year. Records disclose that a large portion of this increase was caused by requests for inspection of apples purchased by the Federal Surplus Commodities Corporation. This federal agency required inspection of apples, and returned $8,000 in increased fees to the state for this service.

Compulsory inspection of onions likewise increased a demand for inspection with a corresponding increase in fees.

Other food products which require inspection by the state in the interest of both the producer and the consumer are poultry products and beans. Poultry products alone were responsible for an added $6,000, while another $6,000 is expected on the basis of present expenditures for inspection of beans due to demands for grading of large quantities of colored beans.

In a discussion of inspection payrolls Commissioner Beamer pointed out the department attempted to provide this inspection service upon an actual cost basis with the producers and processors sharing the cost.

The apple commission, from taxes collected from apple growers, reimburses the state department for the cost of apple inspectors who are deputized by the commission to act in its behalf. The amount of money necessary for payment of this inspection staff is advanced to the department monthly.

Approximately $4,000 in the department's payroll increase will be shown as a result of the newly effective farm produce storage, which is operated upon a fee basis, with fees returnable to the department to make the service self-sustaining.

As a result of the 1939 milk marketing act, Michigan milk farmer-producers are $527,000 ahead in income for the year.

This amount represents the increase in price granted to producers on 177,000,000 pounds of milk since Sept. 1. In southern Michigan, for example, prices which ranged from $1.50 to $2.45 per hundredweight have been stabilized. Of the increased producer income, $496,600 went to producers in the Detroit milk area; $7,800 to Muskegon area producers; $8,000 to Ann Arbor and $25,000 to Grand Rapids producers, the latter increases being made voluntarily by distributors.

For the apple growers, the 1939 act has not had an opportunity to function as it has been challenged for constitutionality and is now in the courts.

The 1939 review shows clearly that marketing problems have occupied more time of the legislature and state officials than for many, many years. The trend is significant.

FIVE GENERATIONS LIVING

KINDE (MPA) — Five generations of one family, all girls, were present when Mrs. Rose Miller observed her 78th birthday recently. She was visited by her mother, daughter, granddaughter, and great-granddaughter. Her mother, Mrs Mary Cieslax, is 102 years old and still active, doing housework and sewing without using glasses.

WHITEHALL (MPA)—Pupils of Miss Jueta Stoffer at Conklin school became interested in nature study this year. Some collected various types of bees nests, thinging they were empty. After a day in the heated school room, however, the pupils found they were mistaken, as baby bees came swarming out into the room.

FREMONT (MPA) — A skunk blundered into the basement of a local house and was caught in a rat trap. For five days, the family living in the house avoided the basement. Finally an experienced skunk exterminator took the matter in hand. He wrapped the animal in a heavy rug and took it outside to be disposed of.

Home

"ALL things come home at eventide,
Like birds that weary of their roaming."

What a true picture these words paint! And how familiar! Perhaps this timeliness and familiarity explain their universal appeal, for men everywhere love the thought of home, sometimes it is the home they have known in childhood; again it may be one they are enjoying now. Or it may be an ideal which they yearningly hope to attain.

But whatever may be the case, home symbolizes shelter, comfort, joy, contentment, rest, companionship; a place where one is understood, loved, encouraged. These things are legitimate.

There are many who seem homeless or unhappily situated. . . .

"Whither shall I go from thy spirit?" and "I will dwell in the house of the Lord for ever" (Psalms 139:7;23:6), are utterances of one who had at least glimpsed the spiritual aspect of home. He had also seen somewhat of the nature of man—the man whom the Scriptures depict as made "in the image of God"—and so he could say (Psalms 90:1), "Lord, thou hast been our dwelling place in all generations."

The Discoverer and Founder of Christian Science, Mary Baker Eddy, realized that God can only be imaged forth by that which possesses the nature of God. Therefore, man, made in God's likeness, is not a material mortal, but a spiritual idea. In her "Miscellaneous Writings" **Mrs. Eddy makes this very clear. She writes (p. 186): "We learn in the Scriptures, as in divine Science, that God made all; that He is the universal Father and Mother of man; that God is divine Love; therefore divine Love is the divine Principle of the divine idea named man; in other words, the spiritual Principle of spiritual man. Now let us not lose this Science of man, but gain it clearly; then we shall see that man cannot be separated from his perfect Principle God inasmuch as an idea cannot be torn apart from its fundamental basis."**

A young woman who had always loved her home found, after her childhood home no longer existed, that some of her happiest moments were those spent in the homes of her friends. The home atmosphere seemed to make her thought expand. It brought her rest and satisfaction. As she analyzed her thoughts, she began more earnestly than ever to desire a home and to appreciate all the evidences of home she had ever had.

Then suddenly she awakened to the fact that since man is always in the presence of God, his Father-Mother, man is always at home. **Joyfully she began to declare this truth for herself, wherever she was—in her room, at her office, or elsewhere. She commenced to see that this same truth was true about all of God's sons and daughters; that as she consciously acknowledged this fact, everyone who came to her must feel the joy and peace of being at home. It was not long before this young woman was sharing an apartment with a friend and experiencing to a greater degree the blessing of being at home. . . .**

These comforting passages point to the fact that since God, our Father-Mother, includes all the good there is or ever can be, we need not fear that we shall lose anything precious if we acknowledge, love, and adopt the spiritual concept of home. Nor can we fear that this home will not be progressively beautiful. Indeed, we shall be opening our eyes to behold and experience more of the glories of earth and heaven.

As we discern that man can never be separated from God, we realize that man can never be separated from home. All the good which we see expressed anywhere is evidence of our consciousness of God's presence. Good, then, is not personal, limited, or restricted. Real home is not liable to be broken; for man's relationship to God is God-sustained. Home cannot be lost; it is as ever present as God Himself. It cannot become drab or uninteresting; it is illumined with the radiance of love, filled with the ideas of Truth. Home cannot lack tenderness, companionship, joy, or any other good, for divine Love is always imparting its own tender joyous qualities. And man is always in the company of God's witnesses. Surely we need not be fearful about our home, for we can always lift our thoughts to accept the home God knows, and receive the blessing He promises (Isaiah 26:3); "Thou wilt keep him in perfect peace, whose mind is stayed on thee: because he trusteth in thee."—*The Christian Science Monitor.*

FINDS NEW RACKET

CARO (MPA)—A local man discovered a new racket by being the victim of it, but prevented continuance of it by tipping off police. CORN LOOKS LIKE PAW

JONESVILLE (MPA)—Looking like the paw of some clumsy animal, a stalk of corn eight inches long has been on display here. At the stalk end it is like any normal ear, but instead of continuing round and straight, it spreads out until at the tassel end there are 11 tips or cob points instead of the customary one. The corn is typical yellow dent.

BREAD BUILDS ENERGY

According to Miss Ruth Weir, head of the home service department of Michigan Bakeries, Inc., the energy supplied by 10c worth of good bread is sufficient for a 25-mile walk.

This fact is based on a comparison of energy values and prevailing prices of common foods.

"Bread leads as our most economical energy food," Miss Weir points out. "Given 10c worth of potatoes, one can walk 20 miles; on the same amount of salmon, 12 miles; milk, 10 miles; eggs, 8 miles; cabbage, 8 miles; steak, 7 miles; and apples, 5 miles."

EVERYTHING HAPPENS

BROOKLYN (MPA)—One thing after another has been happening to 10-year-old Archie Lawrence, Jr. A few weeks after he fell off the roof of a new building, Archie underwent an appendectomy. He had just recovered and returned to school when he was investigating a belt on a water pump, and the pulley caught his right hand and mangled the first finger. He may have to have his tonsils out soon.

NO HITCHING POST

PORTLAND (MPA)—When Tom Beaver parked his car and went into the post office he probably didn't even think about a hitching post. But when a few minutes later someone rushed into the post office and exclaimed that a car had just smashed a big show window in a main street store, Tom had misgivings. He was right; his car had rolled a block from where he had parked it, ending up in the store window.

GETS WHITE SQUIRREL

PERRY (MPA)—Harry Nohel, who lives south of Perry, secured an unusual pet this fall. While in the woods, he captured a white fox squirrel. Except for its tail and the under part of its body, the animal was all white. The pet was quite a curiosity to his neighbors.

SEEK SOLUTION TO LAND PROBLEM

HANDLING OF TAX DELINQUENT PROPERTY IN MICHIGAN IS BECOMING A REAL BUSINESS

LANSING — Effective in Michigan recently, is a new statute which strives once more to untangle the age-old problem of land.

It mirrors a major part of the history of Michigan itself. This history is written in the terms of human use of land and of exploitation by outside interests of the land's natural resources and by-products such as fur, timber, iron, copper, oil and gas.

It recalls the hey-day of greedy speculation of land in the Detroit metropolitan area during the boom years of 1924, 1925 and 1926 when a wave of excessive and poorly controlled subdividing swept over the city and its environs, leaving in its wake a trail of tax delinquencies and overdeveloped realty.

It reveals a shameful neglect and indifference by state and local government in intelligent planning and conservation.

It reviews a reoccuring cycle of human ambition and disillusionment, success and failure, happiness and heartaches.

Here is a subject so commonplace that it is almost prosaic.

Yet there probably is no one other thing in Michigan which affects so many people. Consider then for a few minutes this paramount problem of land and how our state government is trying to solve it.

Confronted with the cold fact that 1938 advertising of delinquent land in Michigan had disclosed the existence in tax default of approximately 1,500,000 acres in northern Michigan and the Upper Peninsula and literally millions of dollars in undeveloped residential and business lots in the Detroit metropolitan, the 1939 state legislature arrived at this solution:

(1) Tax delinquent land north of the south line of Arenac, Midland, Isabella, Mecosta, Newaygo and Oceana counties would go to the state conservation department for disposal through its land division. Thus, suitable forest land (and unsuitable agricultural land) could be added to the state forests. Municipalities would be given an opportunity to acquire tax title in their boundaries for purpose of school sites, playgrounds or parks.

(2) Tax delinquent land lying south of the above line which extends generally from Muskegon to Bay City would be offered for resale by a state land board at a "salvage" auction in May, 1940. All such land will be offered for sale at a minimum of 25 cents on the dollar of assessed valuation. Dispossessed owners may have the privilege of matching the highest bid and of obtaining title again. Former title-holders may enter into an agreement with the state land board to pay such a redeeming price over a period not exceeding 10 years.

If the lands are not redeemed by former owners within the 30 day period, a deed will be issued conveying absolute title to the "salvage sale" purchaser.

In Northern Michigan and the Upper Peninsula the state conservation department may dispose of the delinquent tax lands in one of three ways:

(1) Reserve the land for state forests and other conservation units. This would recognize the character of the land as being unsuitable for agricultural use. Speculators could not obtain the land for exploitation after which the land likely would revert to tax delinquency and thus proceed once more through the process of being advertised, offered for sale, and so on.

(2) Offer at public auction after appraisal and establishment of minimum prices—owner at time of tax sale having 30 days following the auction to redeem for the amount of the auction bid. This corresponds with the plan for southern Michigan with one exception that while sale is discretionary in northern Michigan, it is mandatory in southern Michigan.

(3) Exchange with the United States and individuals when such procedure is for the best interests of the state.

In the place of speculation and spoilation, through which hundreds of millions of second-growth trees might be stripped by lumbermen and "timber skinners," Northern Michigan land is to be carefully administered by a state department created in 1921 for the purpose of fostering conservation of natural resources.

The land boom problem that exists in southern Michigan is largely the result of a subdivision boom, quite like the Florida boom which developed in the mid-twenties.

Today, in the city of Detroit and in adjacent area, enough subdivided lots are on the tax rolls to accomodate an increase in population of three million people!

The Michigan Planning Commission, in a survey completed in 1939, found that only 4.3 per cent of subdivided lots in four townships in Wayne county, immediately adjacent to Detroit, were being utilized. The commission also pointed out that a lack of coordinated policy of restrictions had produced "rural slums." Out of 5,323 residences constructed in four townships, 60 per cent are without furnaces, 58 per cent without bathrooms, and 54 per cent without basements.

In thirteen metropolitan townships studied, 65.1 per cent of all subdivided lots platted were advertised in the 1938 tax sale. More than three-fourths of all advertised lots were tax delinquent for five or more years.

The commission concludes: "The return of this land to private ownership, unencumbered by delinquent taxes, will not assure the payment of taxes in the future, unless the return is accompanied by a program which will bring this land into proper use." It would only mean a repetition of existing abuses, another turn in the land merry-go-round.

Responsibility for prevention of such abuses should be vested, the commission continues, with "legally constituted planning authorities having jurisdiction broad enough in scope to encompass the overlapping interests of municipalities, townships, and counties in the area affected by the plat."

Originally all land in Michigan belonged to the Federal government, and prior to that, of course, to the Indians.

In 1837, when Michigan was admitted to the Union, section 16 of every township was turned over to the state with the stipulation that sale proceeds would go to a state primary school fund. Later the state colleges were given a grant of 30,000 acres for every representative in Congress. In 1850 Congress passed a swamp land act whereby six million acres came into state ownership for drainage development. The state would give swamp land script in payment for the building of roads and bridges, such script being discounted at banks and purchased by land speculators.

Then came federal land grants to builders of railroads, whereby belts of land six to eleven miles in width were granted outright to railroads. (1866, Lansing to Traverse Bay railroad.) Builders of the Soo ship canal and the Keweenaw ship canal, for example, were given a choice of desirable timber lands.

Between 1870 and 1890 came the timber-cutting boom when lumber interests stripped much of the land of valuable pine and then left the idle cut-over land, tax delinquent, for the state to worry about.

It was not until the 1893 depression that the state, after trial and error process, established a sound general tax law which provided that five-year tax default lands could be sold to homesteaders and land companies.

Into the modern picture comes the 1929 oil and gas discovery in Midland and Isabella counties—an interesting story in itself.

In 1933, the year of the bank moratorium, the state legislature enacted a tax moratorium for relief of distressed property owners.

In May of 1936 a tax sale was to have been held to sell 1933 tax default land and any unpaid installments (10-year plan) on 1932 and previous tax years. The legislature later delayed the tax sale to May, 1938, when the accumulation of all tax defaults were compiled into one gigantic tax list. In metropolitan areas the tax delinquencies had mounted to astounding proportions, and the set of publication in these counties (despite a 50 per cent reduction by the 1937 legislature) was abnormally large for reasons found in simple arithmetic.

The present grand jury investigation at Lansing into possible mishandling of state funds through the office of the 1937 and 1938 auditor general, George Gundry, and his assistant, Martin Lavan, attorney at Brighton, involves the metropolitan tax lists.

Thus, the land story unfolds a history of Michigan from the era of Indian fur trade to the present week. The state once again seeks a solution for an old problem in which speculation and exploitation have had such a prominent place.

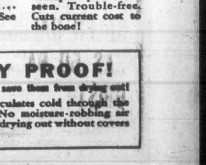
Facts from the U. S. Weather Bureau prove that there are just a few days when the outside temperatures are in the Safety Zone...32 to 50 degrees! Don't gamble! On warm days food spoils... on cold days it freezes...and you're the loser!

In a survey of over 58,000 Frigidaire owners, women reported they save an average of $10.70 per month with Frigidaire. That's over $50 in 5 months! See the amazing "Cold-Wall"... that saves foods from drying out... without covers of any kind! Come in. See how you, too, can save $50 this winter!



Only Frigidaire has the Meter-Miser!

Simplest refrigerating mechanism ever built. Whisper-quiet. Unseen. Trouble-free. Cuts current cost to the bone!

See this X-RAY PROOF!

You don't have to cover foods to save them from drying out!

New Cold-Wall Principle circulates cold through the walls and around the food. No moisture-robbing air circulation. Foods saved from drying out without covers of any kind!

FAIR TRADE LAW

(Continued From Page 1)

commonly recognized, and rather firmly established, that the public welfare is best served by freedom of competition, rather than by arbitrary curtailment. This is at least an abridgment of the right of the owner to fix his own selling price."

The knock-out court opinion on the fair trade act also involved unofficially Michigan's new milk price-fixing law, passed in 1939.

Observers are wondering what Judge Carr would do if he were asked to rule on the constitutionality of this startling step of state government into private enterprise. The milk act vested authority in local milk control boards to fix both producer and retail prices. Through a "check-off" system the expense of maintaining these boards was automatically provided for.

The state of New York was one of the first to experiment on price-fixing for milk producers and consumers. In a test case, the United States supreme court declared that, because of the element of public health, the state possessed police powers under the New York constitution to regulate milk prices.

But Michigan's constitution is a different document. It is being freely forecast in Lansing that the new milk price-fixing law will be declared unconstitutional. Except for the point of public health, Judge Carr's legal reasoning would seemingly apply to the matter of milk prices.

The experiment of the state government trying to fix prices for the consumer is not an isolated incident to Michigan.

It is a national trend in which is involved a new movement known as the "consumer movement."

If government is to look out for the organized interests of special groups, who is going to look out for the consumer?

Here again the problem has been taken to the United States supreme court. Legislatures in California and Illinois enacted laws which established minimum retail prices of manufactured products where the manufacturer entered into contract with the retailer. The California and Illinois laws were upheld, the court pointing out that the retailer could remove brand names from a price-fixed product and sell it without regard to the contract price provided he did not refer to the brand or its maker.

These fixing of minimum retail prices has been legalized by Congress through the Tydings-Miller amendment to the Sherman act.

While stabilizing prices of nationally advertised products, the act left a loop-hole for stores which could offer their own private non-advertised brands and thus undersell competitors. Actually the national chain drug interests appeared before a congressional committee at Washington in support of the minimum price bill.

That the result has been to increase retail prices for the consumer was the substance of a survey made by the R. H. Macy and Co., New York retail store. Average percentage price increases on bronded items ranged from 8 per cent for cosmetics, 16 per cent for drugs, 17.6 per cent for books to 16 per cent for miscellaneous items.

It was inevitable that the cost of advertising should enter the fair trade picture.

Advertising costs have been a mystery to the average consumer.

Hence it was timely when the Distribution Committee for the Twentieth Century Fund, a Filene enterprise, reported last fall that the total expenditure for advertising probably amounted to less than three per cent of the aggregate sum paid by the consumer. As the "American Consumer" magazine stated in December, the Fund study furnishes facts to affirm the opinion of the great bulk of American consumers that advertising in itself is a sound economic device, performing a valuable and profitable consumer service and is not an "economic waste" as has been charged.

Since the cost of advertising is a modest part of the consumer dollar and actually a means to effect lower prices through greater distribution and production — the automobile being a Michigan example—the fair trade problem simmers down to a question of what is best for the consumer, the great American public.

And that is food for thought.

BACKUS, OF HANOVER EARNS 3 SETS CHINA

John Backus, Hanover farmer who exchanged 25 bushels and 20 lbs. of wheat for "1900" Flour last week earned the right to take home 3 sets of dinnerware. For every 10 bushels exchanged a 5 piece set is awarded. On 25 bushel grists we get extra generous and make it 3. Here are the other lucky farmers who will get good bread and whose "wimin" folk will get free dishes:

1st—John Backus, Hanover.
2nd — Charles Berry, Blissfield.
3rd — Walter Luce, R D 6 Jackson.
4th—William Tirb, Manchester.
6th—Carl Listman, Tipton.
6th — Chester Schultz, Onsted.
7th — Fred Haeussler, Manchester.
8th—Martin Wenk, Chelsea.
9th—Ernest Gobba, Britton.
10th—C. W. Schlicht, Manchester.

LIEBECK, OF CHELSEA SELLS WHEAT HERE

Although the loads of wheat that came to the mill last week were not as large as during the previous weeks when the big movement was on, nevertheless the points from which wheat came to Tecumseh was nearly as varied: The following farmers, in order mentioned, sell us the largest individual loads of wheat last week:

John Lieback, Chelsea.
Andrew Varga, Cement City.
Carl Schumaker, Manchester.
Art Feldkamp, Saline.
Fred Anderson, Tecumseh.
A. Hertler, Ann Arbor.
William Fritz, Tecumseh.
Raymond Platt, Tipton.
Wilfred Waldron, Tecumseh.
Wayne Moore, Adrian.

RALPH HAEUSSLER HAS 50 BAG GRIST

Speaking of sizable feed grinding grists, the biggest one last week was for Ralph Haeussler of Clinton who bought 6300 lbs. of corn and 1430 lbs. of oats and had them ground here. This made 50 bags of coarse grinding at 7c or only $3.50 for the job.

NEVER DREAMED HIS HOGS WERE WORMY

Here's a story that every hog raiser in Michigan should read. It's true, and the enterprising young farmer who told us the story is well known in this community. His name will be given upon request at the mill.

Farmer X, we will call him, bought 9 pigs 5 weeks old from one of the best hog breeders in this section. Farmer X took the pigs to his farm, put them on a cement platform, and kept it clean at all times so that they could not pick up worms.

At the mill we have been urging that he have his pigs wormed, so Farmer X gave in and consented to the "operation." He took these pigs off of feed last Thursday noon, gave them a little slop Friday noon, and had Dr. Britton worm them Saturday. We'll let farmer X tell the story from now on:

"I never dreamed that pigs could be as full of worms as mine were," he said.

"Believe me, I'll never raise another pig that I don't worm."

SAVE ENOUGH FEED TO PAY WORMING

We believe that any farmer will save enough feed in a month's time to pay the cost of worming his pigs. We have a special arrangement whereby a farmer can get his hogs wormed at a very reasonable cost. Ask for details.

HAYDEN'S HOG BALANCER $2.69

We have been mixing our own Hog Balancer for over a year now, and can refer any feeder to some of the best known feeders in this section who will testify to the value of this splendid supplement. Price undoubtedly will soon advance from present price of $2.69 cwt.

REMEMBER FREE DISHES ON WHEAT

Ask for our deal whereby we give dishes not only on flour exchanged but on wheat sold to us. It's a honey for the farmer!

QUEEN AGAIN — IT'S NEWS

BRETHREN (MPA)—Miss Opal Fay Baker was Manistee county's queen of youth and beauty at the 1938 county fair. In 1939, she was chosen queen of the Northern Michigan Potato and Apple Show at Traverse City, representing 31 counties. She didn't know of this recent election until show officials asked her to pose for a photograph.

The U. S. Census Bureau will use 340,000 lead pencils, 6,500 pints of ink, 9,000 pounds of paste, and 1,000 typewriter ribbons in counting the population of this country next year. And when it is finished all we will know is that we have 130,000,000 people, one-fourth of whom are unemployed.

What is neutrality, anyhow? When the teacher read of the crimes of the Roman emperor, Nero, and asked Jimmy Jones what was his idea of the character of Nero, that potential politician replied: "He never done nothing to me." Was he right, or just cautious?

Concerning the sale of its Tennessee properties, Mr. Wendell L. Willkie, president of the Commonwealth and Southern Corp., said, "The loss of these properties will not be in vain if it serves to arouse the American people against government invasion of their business."

SEES NEED FOR FARM PROGRAM

HENRY PHILLIPS, BLISSFIELD, TELLS FARMERS' STORY TO ROTARY

Henry Phillips of Blissfield, active in soil conservation work in Lenawee county and an intensive farmer, was the guest speaker at the regular noon-day luncheon meeting of the Tecumseh Rotary Club, Tuesday at the Boston Lunch. Mrs. Edward Green also addressed the club, urging the establishment of a county health unit and asking for the organization's cooperation.

Mr. Phillips, who has given the state and national soil conservation programs careful consideration since their inception, declared that while they are far from perfect, and he did not approve of either of them in their entirety, yet they are the best programs thus far submitted, and should receive the study of both agriculture and business.

Machinery, Mr. Phillips thinks, is replacing man power on the farms, just as it is replacing workmen in the shops. He also pointed out to the Rotarians the rapid growth of the nation and declared that something must be done to stabilize agriculture and business.

"There's an old saying," Phillips said, "that as the farm goes, so goes the country. It's a pretty true one, and I think that we are finding it so more and more as the days go by. When the farmer has a prosperous year, so does industry and business generally. Give him a lean year and the whole country suffers."

Mr. Phillips urged that farmers especially give the soil programs careful thought and cooperate if possible. He is of the opinion that a suitable program must be worked out if there is to be a national recovery that will be stable for both agriculture and business.

Mrs. Green explained briefly the workings of the county health unit program and declared that there is a county-wide effort being made for the establishment of such a program in Lenawee. She urged that the club study the plan and if possible, cooperate in the movement. At a meeting of the board, following the program, John Larsen was named to inquire into the project and to submit his findings at a future meeting.

About 10 members of the club went to Monroe Tuesday evening to attend an inter-city meeting of Rotarians at the Park Hotel.

American Indian Is Club's Study Topic

Mrs. Nina Heath and Mrs. Harold Wilson were hostesses to the Florence Weld Mission Guild Monday evening at the home of the former on West Kilbuck street. Mrs. Guy Nemire presided at the business meeting and Mrs. Al Helzerman conducted devotionals. Mrs. Nemire also read an original poem in tribute to Miss Martha Caldwell, an active member of the guild, whose death occurred since the Christmas meeting when she assisted with the program at the home of Mrs. B. J. Pulver. Other tributes were also given by various members. It was decided that Mrs. Nemire's poem be written in the secretary's book as a part of the report of the meeting.

A letter was read from the Rev. W. V. Joyner of New Market, Tenn., to whom the club has sent contributions, and it was decided to hold a layette shower for his family at the next meeting.

The program topic "The American Indian" was presented by Mrs. Frank Nyland, assisted by Mrs. E. E. Davis, Mrs. W. H. Harper and Mrs. Sam Reed. Refreshments were served in conclusion by the hostesses assisted by Miss June Heath.

The study of the American Indian will be continued at the next meeting to be held at the home of the Misses Grace and Jennie Gillespie and Mrs. C. A. Slayton on North Pearl Street in two weeks. The members are asked to contribute items concerning Indian missions for this program. Mrs. W. L. Jones will be the leader and Mrs. Fred Marsh will conduct the devotions.

BOARD STUDIES NEW PARK PLANS

MAY SEEK WPA AID ON NEW FIELD; ASSESS DISTRICTS TUITION

The Tecumseh board of education held a busy session on Tuesday evening, discussing plans for the school's new athletic park and the financing of the local educational program with reduced assistance from the state.

Walter E. Frazier, civil engineer, met with the board and discussed ways and means of preparing the school's recently acquired natural amphitheatre as a suitable athletic park. The field, which lies just north of the Central school building, will require some grading and other ground work and there is a possibility that assistance may be obtained by the district in the form of a WPA grant. This possibility will be further investigated and discussed at a future meeting, in any event, the board hopes to begin work on the field early in the spring.

The board decided to assess, hereafter, all school districts sending pupils to Tecumseh for high school training. Each district will be asked to pay $11.20 per pupil. This action is in keeping with changes made in the Michigan School Aid Act, the districts receiving the funds from the state with which to make the payments.

W. L. Berkhof, superintendent, reported the installation of a new forge in the manual training department of the school. This expenditure was authorized several weeks ago by the board in keeping with its plan to expand the local vocational education program.

The board again approved the Michigan agricultural and home economics contracts, presented by the state department, and voted to sponsor the Independent Basketball Tournament here, sometime in February.

Earl Lindsley, treasurer, reported the receipt of $7,600 in district tax money.

INDIANS HUMBLE ONSTED QUINTET

DEFEAT VISITORS 20 TO 19 IN FAST GAME; ADDISON HERE ON FRIDAY

In the first game on the hardwood schedule here since the mid-winter vacation, the Tecumseh high school Indians treated a large crowd of local and Onsted fans to one of the most spirited, hard fought and close finishing battles of the season, last Friday evening.

Onsted, highly touted in view of their record of only one defeat this season, and that at the hands of Addison by a one point margin, entered the game apparently confident of not too hard a win. However, the local quintet, supported for the first time this year by a veteran from last year, Sam Hamilton, who has been out with injuries, carried the battle to the Onsteders from the first whistle, continually threatening their goal while playing almost an air-tight defensive game. Although the Indians' passing game was greatly improved over previous games, their field goal shooting percentage seemed rather low in the early part of the session. Recovery from the backboard on long shot attempts kept the Redskins popping at the basket with enough success that the score at the half stood even at 8 to 8.

Onsted started the second half with a burst of speed which by the middle of the half placed them in the lead by a score of 10 to 17. However, with about four minutes to play, Coach Raitz threw two substitutes, Rumpf and Mohr, into the game. The resulting combination seemed to "click" and fairly swamp the Onsted defense. Baaske, held down in the first half of the game, contributed four points, Mohr, three, and Rumpf, two while Onsted was held to a single field goal. With a minute and a half to play the score stood at 18 to 18 in favor of Onsted. In the next few seconds Baaske looped in the winning basket to make the score 20 to 19. During the remainder of the game neither team was able to capitalize on opportunities from the floor or by the foul line. Wilson, at guard, and Lenardson at center, both playing the whole game, contributed three points each, while Brazee, captain for the game also held scoreless, Baaske was the high point man with eight points.

The Indian Reserves took the decision in their game by a score of 20 to 6.

The game tomorrow evening promises to be another hard fought battle, with Addison invading the locals home floor. Play will start at 7:15, the main show starting an hour later.

FINANCE STILL MAJOR PROBLEM

LANSING HEADLINES THIS YEAR STRANGELY RESEMBLE THOSE OF A YEAR AGO

LANSING — "Here is where we came in."

A year has elapsed since a new administration took control of state government at Lansing, and the prevailing topic is still about the same as it was a year ago; Finances.

You will recall that the late Gov. Frank Fitzgerald held high hopes of effecting substantial economy in the cost of state government. His pledge of payroll reductions was a campaign issue. When Fitzgerald became governor, he emphasized the need of more local control — "home rule" if you please — instead of more and more centralization of power at Lansing, as has been the case for many administrations regardless of their political sponsorship.

This philosophy was shared by Luren D. Dickinson, and when he became governor the creed of economy was continued officially. The state legislature resisted many requests for state aid; state welfare appropriations were cut from an expended total of approximately $15,000,000 for the fiscal year ending July 1, 1939 to $8,750,000. On paper the budget was to be balanced; millions of dollars were to be saved.

Reflecting to a certain extent the legislators' mood for economy was its decision to slice drastically the appropriation for administration of civil service. Then the civil service act was overhauled; the revision bill was tagged "ripper bill" by administration critics.

In the light of all these efforts for economy, payrolls were expected to decline. Financially, the present administration can not be held responsible for appropriations made for the period ending July 1, 1939. Any payroll statements must be subject to this condition.

Apparently contradictory to the economy efforts was the discovery in October that payrolls of state government had reached a new high for the first nine months of 1939. In dollars the all-time peak of spending was $19,368,651, compared with $18,789,074 for the same period in 1938; $17,214,754 in 1937, $14,417,076 in 1936.

Examination of the payroll record shows that a mere handful of state departments and agencies were responsible for most of the payroll increase. Among the state departments which effected economy in payrolls were the auditor general, attorney general, banking, civil service, governor's office, highway, liquor control, old age assistance, public service, sales tax, secretary of state, and welfare. Departments showing an increase were agriculture, conservation, employment service

AGE AND THE CALENDAR

Years on the shady side of life are not so telling as they were several generations ago. You all recall the little woman dressed in black, with a shawl over her shoulders who looked to be a typical grandmother and in appearance and actions typified age. Today women of that same age are stepping lightly about with permanent waves and gaily colored garments. They merely will not accept the calendar counts of years and are better off and happier for it.

A friend of ours was telling of his attaining the age of 61 recently. He is in good health and enjoying life and not what you would call an old man by any means. He states that his father died at the age of 61 and recalls his long beard and the fact that he was the oldest man in his community. Yet at 61 this man drives his own car, enjoys life and is very active.

We all think of Henry Ford as a wealthy man and justly so. Yet did you ever know that Mr. Ford was working for a wage and spending most of what he earned thinking with a car when he was past 40 years old? He had gone five years past the half-way mark of "three score and ten" when he only started to create a gigantic organization and to build a vast fortune. Mr. Ford has passed his 76th birthday and is far from being a has-been, as his competitors will verify.

It may be that modern science and the modern manners of living play a part in keeping people active longer, but it also is proper to believe that the modern attitude towards life, shown visually in dress, is another factor and not the least in importance.

Strand Theater

"MR. SMITH GOES TO WASHINGTON"

When better pictures are made, Frank Capra will make them!

Until that time, however, we'll sit tight and unhesitatingly declare Capra's "Mr Smith Goes to Washington" the greatest picture of his hit-packed career....and, therefore, the greatest picture ever to come out of Hollywood!

The film which opens Sunday at the Strand Theatre, a Columbia production co-starring Jean Arthur and James Stewart, is a stirring human spectacle created by Capra out of the very heart of America, filled with all the laughter, the love, the pain and the joy of the everyday business of living! Deep in its understanding of the average human being, "Mr Smith Goes to Washington" possesses, as well, all the thrilling beauty of an American nation governing itself, all the strength and scope inherent to a brilliant narrative whose principal thesis is rooted deep in the glorious traditions of a great democracy.

"Mr Smith Goes to Washington" is more than great entertainment, it is a great emotional adventure, a study in character and in social forces.

Claude Rains, expertly cast as "Mr Smith's" senior colleague, is deeply moving as a man who must compromise his highest ideals. Thomas Mitchell is seen as a newspaperman who has a strong, unexpressed devotion for Miss Arthur.

Others in the sensational cast include Edward Arnold as a bluff, genial political boss who hardens when "Mr Smith" lifts his voice in protest against his unscrupulous grafting; Beulah Bondi, as the mother of the earnest young Senator; Eugene Pallette, as a political henchman; Guy Kibbee, Ruth Donnelly, H. B. Warner, Harry Carey and numerous other stellar personalities.

Communication . .

Dear Sirs:

Tecumseh is very satisfactorily solving its problems coincident with its rapid growth and increased traffic but it seems that there is one which really should receive immediate attention and that is at the corner of Chicago Blvd. and South Evans.

This corner is bad enough in the summer but in winter with icy streets it is a real menace. This street gets its full share of the traffic to and from the factories. Cars and trucks line up on the east side waiting for the green light. On the west side parked at an angle are cars, many of them with trailers.

This being the case it leaves a truly narrow but far from straight lane for the south bound traffic.

This problem is taken care of very nicely on the north side by parallel parking. Why not the same regulations on the south.

Hoping this may merit the attention of the authorities, I am
One of the Bumper Dodgers,
Mrs. N. E. DePuy.

FOUND NO CURB SERVICE

WHITE PIGEON (MPA) — Because the state police post here does not provide curb service, the trooper on duty didn't pay much attention to repeated blowing of an auto horn in front of the post. When it continued, the officer investigated, thinking something might be wrong. Interrupted by alcoholic hiccoughs, the driver asked how to get to Louisville. "You don't. You're staying here," replied the trooper. The driver stayed.

A great executive can accomplish little if he is surrounded by men who do not understand his plans.

Mr and Mrs W. Holden of Ann Arbor visited Rev. and Mrs Samuel Tamblyn last Wednesday. Rev. Ronald Tamblyn who had spent several days with his parents accompanied them to Ann Arbor, en route to his home in Holyoke, Massachusetts.

SUGAR BEET PROGRAM ANNOUNCED FOR 1940

Lenawee county sugar beet growers are assured of a sugar program in 1940, according to announcement received by the Lenawee County Triple A office this week.

"The sugar quotas which were suspended by the president on September 11 have been re-established and immediate steps are to be taken to get the program in operation in all domestic sugar producing areas," Earl G. Scott, Lenawee county A A A chairman said.

The quotas were suspended in September when sudden demand, due to the outbreak of the European war, depleted retail stocks in many localities.

Conditional payments to growers for the 1940 sugar beet crop will be dependent on the appropriation of the necessary funds by Congress, Mr Scott added.

Growers who wish to receive the sugar beet payments authorized by the Sugar Acts of 1937 are required to meet certain conditions which include non-employment of child labor, payment of fair and reasonable wages to farm labor, prevention of erosion and improvement of soil fertility and compliance with grower "proportinate shares."

New Year—New Leaf—

Why Not New Car?

THE slate's clean, the past is past, you're making a new beginning on a new year you hope will be happier and finer and richer — how about doing the job up right?

You spot the fun possibilities in this brilliant and buoyant Buick just by watching it flash by, but have you been in to *try* it?

Do you know what it's like — first hand, we mean — to have a hundred-plus Dynaflash horsepower waiting your treadle-foot's nudge? Have you sampled the thrill in such an engine micro-poise-balanced to smoothness a wrist watch can't hope to equal?

Today's winter-roughened roads give you swell chance to try out BuiCoil Springing's gentle ride — raw weather emphasizes the stout snugness of Unisteel Bodies by Fisher and the convenience of the Flash-Way Direction Signal.

Now's when you most need firm new rubber — sure, soft, tiptoe brakes — Buick's automatic choke — stout, taut frames and rugged bodies, and why wait for spring to buy beauty that gives your spirits a lift?

Then too, driving speeds are naturally lower now and driving distances shorter, making this the best time of all to get a car properly started in life.

So figure it out! It's a new year. You've turned a new leaf. Ask your Buick dealer what a new Buick will cost you now — and let every month of 1940 contribute to a happy new year!

Not a six but an EIGHT for $895 and up delivered at Flint, Mich. * Transportation based on rail rates, state and local taxes (if any), optional equipment and accessories — extra. Prices subject to change without notice.

Display Case

The display this week is an interesting one by the seventh and eighth grade manual training classes under the direction of the coach, Mr Raizk.

They have made and displayed several lamps, book shelves, wall shelves, book ends, book stands, metal ash trays, metal serving trays, airplanes and several whatnots.

We hope their friends will like these as much as we do.

Reporter: Ethel Cook.

Chapel Program

We began our Chapel program Monday by singing "God Bless America." Our leader, Miss Humphrey, was absent, so we had to sing the song by ourselves. Alice Louise Claus played the piano.

Our speaker was Rev. Escolme. He read Psalm 119 to us and talked about working for the future. He ended the program with a prayer.

Betty Holdridge, Reporter.

Sixth Grade
Mrs. Smith, Teacher

When we came back to school we wrote stories about our Christmas vacation.

Our room won the prize for selling the most Christmas seals. The prize was a box of Crayonex.

We have been doing some work at the board this week, and it has been a lot of fun.

We have been studying bird nests, which are very interesting.

In English we have been learning to use dictionaries, and we have found there are two kinds, the abridged and unabridged.

In our spelling race rows one and four won.

Room helpers this week are Justin Coover and Rex Snellenburger.

Reporters: Bobby Randall and Marjorie Wickwire.

Fifth Grade
Miss Starr, Teacher

We have a nice coal plant in our room. It is fun to watch it grow. We have a picture poster of Mt. St. Helens. It is very pretty.

Colleen Davidson brought some cotton to school which she sent for at New Orleans, Louisiana. There is the ball with the seeds in it, the cotton after going thru the gin, and some seeds.

In gym the girls have been marching, and playing ball. The boys are marching also. Some get out of step. During half of the period we play with the basketballs, and the other half we march. The room helpers this week are Louise Wilson, Gwendolyn Watson and Tommy Rutherford.

Reporters: Richard Teske and Colleen Davidson.

Fourth and Fifth Grades
Mrs. Pfaus, Teacher

We are happy to be in school after a very much enjoyed vacation.

On Tuesday we told about the experiences which we had during our holiday recess.

Before Christmas we made plaques for our parents. All of them were pretty and were appreciated.

We are studying very hard to finish our first semester's work and prepare for our tests.

In fifth grade arithmetic we are learning to add fractions. All of us like this part of our work.

Joann Richards was a visitor in our room Friday.

Betty Beevers and Janice Bovee are room helpers this week.

Second Grade - West Branch
Miss La Pointe, Teacher

Donald Eugene Rogers, who has been attending school in Shelbyville, Ind., has enrolled in our grade.

In art classes we are making pictures by tearing the paper instead of cutting it.

All of the class has returned to school after the holidays except LeRoy Helstand.

A number of children brought some of their Christmas gifts to school to show their friends. We have enjoyed reading a story which Greta Underwood brought about a dog named Rusty.

Kindergarten - West Branch
Mrs. Updyke, Teacher

For many weeks we have enjoyed stories about boats and have had fun playing boat, too. After we returned from our Christmas vacation we decided we would build a large steam-boat.

Many new words have been added to our vocabularies such as, pilot, port hole, life preserver, light house and others. To many of us boats were quite unknown, and we are enjoying playing passenger, pilot, and life saver.

Now, the Government is willing to help you build your home — loan you the money at a low interest rate, and make it possible for you to repay over a long period of years, like rent.

Why do you delay longer your own home-building program? The plan is sound, the government is back of the enterprise.

Stop paying rent, see us today for complete details of this government-financed program. We will be glad to discuss costs with you, assist you in planning your home, and helping to arrange your financing.

Kroger Co. Launches 1940 Advertising Program

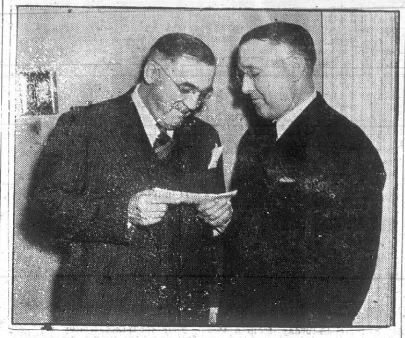

Photo shows Wayne C. Cowling, Toledo branch manager of the Kroger Grocery & Baking Company, presenting to G. S. Speck of Pemberville, president of the Northwestern Ohio Newspaper Association, Kroger's 1940 policy of weekly newspaper advertising. The presentation was made at the Toledo Club, where the publishers were guests of the Kroger organization at dinner, last Friday evening. About 25 newspaper men attended, including Earl L. Wickwire, publisher of The Herald.

The Kroger company believes, according to Joseph B. Hall of Cleveland, eastern division manager, that 1940 will be a record year for the smaller communities. No longer, he declared, need people go to the larger centers to do their shopping because the small town has brought to their doorstep the things they demand. The Kroger company is fully recognizing this fact and is mapping its advertising and merchandising program accordingly.

Other Kroger officials attending the meeting were H. C. Graybill, Toledo sales manager, and C. D. Myers, Toledo advertising manager.

"In any community where Kroger operates a store, we want to become a part of that community," Mr. Hall said. "We want to cooperate in every way that we can, in business, in civic life, socially."

FOR 3¢ . . . we run all over Town!

Up one street — down another — around the block, all around the town....that's electricity—on the go every minute, looking for work to do, and ways to help you.

3 cents apiece....that's all we now average for all the kilowatt hours our home customers buy. (New rates are really "cut prices.")

But for that 3 cents—or for some, electric service that may only use 2 or 1 or 1-2 cent's worth of current —no matter where you live, we run all over town, any time, day and night and right into your wires if you've got something for us to do.

Play your radio? — wash the clothes?—protect your food?—light the house like a bazaar, or flip one tiny light in the middle of the night? — big job or little, for a dime, a nickle, a penny or any part of it....the "whole works" is on the job for you.

Where else do you get more for your money?

Yes....where else will the family money, pennies at a time, buy more, do more?

Pork chops? Food? Clothing? 'axes? Housewares?

A pork chop is still a pork chop. At twice the price, or at today's prices, it's still the same pork chop. But electricity?....at prices half of what they used to be, it does dozens MORE things. Does old jobs better. Cuts out costs of old methods. And brings many household benefits you couldn't have bought at any price a few years ago. They didn't exist. Today they are for all the people.

Besides....Consumer Power service helps put the kids here through school. Helps keep the police and fire departments running. Helps make a living for other workers in all kinds of local businesses. That's because of the taxes we pay and which must come out of what you pay for our services. And the payrolls we put into the town, from 24 to 52 times a year.

So you see, your pennies for electricity (AT PRICES THE CHEAPEST IN HISTORY, AND AT RATES AMONG THE LOWEST IN THE COUNTRY) buy more, and do more than ever—for you and your community, both.

Section 1. The word "Person" as used in this ordinance is hereby defined to be any person, firm, partnership or copartnership, or corporation which is the owner or occupant of any house or other building or any premises, lot or lots, or parcel or parcels of land in said Village.

Section 2. In addition to other remedies now in force, the Village shall have as security for the collection of any water rates, or any assessments, charges or rentals due or to become due for the use or consumption of water supplied to any house or other building, or any premises, lot or lots, or parcel or parcels of land, a lien upon such house or other building and upon the premises or lot or lots, or parcel or parcels upon which such house or other building shall be situated, to which such water shall be supplied. Section 4. Upon the filing of such statement as herein before provided, the Village Council shall by resolution declare the amounts due and unpaid to be a lien against the premises to which such water was furnished, which resolution shall direct the Village Treasurer to levy such amounts as assessments against the premises to which water was furnished, the same to be certified under the hands of the President and Clerk of said Village; and the Village Treasurer shall thereupon proceed to collect such assessments in the same manner and at the same time as other taxes are collected in said Village.

Section 5. The Village may discontinue water service from the premises against which the above lien has accrued whenever any person shall fail to pay the rates, assessments, charges or rentals herein referred to, or may institute suit for the collection of the same in any Court of competent jurisdiction, but no attempt to collect such water rate, assessment, charge or rental by any process shall in any way invalidate or waive the lien upon the premises.

Section 6. This ordinance shall not repeal any existing statutory or ordinance provision providing for the assessment or collection of water rates, assessments, charges or rentals, but shall be construed as additional power to any now prescribed.

FINANCE STILL MAJOR PROBLEM

(Continued From Page 1)

health, labor, public instruction, state police, treasurer, and unemployment compensation.

Two state departments — employment service and unemployment compensation — deal heavily in federal funds. Their payrolls appear on the state record, but their major source of income is the money which employers and employees contribute in social security payments. The unemployed compensation commission derives all its funds from Washington; the employment service is financed jointly by Washington and Lansing.

These two agencies, offsprings of the Roosevelt New Deal, represent a total of $643,607 in higher payrolls for the nine month period of 1939.

Of course, the same condition as fo these two agencies existed during Frank Murphy's administration. New agencies of government, created usually to meet demands of the public, are usually responsible for payroll increases, and the Dickinson and Murphy administrations are recent examples of how it works out.

Government costs have grown steadily from $66,559,214 in 1922-23 to $247,084,041 in 1838-39. What has been responsible for this revolutionary change?

The major reason for this increase according to state officials at Lansing, has been a decline in local responsibility at home and a corresponding increase in centralized responsibility at Lansing. Abolishment of the state property tax and levying of a general sales tax was one illustration of the process.

Auditor General Vernon J. Brown revealed a few days ago that $129,000,000 collected this year by the state would be returned to local or independent units of government or spent for local rather than for state purposes. This is 80 per cent of the state's spendable revenue.

Governor Dickinson points out that "if we can stop the growth permanently, even if we aren't able to make a reduction in the cost of government, I think we will have made a big accomplishment."

From the offices of the state budget director comes comforting news that, despite payroll increases, the state has spent two million dollars less than it did a year ago. Dickinson phrases the financial trend as being at a "pivot" and adds that "if we can starts costs downward instead of upward, our administration will have made still more of an accomplishment."

It is the governor's belief that additional funds for relief, for example, should be financed by home governments. "Counties, cities and townships can legally borrow money, which the state cannot do," he explained. And again, "it is easier to call a special session of a board of supervisors than the State Legislature. Municipal officials, backed by organized labor, are inclined to shift the burden on the state. The relief crisis at Toledo and Cleveland are timely illustrations of the general trend.

Will Governor Dickinson call a special session of the legislature to vote more funds for relief from a non-existent surplus in the state treasury? Recently Governor Dickinson said "it doesn't look to me that there are any immediate prospects of a special session — or that there will be any prospects very soon."

Here is a January problem that strangely recalls headlines of one year ago.

MANY FARMERS FEEDING HAYDEN'S HOG BALANCER

We have hesitated up to the present time to say too much about one of our newest products, Hayden's Hog Balancer, but we're not going to keep our "light under a bushel" any longer.

The splendid results gained by some of the best hog raisers in this area has proved to us what we thought — that HAYDEN'S HOG BALANCER is one of the best 34% supplements on the market.

BEST INGREDIENTS IN HAYDEN'S HOG BALANCER

Just as we have endeavored to make our flour as nearly perfect as possible, so we have done on Hayden's Hog Balancer. We have used the best ingredients that money could buy, such as 60% Tankage, our own middlings, 36% Soy Bean Meal, 34% Linseed Oil Meal. In addition to Bone Meal, Limestone, salt, and double strength Cod Liver Oil.

FORMULA FOR BEST RESULTS

For hogs from 50 to 100 lbs. mix in 1 part of Hayden's Hog Balancer to 3 parts of grain.

For hogs from 100 to 150 lbs. mix in 1 part of Hayden's Hog Balancer to 4 parts of grain.

For hogs from 150 lbs. up to market, finish with 1 part of Hayden's Hog Balancer to 6 parts of grain.

And keep this in mind: When you buy a bag of "H.H.B," you can rest assured that you're buying direct of the manufacturer, with all of the economies of so doing.

MAN IS KILLED IN AUTO MISHAP

AUGUST MITCHELL, BRITTON, FATALLY HURT; ADDISON YOUTH ALSO INJURED

August Mitchell, aged 76 years, was killed instantly; his companion, Robert Jones, 36, was cut and bruised, and their automobile was wrecked when it collided with another car driven by Maurice DeJonghe, 29, on M-50 just west of Britton Thursday evening. All of the parties are residents of Britton and vicinity. Mr. Jones and Mr. Mitchell were driving east and Mr. DeJonghe was going west. Mr. Mitchell's neck was broken in the accident.

Mr. Jones was treated at Dr. R. F. Helzerman's office and Mr. DeJonghe was taken to Tecumseh hospital for treatment of cuts on the face, arms and legs. His car was also wrecked. State police from Blissfield investigated the accident.

Mr. Mitchell, who was born in Germany, had lived here about 48 years. He leaves three sons Frank of Deerfield, Lebrecht of Adrian and Herman of Holloway, one sister Mrs. Amelia Bettman of Britton, nine grandchildren and five great-grandchildren.

The funeral was held Sunday afternoon at the North Blissfield Lutheran church, Rev. Wm. Weinlander officiating. Burial was in the Biegel cemetery.

Hugh Dennis, 23, of Addison, is a patient at Tecumseh hospital for skull injuries received Friday night when the automobile in which he was riding, skidded on the icy pavement at the west end of West Chicago Boulevard and collided with a truck driven by Carl Palmer of Dundee. Mr. Dennis was thrown out of the car when a door flew open. He was unconscious for several hours but was improving at latest reports.

Mr. Dennis and three companions were returning to Addison after attending the basketball game here when the accident occurred. Robert Branch, the driver, was cut about the face and his glasses were broken. Donald Aldrich received arm bruises and John Anderson another passenger was not hurt. The Branch car was badly damaged.

Control Of TB Will Come Soon, Doctor Says

The pennies that are paid into the Michigan Tuberculosis Society at Christmas time, when health seals are purchased by the public, are reducing materially the death rate from the once fatal "consumption," Dr. Thomas J. Werle, chief of staff of the Society told members of the Tecumseh Rotary club on Tuesday, following a regular noon-day luncheon meeting at the Boston Lunch.

"There is hardly a man in this room," Dr. Werle said, "who does not remember when tuberculosis was considered an incureable disease. Today, in Michigan, the death rate is less than 36 to each 1,000, and we are making rapid strides in control measures. We are indeed grateful for the public cooperation and we express our thanks for contributions."

Dr. Werle told how the state was making rapid progress in the control of the disease, and how it had been discovered that some of the former control methods were worthless. He predicted that soon a specific will be discovered, giving medical science an absolute cure.

Next week the Rotary club will meet in Clinton, at the Clintonian hotel, at 6:30 Tuesday evening. There will not be a club meeting in Tecumseh. A score or more of Clinton men will be guests of the local club members at the meeting in the neighboring village.

GOOD BUSINESS YEAR FORECAST

IMPROVED PROSPERITY FOR WAGE EARNER AND FARMER IS SEEN AT LANSING

LANSING, Jan. 18—Although crystal gazing at this time of the year is apt to be done through rose-colored glasses, 1940 forecasts for Michigan have been in significant agreement by predicting:

1. Reasonable prosperity for wage-earners and farmers.

2. Improved financial condition for state government.

3. National spotlight on Michigan's political figures — Arthur Vandenberg of Grand Rapids, Thomas Dewey formerly of Owosso, and Frank Murphy of Detroit.

All in all, they point to an interesting year for Michigan.

While the present European war makes the American scene subject to uncertain economic fluctations, all signs now point to a long and exhaustive struggle overseas. The domestic industrial, business and farm forecasts are all predicted in a degree on the assumption that Hitler and Chamberlain will be calling each other names for many, many months to come.

Michigan basked in better times during 1939.

Proof is seen in the soaring sale tax revenue collected by the state.

According to Walter F. Reddy, managing director of the state board of tax administration, a total of $7,908,000 more was collected during the six months ending Dec. 31 than during the previous period.

Aside from efforts to effect economy in payrolls and department spending, the state administration is pinning its chief hope apparently on a continuation of good business in 1940 with a resultant rise in the taxes such as from the sales tax and liquor, as for the $26,898,000 deficit inherited one year ago from the previous administration, neither state officials nor the state legislature have agreed upon a definite plan to this financial problem.

Governor Dickinson has said repeatedly that he opposed the imposition of new taxes. But whereas his predecessor campaigned on a pledge to reduce state payrolls by many millions, Dickinson has been content to balance the budget—or practically so, at least—and to rest the administration's case on a stand that the constant rising curve of state government costs be leveled off.

By firm insistence on economy, Budget Director Gus T. Hartman has incurred the hostility of many special groups.

Realistic to the trend of increased centralization of responsibility at Lansing, Hartman recently declared:

"Once a tax is imposed, it is never removed. We have already reached the staggering stage under the burden of taxation. The time to fight for good, economical, practical government is now.

"State appropriations have increased $46,000,000 a year from 1939 to 1940. This is an increase of $40,500,000 in aid to local units and $5,000,000 a year in administrative and operating costs. The increase includes $27,000,000 a year for new activities such as old age assistance, aid to dependent children, and aid to blind, and emergency welfare relief. The major increases of aid to local governments went to schools and welfare."

Hartman's views against new taxes have been echoed generally by other state officials. Even the proposal of Melville L. McPherson, state tax chairman, that the date for collection of the state intangible tax be advanced from January, 1941, to January, 1940 has met with widespread opposition. Vote-seeking officials didn't like the idea of collecting a "new" tax before the 1940 November elections.

Municipal manufacturing center for automobiles, furniture and paper, fared well industrially during 1939. Leaders predict sustained and even augmented production and sales during 1940.

Federal economies have been insisting that a slump would take place during the first six months—at least a tapering off from the high point of production following the declaration of war last

TAXES EXCEED HIGHWAY COSTS

Private motorists, trucks, buses, and other highway users contribute far more than their share of the cost of state, county, and local highways, H. E. Stocker, assistant professor of transportation, New York University, concludes after a study of highway costs and income from automotive taxation. The study was made to determine if any subsidy exists in favor of highway users. "The study shows," reports Mr. Stocker in a booklet issued by the National Highway Users Conference, "that state, county, and local highways are not subsidized, but that in 1936, the latest year for which data are available, the highway users actually contributed $270,348,000 in excess of their share of the cost of all rural roads and highways, including urban extensions and arterial streets."

The figures show that total net expenditures for state, county, and local highways in that year were $963,518,000. The income from special vehicle taxes in the same year was $1,233,866,000—an excess of $270,348,000 paid by highway users in addition to the sum actually spent for roads.

If all taxes properly chargeable to the highway users, such as filing station taxes, auto-dealers' taxes, parking-lot taxes, and general taxes on trucks and buses, are included in the compilation, Mr. Stocker adds, there is a balance of $676,380,000 excessive taxes paid by the motorists and other highway users.

The excess tax collection is at the rate of 6.7 per cent on the valuation of motor equipment, garages, terminals, and filling stations, compared with a tax rate of 1.39 per cent assessed against Class I Railroads, the report concludes.

Strand Theater

"HONEYMOON IN BALI"

Fred MacMurray, tall, dark and plenty handsome, and Madeleine Carroll, considered by some the screen's most beautiful woman, are teamed again for romance and comedy in Paramount's gay new film, "Honeymoon in Bali," with Allan Jones co-starred, and Helen Broderick, Osa Massen and Carolyn Lee, four-year-old film find in supporting roles, the picture will have its first local showing on Sunday at the Strand Theatre.

The reuniting of MacMurray and Miss Carroll is nothing short of an occasion for rejoicing on the part of moviegoers, who will recall the team in last season's "Cafe Society." In their new starring vehicle, Fred is cast as an adventuresome lad, just returned from Bali, who believes the proper position for a woman is in a man's arms, not at the head of a Fifth Avenue department store.

Madeleine's attempts to show Fred that she really does love him bring the picture to a romantic and hilarious conclusion.

Woven into the fabric of comedy and romance are two arias, sung by Allan Jones in that superb voice which has thrilled moviegoers so many times.

BIRMINGHAM (MPA) — The popular song, "God Bless America," was first sung in the city of Birmingham outside of its radio presentation by Kate Smith, it was used as the closing number of a church chorus program. Manuscript copies had to be secured from Miss Smith months before the song was published.

SAFETY CAMPAIGN IN STATE PROVES EFFECTIVE

The following reports released today by Harry F. Kelly, Secretary of State show a definite reduction in traffic convictions during the year just passed.

Total convictions for the year of 1938 totaled 28,341, while in 1939 the number of convictions was reduced to 25,389, a reduction of 2952 cases.

"This speaks well of the safety campaign started in 1939," Kelly said, "and we are proud of the cooperation afforded us by the driving public. However, in this battle of highway safey, there can be no compromise — no middle ground; this is a fight that must be waged unceasingly and relentlessly. Favorable results will be shown daily, but only with the complete realization on the part of both the driver and the pedestrian that he must do his part."

School Notes

Sixth Grade
Mrs. Smith, Teacher

We had movies last Wednesday on the story of Anthracite and the Wooden Soldiers. They were very interesting.

We had Richard Watkins type our Safety Rules on the typewriter which he received for Christmas.

We have started to review most of our subjects.

Each morning before we start our subjects we have pupils of the class play different instruments or sing.

We have been told that we should salute the flag a different way. We sometimes get mixed up.

Room-helpers this week are Earl Baldwin and Herbert Farver.

Reporters: Bobby Randall and Marjorie Wickwire.

Fourth and Fifth Grades
Mrs. Pfaus, Teacher

We had several guests last Tuesday and Wednesday. Everyone in the room except two brought to school either a doll or a small toy, which was a Christmas gift. We had a very complete display. Miss Kline's pupils and Joan Pfaus called to see our parade of toys. Shirley Temple with her roller skates and ice skates attracted her share of attention.

Mrs Pfaus has finished reading "Heidi" to us, and now we are enjoying "Heidi Grows Up."

We have finished our first semester's work and are busily reviewing for our tests.

Richard Purkey is a member of our fourth grade group now. He moved here from Sylvania, Ohio.

Billy Fish and Ben Hammack are room-helpers this week.

Third Grade - East Branch
Mrs. Truesdale, Teacher

Learning about life in the far north has a fascination for us just now. We like to read about the fur-clad Eskimo driving his dog sled over the snow, fishing thru the ice, and hunting for seals and reindeer. It was interesting to learn about the long hours of daylight and darkness, and the ways in which the people have adapted their lives to their surroundings. We were glad to see a roll of films on Alaska yesterday. The first was shown to us when we invited to our movie too. Dean Peotter, Martha Ann Hayden, and Jack Whelan have made Eskimo chalk pictures at the easel.

We have enjoyed our play time at school this week. Some of us have been skating and sliding on the pond, all of us have been making snow men, snow animals and igloos in the school yard. The ringing of the bell found many reluctant to leave such fun.

Second Grade - West Branch
Miss La Pointe, Teacher

We are enjoying "The Eskimo Twins." Our language lessons and art work are correlated with this story.

In number work we are learning to add three and four numbers.

We have learned how to read het thermometer and are keeping a record of the temperature for each day.

Our feeding table for birds is being well patronized, and we are kept busy supplying crumbs for our hungry little feathered friends.

Many second grade children have been absent recently on account of illness.

First and Second Grade
East Branch
Miss Borgards, Teacher

Talking of New Year's resolutions led to our discussing good habits. We decided on several good habits which we would like to cultivate. These we put into stick figures, and what fun we had making them!

Snowmen have been in evidence inside and out. Yesterday there were eight or more real snowmen on our playground fixed up with coal, twigs, corn cobs, can covers, and real scarfs. Inside we have torn paper snowmen and some made of cotton. We are making a miniature winter scene.

The members of the White Class have completed their "Dick and Jane" Books and are reading in "Fun and Up" books.

Last Thursday we were invited in to the third grade room to see some slides on Eskimos. We enjoyed the pictures.

Kindergarten - West Branch
Mrs. Updyke, Teacher

This has been a busy week in the kindergarten. After learning to print "S. S. North Star," the name of our big steam boat, we delided to let Ruth Goodacre paint this name on the front of our boat.

We have started our toy making. We have learned to cut with our scissors on lines, and now we are cutting our toys from wood with coping saws. Delane Kimball has his cut out and is painting it. He selected a beautiful sail boat, and the bright red sails and the blue of the boat are very pretty, we think.

Richard Whelan has modeled a splendid cow from clay. Pipe cleaners, we have discovered, make a firm foundation and may be used for the legs of animals, too.

We are making many plans for the next few weeks, and we hope to set the date of our annual spring concert soon.

MISSION GUILD

The Florence Weld Mission Guild will meet Monday evening January 22 at the home of the Misses Grace and Jennie Gillespie and Mrs. C. A. Slayton, when the study of the American Indian will be continued with Mrs. Wade L. Jones as leader.

Hayden Flour Mills, Inc., 44-1940

C. S. VEDDER, OF MILAN EARNS 2 SETS CHINA

Last week the farmer bringing the largest single grist of wheat to our mill to exchange for Hayden's Flour was C. S. Vedder, of Milan. Not only do his "wimin" folk rave about the quality of the flour, but they rejoice over the splendid dishes given free.

The other larger grists of wheat exchanged for flour were brought by the following farmers:

2nd—George Herter, Ann Arbor.

3rd—A. Withrall, Manchester.

4th—John Crittenden, Saline.

5th—John Foote, Tecumseh.

6th—Felix Siefker, Milan.

HAYDEN MILL SITE CHOSEN IN 1823

Through the courtesy of our village historian, and official keeper of the royal archives, J. Newton Satterthwaite, we recently saw an excerpt from the "History of Lenawee County" which gave the following points:

1 Musgrove Evans came to Michigan in 1823 from Jefferson County N. Y. to pick out a good settlement.

2 At Monroe or Detroit Austin E. Wing told him where to find the best water power in southern Michigan.

3 They then explored the country along the upper waters of the Raisin and selected lands embracing the mill sites now occupied by the Consumers Power Plant in Brownville and the Hayden Hydro Plant at the Globe Pond.

4 Joseph Brown, a friend and relative was invited to join the enterprise.

5 In March of 1824 the lands were "entered," the first in the county.

6 Wing, Evans and Brown arrived in May of 1824, coming by way of the "Chicago Trail" from Detroit, following it by way of Saline.

7 When they got to where Clinton now stands they came to the Raisin River, which they followed south to a point where Evana Creek emptied into it.

8 These three pioneers in June of 1824 laid out the original plot of the village of Tecumseh, and had the seat of justice for the County established here.

HERMAN MEHLER SELLS BIGGEST LOAD OF WHEAT

In March of 1926, Herman Mehler was working the Joe Wiggins farm. He brought the largest load of feed grinding to the Hayden mill and won $1.00 prize.

This past week the same Herman (with the possible exception of a few extra pounds of weight!) brought the largest single load of wheat to sell to us.

The other largest sales of wheat from farmers were made by the following:

2nd — Herbert Jacobs, Grass Lake.

3rd—Mike Robinson, Saline.

4th—A. Withrall, Manchester.

5th—E. G. Bourns, Clayton.

6th—Felix Siefker, Milan.

7th — E. Raymond, Manchester.

8th—Art Feldkamp, Saline.

9th—P. G. Ash, Britton.

10th—Herman Paul, Manchester.

THANK YOU MRS. CAMBURN

3rd—It is locally produced."

We also thank you for the suggestion about including recipes.

GOOD BUSINESS YEAR FORECAST

(Continued from Page 1)

Sept. 3. But the automobile industry, for one, is anticipating a good sales year for 1940, and that means much to the entire state.

Wayne county with its General Motors, Ford, Chrysler and Hudson plants led all counties in the United States during 1939 in industrial wages.

The automobile worker receives the highest wage per hour of any specialized group in the nation. Rubber workers are second.

As any Michigan resident well knows, the automobile industry sets the pace for Michigan prosperity. It reaches into scores of small towns where automotive parts are made, and it feeds thousands of dollars to tourist sections for fishing, hunting and vacations.

While local officials were putting pressure on a state officials at Lansing for more welfare assistance, Attorney General Thomas Read bolstered up administration resistance last week. He ruled that county welfare boards may refuse to provide relief for the poor in cities or townships that have failed to provide for funds to solve their own welfare problems.

Read said point-blank that the burden of relief, under the new home rule welfare act, was plainly a responsibility of local units of government. He stated that supervisors had authority to add a levy to the tax roll of any municipality or township which was not financing its own welfare adequately.

Federal Farm Loans On Gain In Lenawee

Farmers of Lenawee county, during 1939 have received more than six times as large a volume of land bank and commissioner loans through the Federal Land Bank of St. Paul and the national farm loan association group office than in 1938, says Carroll H. Lewis, secretary-treasurer, and manager of the group association office at Hillsdale.

In 11½ months of this year 45 loans for a total of over $95,000 have been made in the county, compared with $15,600 for all of last year, he said. Mr. Lewis said these loans have been very carefully made to farmers on a basis of helping to repay them out of their farm earnings.

The associations, he pointed out are particularly interested in making loans that are, not only helpful to the borrowing member, but loans that the member can repay without being burdensome to him. A small amount of principal is paid each year in addition to the interest on the unpaid balance, thus increasing the farmer's equity in his farm each year.

All the business of the five associations is now handled at Hillsdale with an overhead cost of only one office, but all their accounts are kept separate as though made in individual offices. The 5 associations served by the Hillsdale office are located in Branch, Hillsdale and Lenawee counties.

In the entire group territory there have also been a gratifying increase in loans this year, 60 new land bank and commissioner loans totaling $115,300, as against 19 for an aggregate of $37,100 in all of last year.

Trapping Season To End On January 31

LANSING, Jan. 18—January 31 marks the end of Michigan's trapping season on skunk and badger, last of the protected furbearers that may be trapped this winter, excepting beaver on which a special spring season is set.

Badger form a small part of the Michigan fur take, numbering only 503 last year. A total of 34,485 skunk pelts was taken last year before this little striped animal was given the protection of a closed season. Trappers may continue to take bobcats, foxes, coyotes and wolves at any time.

January 31 also marks the close of cottontail rabbit and snowshoe hare hunting in the northern half of the lower peninsula, though in the upper peninsula the season runs until March 1. Regardless of season closing dates, hunters' and trappers' game tally cards are due in the Lansing office of the department of conservation February 15.

MYSTERY SKELETON FOUND AT WAMPLERS LAKE

The remains of someone who had been buried too long to leave usual marks of identification was excavated from the sand bank west of Willow Grove hotel at Wamplers Lake on December 14. The state police post at Clinton was notified, there was little said about it to give the police chance for investigation, and no report has yet been made by the police.

The sand bank is a part of the Willow Grove hotel area and has been in use for years as a source of fill dirt. A few loads were being removed from the bank when about four feet from the surface the skeleton came to light. Not all the bones could be found and the skull was bashed in at the back of the head, is reported by Ellwood Hardcastle, manager of the hotel, who during the winter season lives at the farm home a mile from the hotel.

Mr. Hardcastle has made inquiry and none of the old timers can find any record or remembrance of anyone being buried on the plot. The skull seemed to be that of an adult, with good teeth, no fillings, but no trace of a coffin or box or any cloth or buttons or Indian beads or amulets were found.

Two or three people, who mysteriously disappeared from this area in the years gone past are being called to mind, but nothing has yet been identified. Over on US-112 when it was being graded near Slam several years ago, several skeletons were uncovered and by blanket bits, beads and ornaments identified as Indian remains. So far the remains at Wamplers are just another "unknown pioneer." —Brooklyn Exponent.

Fish Shanties Appear As Lake Ice Forms

LANSING, Jan. 18—With thick ice forming fast on Michigan's inland waters, fishermen are losing no time in finding good locations for their shanties.

The spearing season on inland waters ends with the last day of February. Jacks or other artificial lights may not be used, and trout streams and certain other specified waters are closed to all spearing. Species which may be taken by spearing are carp, suckers, mullet, redhorses, sheepshead, lake trout, smelt, northern pike, muskellunge, whitefish, ciscoes, ploefish or Menominee whitefish, catfish, bullheads, dog fish and gar pike.

Winter fishing is subject to the same license and creel regulations as apply to summer fishing, the fish division of the department of conservation points out, except that bluegills may not be taken through the ice at night, and in five southwestern counties nonresidents are not permitted to fish through the ice from after July 1 to the last Saturday in April. Since January 1, the new 1940 one-dollar license has been necessary.

GAS SERVICE COMPANY TO BRING $100,000 PAYROLL TO TECUMSEH

PURCHASES PROPERTY ON SOUTH ADRIAN STREET; TO BE OPERATING APRIL 1

The American Gas Service Company, a subsidiary of the Blaw-Knox Steel Corporation with headquarters at Pittsburgh, Pa., announced today that it had purchased a site in Tecumseh and would locate a division service and sales office and warehouse here immediately. The announcement was made by John H. Malloy, district manager of the company, who was in Tecumseh taking title to the property on which the buildings will be constructed.

The new company, now employing about 30 people, has its offices and warehouse in Sylvania, Ohio, out of which city it has operated for the past two years. Because of expansion, and the company's plan to service 10 lower Michigan and six northern Ohio counties out of this division, Tecumseh was chosen in preference to Sylvania, because of its more central location, geographically. The 10 Michigan counties to be serviced from Tecumseh are Lenawee, Monroe, Washtenaw, Jackson, Calhoun, Wayne, Oakland, Hillsdale, Ingham and Branch. The counties in Ohio will be along the northern border.

The property purchased by the company formerly was owned by the New York Central Railroad Company. Mrs. R. S. Turner and John Frantz, and is located on South Adrian street, immediately north of the New York Central right-of-way. As soon as weather conditions will permit, necessary grading will be done and a sidetrack extension built, as well as the erection of the pre-fabricated steel structure that will house the offices and warehouse. This building will be 40 by 60 feet in addition, there will be the bulk plant equipment and pumping station. Mr. Malloy estimated that it would cost approximately $35,000 to complete the construction, and he said that his company planned to have the work finished and the offices and plant in operation about April 1.

The company now employs about 30 people, including office assistants, truck drivers, salesmen and plant helpers, Mr. Malloy said, but this number will be increased to 40 soon after the opening of the division here, due to natural expansion. Last year, he said, the company's payroll in Sylvania amounted to approximately $100,000, furnishing steady work for the employees.

Mr. Malloy said that the company would bring about 14 "key" workers and their families to Tecumseh, and that the balance of the payroll would be made up, as far as possible, of local people.

All of the company buildings will be built of steel and cement, the site landscaped and flag-stone walks laid, making the grounds attractive. It also is the policy of the company, it was said, to entirely surround the site with steel mesh fence, and aluminum and white paint is used wherever necessary.

The company distributes to rural and urban homes that do not have the advantages of gas for cooking or heating, a new type of fuel that is to the average person the same as that sold by public utility companies. The company also completely installs the service, including stoves, heaters, hot water heaters and refrigerators, and services such units. The gas, in liquid form, is buried in a tank outside the home, store or office where it is used, and through carburation is broken down for use in the heating or cooling element. Several homes in this village and its vicinity already are using the company's products, it was said, and there are hundreds of new prospects.

The company plans to introduce its gas and gas products to the homes in the 16 counties it will service out of Tecumseh, including Wayne county and its many suburban areas. The gas, in its liquid form, will be stored here and hauled to the users in 11 tank trucks that will be a part of the local equipment.

It is the policy of the company to carry a hundred or more complete gas service units in stock at all times, as well as some 200 ranges, a score or more of refrigerators, hot water heaters, fireplace logs and other appliances. A part of the office space is given over to the display of the merchandise and the balance is stored in the warehouse.

"We will be forced to carry an unusually large stock in Tecumseh," Mr. Malloy said, "because we plan to supply some of our smaller stations in the district from the Tecumseh stock. Tecumseh will be our headquarters for the 16 counties, the 'home office,' so to speak."

The Gas company first considered locating in Tecumseh four months ago and also considered sites in other cities in this area. It was through the efforts of the Chamber of Commerce and its executive secretary, Wade L. Jones, that the deal was successfully completed.

THS Band Invited To Play At World's Fair

The Tecumseh high school band, under the direction of Clare Cameburn, has been invited to play at the New York World's Fair, next summer. The invitation was extended by H. D. Gibson, administration chairman.

"Captain LaBarre, conductor of the New York City Police Band, has told me of your very excellent high school band," Mr. Gibson's letter says, "and that he has written you a personal letter with the hope of interesting you in bringing your band to the New York World's Fair in 1940. He has highly recommended your organization as an outstanding concert unit which should be heard at the fair, and it gives me great pleasure to extend an invitation to your band to play here next summer."

The Fair does not pay any part of the expense of the trip to New York, nor the cost of the band's stay while in the city. Mr. Cameburn estimated that it would cost approximately $1,000 to send the band to New York, and he was unable to say at this time whether such an effort would be attempted. Two years ago the local band won honors at the National Band Meet in Elkhart, Ind., and also honors at the state meet in Ann Arbor.

FARM PROGRAM IS EXPLAINED

BUSINESS MEN URGED TO AID AGRICULTURE IN PRICE STABILIZATION

The necessity for farmers and business men alike to awaken to the need for a program that will assure a better income for agriculture through price stabilization and improved soil will be the interesting subject discussed by nearly 100 people, Tuesday evening, when they met at the Tecumseh Grange hall. The program followed a dinner, served by the ladies of the Grange, and guests included Soil Conservation Committeemen from six townships and their wives, and an equal number of business and professional men and their wives.

Arthur Eaton presided at the meeting and introduced George Kunze of Madison township, who explained the government's farm aid program now in effect. Through soil conservation, and crop loans and an ever-normal granery, Mr. Kunze said, the government is attempting to increase the price of farm commodities and to teach the farmer better methods. The project, he declared, is strictly farm-dictated, and is receiving the cooperation of a majority of agriculture.

Other speakers were Robert Cassier of Lansing, field supervisor, and Earl Scott, county chairman of the farm group. The speakers explained the work now being accomplished through organization and urged that there be a better understanding of the practices by business men.

Mr. Kunze pointed out that it is important that the business man know some of the farmers' problems, and he expressed a desire for a closer relationship between the rural and urban areas.

At the conclusion of the meeting there was a general discussion of the program, and many questions were asked and answered by the group leaders.

The meetings, which harken back to the "little red schoolhouse days," when America was in the making, are considered an excellent means of education. Other meetings of a similar nature are to be held throughout the county within the near future.

Queens to Attend Newspaper Dinner in Lansing Saluting State's Tourist and Food Industries

LANSING, Jan. 25 — As the newspapers' salute to the Michigan food and tourist industries, whose 1939 cash incomes totaled nearly a half billion dollars, an "All-Michigan" dinner extraordinary will be given this evening, at Michigan State college in East Lansing.

Queens of the 1939 Cherry Blossom festivals at Traverse City and Benton Harbor, respectively, will be present. Assisted by their court attendants, they will help serve choice Michigan fruit juices and foodstuffs.

It is to be an unusual demonstration, arranged by the Michigan Press Association, of how self-sustaining Michigan is in the way of producing quality foods. The entire menu, with the exception of pepper, will consist of select meats, vegetables, and fruits. More than twenty state organizations are co-operating with the newspaper publishers' group and the state department of agriculture in the preparations.

The $300,000,000 tourist industry will be represented by managers of the four tourist associations, Spokesman for the growing "cash crop" will be J. Lee Barrett of Detroit. Honored guests will include Hugh Gray of Grand Rapids, Tom Marston of Bay City and George Bishop of Marquette, each one known state-wide for his contribution to the development of the year-round vacation and recreation business.

From Governor Luren D. Dickinson, farmer state executive, will come a sample of Michigan's famed maple syrup. Dickinson is a connoisseur of this delicacy, producing it each spring on his Eaton county farm near Charlotte. According to the federal crop reporting service, maintained at Lansing in cooperation with the state department of agriculture, the Michigan maple syrup industry produced 213,000 gallons in 1939, an increase of 82,000 gallons over 1938. The maple yield also produced 5,000 pounds of maple sugar for use principally in candies.

Michigan agriculture enjoyed a good year in 1939, having a total cash income of $131,479,000 compared with $119,746 for the previous year.

While the state is not generally regarded as being in the "corn belt," yet the corn crop headed the entire food list in 1939 with a total value of $31,449,000. Winter wheat was worth $11,340,000, while oats brought in $13,665,000.

HAMMEL NAMED TO WEST POINT

CONGRESSIONAL APPOINTMENT OF TECUMSEH YOUTH ANNOUNCED TODAY

Jack Wilmeng Hammel, son of Dr. and Mrs. H. H. Hammel of Tecumseh, has been named as a candidate for West Point by Congressman Earl C. Michener, it was announced today. Mr. Hammel, now a student at Stanton Preparatory Academy, Cornwall, N. Y., will take his final admittance examinations for the military academy in March, after which he will continue at Stanton, taking an advanced course in French and mathematics. He will report for duty at West Point on July 1, where he will remain for 15 months without leave of absence.

Mr. Hammel, a graduate of Tecumseh high school with the class of 1939, was born here, January 24, 1922. Popular with his associates, he was president of his class during his junior and senior years, president of the Student Council as a senior and captain of the varsity basketball team. He is an able hunter and trout fisherman.

While still a sophomore in high school, young Hammel had his eye on West Point and following graduation he immediately entered Stanton for preparatory work, in October and November of last year he took three competitive examinations for West Point appointments. On Senator Arthur Vandenberg's list he stood third in the state, on Congressman Michener's list he was second, and in the Michigan National Guard group he was first. He accepted the principal appointment of the congressman, thereby making it possible for two others to obtain admission through the senatorial and National Guard routes.

Young Hammel's appointment to West Point is the second congressional appointment from Tecumseh since the honor was given to Gen. William McNair in the '80's, and is strictly non-political, the Tecumseh young man having won the distinction wholly on his merits in competition with some 50 other candidates. The first congressional appointment went to Webster Anderson in 1924. An early appointment from Tecumseh, in 1839, went to Col. A. S. Cummins. In 1930 John Anderson, a brother of Webster, won an appointment the the Academy through National Guard competitive examinations.

Dr. Hammel, Jack's father, is intensely interested in military affairs and is a colonel in the Medical Reserve in command of the University of Michigan Hospital Reserve Unit. Dr. Hammel also saw over-seas service in the World War, having been loaned to the British Army and connected with the British Expeditionary Forces. In 1915-16, with the regular U. S. Army, he saw service in Texas and Mexico. At the close of the World War, Dr. Hammel held a major's commission.

WORTHWHILE WORK

The 4-H club is commended as an organization that keeps entirely aloof from politics or from attempts to control public policies, either local or national. The growth of this club movement is not only one of the marvels of this era, but one of the best omens for the future of the country.

The secret of 4-H club achievements is clear to anyone who stops to think. The farm boys and girls have succeeded because they set out to find out what was right with agriculture instead of what was wrong.

Those really interested found out so many things were good that they inevitably became engrossed in making them better.

When young people really make up their minds to do something they do it with all their might. With so much energy behind it the 4-H movement had to succeed.

In the future as in the past, a good many farm boys and girls will be attracted to the cities. But those who get interested in 4-H club work are likely to find farm life good and satisfactory. They will continue to make it more so.

Queens to Attend

(Continued from Page 1)

for huge surpluses is to be emphasized by the use of three fruit juices and two vegetable juices on the "All-Michigan" menu. The juices which offer a wide variety of vitamins with different appeals to the taste include apple, carrot, cherry, grape, and tomato.

The total value of Michigan fruit crops in 1939—apple, peach, pear, plum, cherries and grape—was $9,378,000, a substantial increase over the previous year.

Because Michigan is a leading fruit state, it is fitting that the importance of fruit to the state economy would be personalized by appearance of 1939 Cherry and Peach festival queens.

Michigan's all important poultry and meat industries will also play a leading role in the publishers' enterprise.

Choice Michigan turkeys, supplied by the Michigan Turkey Producers Association, will be supplemented by a variety of select cold meats furnished by the nation's only farmers' cooperative packing company.

Apple, cherry and pumpkin pies will be made the old-fashioned way with lard from Michigan's corn-hog belt, recognized as such by the federal government.

Field crops are to be in prominence with the famed, lowly bean, sugar beet, potato and peas providing satisfaction to meet the [illegible] fancy. Composite supplies of these delicacies, furnished by growers' associations, come from more than 53 counties. Also of interest is the fact that the other 30 counties are to be represented on the unique menu.

From the Upper Peninsula will come manufactured dairy products.

They will be in recognition of the growth of the dairy industry in this section above the Straits. Production of all cheese in the Upper Peninsula since 1921 has increased from 597,000 pounds to more than 9,000,000 pounds in 1939. Michigan now ranks third in the production of Italian cheese with more than 1,800,000 pounds, the manufacture of this cheese being entirely confined to the Upper Peninsula. During the past decade processing of condensed milk has been increased from 4,500,000 pounds to 13,260,000 pounds.

Last year, for the first time in history, Michigan jumped into first place in the production of honey. Through the state department of agriculture, drip canisters containing choice Michigan-produced honey will also tempt the appetite.

Approximately 25 different fruit and vegetable condiments, along with rolls and coffee, will go to complete this "All-Michigan" tribute to the food industry. It will be a novel and news-worthy recognition of the part which Michigan agriculture plays in the state's economy.

Episcopal Bishop To Be Installed Soon

An unusual event will take place during the Ote Hundred Seventh Annual Convention of the Episcopal Diocese of Michigan, to be held in St. Paul's Cathedral, Detroit, next Wednesday and Thursday, January 31 and February 1. That event will be the installation of the Rt. Rev. Frank W. Creighton, S.T.D., former bishop-coadjutor of the diocese, as its sixth bishop, at a public service on Wednesday evening in the Cathedral at 8 o'clock. Bishop Creighton the first of this year succeeded as Bishop of Michigan the Rt. Rev. Herman Page, D. D., who headed the diocese for sixteen years, and who will install his successor. This will be the first time that a bishop of Michigan has been installed at a formal service, and of course, since it is the first time that a retired bishop of Michigan has lived in the diocese, such an occasion as this has never before been possible.

St. Peter's church will be represented by the following people: Robert Retter, Clarence Gilmore, Mr. and Mrs. Lester Rogers, W. P. Van Tuyle, Mrs. Jack Smith, Mrs. R. K. Anderson, Mr. and Mrs. Leland Randall, Mr. and Mrs. Richard Dewey, Mrs. Charles Mensing, Mrs. Henry Smith, Mrs. Harold Anderson, Mrs. Mitchel Mobley, Mrs. C. F. Green, and the Rev. and Mrs. Edward R. A. Green.

Half Year Licenses Go On Sale Today

Half-year license plates were placed on sale today at all branch offices of the secretary of state. The date was advanced by Harry F. Kelly to aid prospective license plate buyers who find it inconvenient to purchase full year plates.

Registrations for the year 1939 reached a total of 1,636,963. Approximately one-third of this total or 580,933 car owners purchased half-year plates.

Since the new 1940 license plates were placed on sale last October 24, a total of 157,527 sets of plates have been issued. This figure indicates a minimum of 1,479,436 car owners who must purchase license plates before March 1, if they intend to use the highways of Michigan after that date.

With but 31 days remaining before the mandatory dead-line, automobile owners must purchase an average of 47,723 sets of plates each day until the first of March.

"It will tax every branch to the utmost to issue 47,000 sets of plates per day, but if the bulk of the applicants come in the last few days it is obvious every one can't be served," Kelly said. "The dead-line is March 1st and I want to stress the fact that this date can't be changed by anyone in the State of Michigan. Section 6A of Act 279 of the Public Acts of 1937 prohibits any officer or municipality from extending the time to purchase new plates," Kelly added.

"To facilitate faster service," Kelly continued, "extra help has been added in branch offices where the demand is unusually heavy, and in the near future branch offices will remain open until 9 each evening in the metropolitan areas."

In peace or war, business or pleasure, health or sickness, life or death, the telephone is a most important service. Day and night, winter and summer, the telephone lines must be kept open. The pulse of the community and the nation must continue to beat—that's why a telephone man's so 'portant. Cut this nerve system, business activities become paralyzed, social life is disrupted, ordinary emergencies become crises, and inconveniences become calamities. Our daily existence depends upon the instant use of the telephone — that's why thousands of dollars are invested in miles and miles of wires, countless poles, hours and hours of labor and personnel that stands ready to serve you twenty-four hours every day. Ask to have a telephone installed today—the cost is very reasonable.

POULTRY ASS'N. WILL FUNCTION

Fred Sheldon, President of the newly formed Tecumseh Poultry Ass'n. told us this week, after a conference with George Parsons, Agricultural Teacher, that a series of poultry meetings are soon to be held at the Tecumseh High School. The program is as follows:

Feb. 16—Feeding the laying flock.
Mar. 1—Replacing the laying flock.
Mar. 15—Housing the laying flock.
Mar. 29—Production of quality eggs.

We believe that with the type of poultrymen around here, that with the right "team work" that Tecumseh can be made one of the greatest poultry centers in Michigan. We pledge our best to that end.

LEORA LEWIS MC. LIKES "1900"

What we consider one of the strongest testimonials yet on "1900" Flour was contained in a letter written by Leora Lewis McIlrath of Dowagiac, to her mother, Mrs. C. J. Lewis of Tipton. Here is the portion of her letter written last week: "That is grand baking flour Mother gave us. It makes light fluffy cakes and rolls." Not over two weeks prior to this we received the following written not from her father C. J. Lewis: "My wife bakes all her own bread and has used "1900" for many years. I ran the store at Tipton for 30 years and sold different makes, but my wife most always called for "1900."

362,730 LBS. FEED SOLD IN DECEMBER

December was one of the biggest months in our history from a feed sales standpoint. Including Purina, Hayden feeds, salt, millfeeds, and grain sold to farmers a total of 362,730 lbs. was sold. This is nearly a ton for every business hour of the month.

W. C. FISHER LEADS ON WHEAT

W. Clarence Fisher of Tipton sold the largest single load of wheat to us this past week. It was drawn to the mill by Lester Baker, and the scales said it was 13,690 pounds, making it the second largest single load of wheat since we started keeping this record. The 10 largest sales of farmer wheat to us this last week were as follows:

1st—Clarence Fisher, Tipton.
2nd—Clarence Doan, Hanover.
3rd — F. W. Gilbert & Son, Onsted.
4th—Henry Voegeding, Manchester.
5th—D. A. Robinson, Saline.
6th—Ernest Schiller, Chelsea
7th—Perl Ash, Britton.
8th—Harold Eiseman, Chelsea.
9th — Kothe Brothers, Manchester.
10th—Irwin Haist, Chelsea.

BOULDER MARKS VILLAGE SITE

Last week we mentioned how the site of the Hayden Mill in 1823 was chosen to be the first settlement in Lenawee. This week we would like to ask our readers to close their eyes and imagine how it must have looked in 1824 when there was not a street, not a building, and not even the Red Pond or the Globe pond. May we quote from the Tecumseh Globe of Oct. 13, 1927:

"On the first Monday in June, 1824, the party left Monroe for the 'promised land.' After a difficult journey through a nearly pathless wilderness, and over the low and marshy ground that intervened, they arrived at the place of their destiny, June 2, 1824, about five o'clock in the afternoon. Because there was no means of crossing the Raisin River (where the cement bridge spans it now east of town) they passed around upon the north side of the river, up around by the present site of the Staddish pond, to some land which Mr. Wing had purchased the previous fall. The first settlement is marked by a granite boulder in Brownville. Thus, because with all the baggage and equipment, it was difficult to cross the Raisin River at the point where the Hayden-Ford Mill now stands, the original settlement of the village was moved northward about half a mile."

He attended the rural schools and Raisin Valley Seminary and later married Carrie Lee of Onsted remaining on the farm until moving to Tecumseh 36 years ago. He operated a poultry business here until forced to retire in 1918 because of illness.

SHIP COMPLETED AT LOCAL PLANT

WILL BE DELIVERED THIS WEEK TO PARKS AIR COLLEGE AT ATLANTA, GA.

The first airplane to be built in Tecumseh, manufactured by the Meyers Aircraft Corp., has been completed and will be delivered this week to its purchaser, the Parks Air College at Atlanta, Ga., it became known today. The Meyers factory was located here in late September, and builds only custom ships.

The Meyers ship is built entirely in Tecumseh, except for the motor, tires and precision instruments. It is powered with a 125 horse motor, and has a speed of 145 miles per hour. Al Meyers, president of the corporation, holds all of the patents on the biplane, which is of a military type.

It was said today that the local plant is receiving orders more rapidly than production will permit, and that many South American countries are inspecting the Meyers plane with an idea of purchase. The shop is employing from five to a dozen men regularly.

The airplane factory is located at Tecumseh's new airport on M-52 which was dedicated last August. The port is used as a testing fround for the planes, and also as proving popular for flyers in this section of the state. Scarcely has a day gone by this winter that from one to half a dozen planes have halted here, and this number will be increased by next spring, it is believed.

BROWN EXPLAINS SALE OF LANDS

FORMER OWNERS STILL HAVE CHANCE TO REDEEM TAX AUCTION PROPERTIES

Auditor General Vernon J. Brown, chairman of the State Land Office Board, today outlined a plan by which properties of aged and deserving persons could be withheld from the coming sale of tax-delinquent properties. Mr. Brown also urged former owners of tax delinquent properties which reverted to the state on November 3, to take advantage of the provisions of the State Land Office Board Act in Order that they might regain possession of their properties.

"An unusual opportunity is offered to previous owners," stated Mr. Brown. "It has always been true that properties have been lost through failure to pay taxes. However, realizing that conditions have been such during the past decade that many honest and sincere citizens have defaulted in the payment of tax obligations through no fault of their own, the legislature wisely provided methods by which taxpayers could save their properties. In addition to the many moratorium plans which have been made available through the depression era, the State Land Office Board was created so that those who were unable to avail themselves of these plans might still repurchase their properties from the state on attractive terms.

"An auction sale of these properties will be conducted in each of the counties under the jurisdiction of the State Land Office Board. This Auction will commence at 9:00 A. M. February 13, 1940, at the office of the county treasurer of each of these counties. Properties lying within that county will be offered for sale to the highest bidder provided the bid equals or exceeds 25% of the assessed valuation. Any former owner who wishes to repurchase his property he should be present at the sale to see that at least the minimum bid of 25% is submitted. In case other bidders exceed this amount it is unnecessary to enter into competitive bidding, but the former owner may with 20 days meet any such bid. All former owners may also have the privilege of spreading their payments over a time payment contract whereas other bidders must pay cash for the full amount of their bid within 24 hours. It is the sincere desire of the State Land Office Board that all parties who previously had any interest in these properties also now wish to regain their rights, shall have every opportunity to do so and we believe that this method will permit us to meet every reasonable request of such persons.

"We have been seriously concerned over the plight of a few aged and deserving needy persons who find their properties involved in the coming sale. However, we believe that we have at least a temporary solution for this situation. We are suggesting that the investigators for the Old Age Assistance Bureau and the Welfare Departments arrange to withhold properties of their clients from our sale.

"We shall likewise cooperate with township supervisors and village and city officials in withholding other cases which are not on the relief rolls but which frequently are more deserving of consideration. We shall, of course, have to depend upon such authorities to call these cases to our attention. In this connection it should be pointed out that our tax laws make it the duty of local assessing officers to exempt from taxation the property of those who are financially unable to contribute to the cost of government, and we therefore feel that we are justified in placing the responsibility for the withholding of such properties from the sale in the hands of local officials."

It was also suggested by Mr. Brown that those who are unfamiliar with the procedure to be followed should immediately consult their county treasurer. Lists of properties to be offered for sale and explanatory pamphlets are available at the various offices of the county treasurers.

P.O. SITE CHOSEN

WILL BE LOCATED ON SOUTH PEARL STREET, NEXT TO HAMMEL BUILDING

Tecumseh's new $70,000 postoffice will be located on a site immediately south of the Hammel Building on South Pearl street, and the ground will be purchased from its present owner, Ira W. Ashley, according to reports made public at Washington this week. The Public Buildings Agency said that the purchase price of the property was $4,100.

Franc S. Gillespie, postmistress, said that she had not been advised of the purchase of the land, although it is known that Mr. Ashley submitted a bid. Likewise, it was understood late yesterday that Mrs. Ashley had been advised of the government's acceptance.

Funds for the new postoffice here were allocated by the government about two years ago and ppeviously one or two sites were chosen tentatively. Recently the government asked for new site proposals and more than a dozen parcels were submitted. At that time it was understood that the government planned to speed up acceptance and if possible begin construction this spring.

Window Peeker Visits 2 Homes Over Week-end

Two reports of visits by a window peeker were heard here over the week-end, in both instances, it was said, the peeker visited the Tecumseh homes after midnight on Sunday morning, and in at least one instance he was seen by several members of the family.

The peeker's visit to a North Union street home came about 12:20 Sunday morning when a member of the family saw the man's face pressed against the glass in a downtown window. In the western part of town, the visit was about 1 o'clock in the morning and here the man fled after finding that his presence had been discovered.

The North Union street family identified the peeker there as a man under 40 years of age, less than average height, wearing a hat and brown overcoat. The other family was unable to describe the man.

A few weeks ago reports of window peeking were heard from residents of the south western part of the village, and three or four years ago there was an epidemic of peeking throughout the village. At that time officers became active and halted the practice.

CLINTON FORMS A ROTARY CLUB

TECUMSEH SPONSORS ORGANIZATION IN NEIGHBORING VILLAGE; OFFICERS NAMED

Steps for the organization of a Rotary club in Clinton were taken last Thursday evening by a group of seventy business and professional men from Clinton, Tecumseh, Adrian and Ypsilanti who met at the Clintonian hotel. This action unites Clinton with more than 4,400 communities all over the world where Rotary clubs have come to play a leading part in the progress and development of the community life. Ernest M. Chappelle of Ypsilanti, district governor of Rotary, was the main speaker. The Rev. Edward R. A. Green of Tecumseh presided.

The new club is sponsored by the Rotary club of Tecumseh, Rotary has been brought to Clinton through the friendly feeling of Rotarians of its neighboring community.

Besides Tecumseh, Rotary clubs in places near Clinton are those in Adrian, Saline, Milan, Blissfield, and Ypsilanti.

One of the distinctive features of the Rotary club is that its members are welcomed at every other Rotary club in the world, and the constant interchange of these visits between business men of different cities tends to break down any feeling of provincialism and rivalry, and to build a spirit of good will and cooperative friendship to the advantage of all cities and towns.

The Clinton men present at the meeting last Thursday decided to form a Rotary Club and seek admission to membership in Rotary International, the central organization of which all clubs are members. The following men were elected to the board of directors: M. J. Pardee, Clyde Way, Dr. J. R. Foreman, W. P. Van Tuyle, Claire Kimball and Claire Bellows. After their election the board in accordance with the constitution of Rotary named W. P. Van Tuyle, president; Dr. Foreman, vice president, and Andrew Woodward, secretary and treasurer of the provisional club.

The new club will have its regular weekly meetings at the Clintonian Hotel every Thursday evening, beginning promptly at 6:15 o'clock, and closing promptly at 7:30. The club will meet tonight at the time mentioned to complete further details of organization, District Governor Chappelle will again be present.

As soon as the new club has been admitted into the international organization by vote of the international board of directors, its charter as an official Rotary club will be delivered by the Tecumseh club acting as sponsor in conjunction with the district governor. Delegations from all the other Rotary clubs nearby are expected to attend this event.

A Rotary club is made up of one man from each business and profession in a community. The motto, "Service above self—He profits most who serves best" is interpreted in Rotary in four ways—service to the club to make it strong and active; service in one's own occation; service in the community and service to the world as a world citizen. These four opportunities for service grow out of the four objects of Rotary which are:

1. The development of acquaintance as an opportunity for service.
2. High ethical standards in business and professions; the recognition of the worthiness of all useful occupations; and the dignifying by each Rotarian of his occupation as an opportunity to serve society.
3. The application of the ideal of service by every Rotarian to his personal, business and community life.
4. The advancement of international understanding, good will, and peace through a world fellowship of business and professional men united in the ideal of service.

STATE RELIEF ROW FORECAST

BATTLE BETWEEN CITY AND RURAL AREAS OVER CONTROL APPEARS LIKELY

LANSING, Feb. 1—County supervisors who "received everything we asked for" in the 1939 legislature's home rule welfare act, according to Melville B. McPherson, chairman of the state tax commission, now propose new and drastic changes.

In the first place, the supervisors would have the state get out almost entirely of the welfare field.

Supervisors would hold complete control over how the welfare money is handled, and the state would set aside one-third of its sales tax revenues—or approximately $15,000,000 in a normal good year—for relief needs of the counties.

The blessing of Gov. Luren D. Dickinson, the supervisors' plan was duly proclaimed in the name of economy. The 1939 legislature had appropriated $8,750,000 for welfare needs, a reduction of nearly one-half from the previous year's expenditures, and it had put the home rule responsibility right on the supervisor's lap.

Dearth of funds, however, has been disconcerting to supervisors as well as state officials, which latter particularly dislike the idea of a special session in 1940 for several good reasons, these being mainly the present $30,000,000 state deficit and the unpopularity of any new taxes.

Local Control

Under the supervisors' tentative as approved by the governor the counties would take over responsibility for the spending of other millions—$4,000,000 of aid for dependent children, and $800,000 for [illegible] and several smaller

But while the counties were getting more money for relief purposes, they would leave to the state the administration of state old-age pensions. Again the legislature is asked by the supervisors to step up its appropriations for this form of assistance from $10,000,000 to $12,000,000 annually to be matched with an equal amount by the Federal government.

RED SCHOOLHOUSE
VS. HARVARD

We read with considerable interest an account of a meeting at the Tecumseh Grange Hall a week ago, when farmers and business and professional men and their wives gathered for a dinner and discussion of problems facing agriculture.

We believe that meetings such as these should be encouraged — they should be held more often, not only here but throughout the state and the nation. They should be attended by every man and woman interested in his or her welfare and the welfare of others, because gatherings of this kind tend to bring about a better understanding of the other fellow's problems.

One of the greatest mistakes the people of this country have made in the past 50 years is to grow too far away from their neighbors. When the little red school house was the community center, and folk for miles around met there regularly and lunched in the warmth of the box wood stove, there was real fellowship. A neighbor was a neighbor, he was a friend, a fellow you could depend upon. He didn't treat you nice just for appearances, he did it because you were his friend. In case of illness, he helped his neighbor with his chores and his wife visited the sick home with a willing hand. And in due time no doubt, the favor was returned.

We shouldn't forget those days when your neighbor's problem was your problem. We shouldn't forget that each failure, whether it be on the farm or in business, is damaging to our own farm or al owner of the volume.

our own business. The farm can not succeed without the urban areas, and the business man cannot succeed without the farmer.

The sooner the farmer and the business and professional men learn this the sooner we are going to recover completely from an economic depression that has been hanging over this country for eleven years.

The American farmer and the American business man doesn't need Harvard or a brain trust to find out what is wrong. A little friendly and sincere cooperation will do more than a dozen Harvards.

Chapel Program

A week ago Monday morning our speaker at chapel was Reverend Robinson. Chapel was started with the entire assembly singing "Battle Hymn of the Republic."

Reverend Robinson gave an interesting talk on "The Different Minds of Different People."

We shall all be looking forward to Reverend Robinson's next chapel service.

Last Monday we began our chapel program by singing "Onward, Christian Soldiers," led by Miss Humphrey and accompanied by Alice Louise Claus.

Our speaker, the Reverend Green, read part of a chapter of St. Paul, and talked about humility. He ended chapel with a prayer.

Fourth and Fifth Grades
Mrs. Pfaus, Teacher

The semester tests are completed, and most of us are very happy. All of us have decided that we must work a little harder the second semester.

Ben Hammack was master of ceremonies in music last Wednesday morning. Until then we did not realize we had so much musical talent in our room.

The following pupils have been neither absent nor tardy this year: Parry Cook, Stanley Frost, Donald Beaubien, Louise Bowen, Dorothy Jean Brandt, Phoebe Covell, and Wilfred Waldron.

Maxine Covell and Mary Erhart are room helpers this week.

Second Grade - West Branch
Miss La Pointe, Teacher

We have been learning how to add by the use of a bean bag game which Robert Dillon Moore made for his class, when he was in the second grade.

For our supplementary reading we are using the Weekly Reader. We are enjoying the interesting information found in these newspapers.

The following children have not been absent or tardy during the entire first semester: Donald Bailey, Norman Felger, Thomas Hamilton, Charles Goodacre, Nora Lee Swift, and Willis McKenzie.

Sally Brown was seven years old on January 17th.

Joyce Loyd, who has been attending the East Branch, is now enrolled in our grade.

Mrs George Bailey, Mrs Paul Keyser, and Mrs Richard Beasley visited us during the past week. We want mothers to feel welcome to come at any time.

All but two of our class have subscribed for the Weekly Readers.

LeRoy Heistand has returned to school after a three week's absence due to illness.

Kindergarten - West Branch
Mrs. Updyke, Teacher

We have our boat chart finished. On it we have a steam boat, a sail boat, a tug boat, a motor boat, and a row boat. Each one is illustrated and we like to read it. We made a new chart about elephants, as we know so many things about them. Many new toys have been started this week. Among them are ducks, bears, cats, and dogs.

Since we have started our toy making we have become interested in so many animals that we have not had time to enjoy our steamship. One day we decided to take it down in order to make room for the things we are doing.

Carl Freckleton brought a circus book to school one morning. We enjoyed hearing about the circus animals, the clowns, and the lemonade stand. Carl and Robert Holliday started a fine lemonade stand in our room so that we might play circus here.

The parade of toys that we are making is growing every day. We have elephants, dogs, cats, lions, ducks, boats, and children. These are being cut from wood and painted by the child who has done all the work on it.

Display Case

The display in the case last week was put in by the West Branch and the East Branch schools. It represents a snow scene. On each side are snow-covered hills, with frolicking figures, such as skiers, in realistic poses. These figures are made from cotton and colored paper.

At the back of the case are stick figures demonstrating good habits which everyone should cultivate, such as closing doors quietly instead of slamming them, leaving other people alone, and doing assigned school lessons.

Marjorie Colson, reporter.

Spot Light

I. What history teacher told his class they'd better bring their Bunny Rabbit books to study from?

II. What Senior boy and Sophomore girl stand in the middle of the hall every day and gaze adoringly into each other's eyes?

III. Who was the boy that slipped into the assembly room unseen by any teacher after the 8:30 bell had rung one morning recently,

IV. And who was the enthusiastic Freshman that gave the following definition for an optimist: "He is a man who fits glasses"?

V. What Junior boy is planning a future with a little blonde from Blissfield?

VI. What seventh grade girl, lacking time to dress after gym class, wore her gym suit to the assembly one day?

Agriculture Department

In Mr Parsons' Farm Management class they are studying different tractor costs in Michigan. In Farm Crops they are studying potatoes. Both the Farm Management and Farm Crops classes are organizing their projects program for next year.

We are studying about the digestive systems in mammals, insects, etc., in Biology.

In General Science the eighth grade is learning about heat and heat transfer.

Mary Stevenson, Reporter.

Commercial Department

The Shorthand class has started the second book. They have been studying brief forms from the "Gregg Writer" and also copying and transcribing an article, "Winter," from that publication for the display case, which the commercial department has charge of this week.

The class has done quite a bit of board work, giving practice in board writing.

The Typing II class has a one or two minute speed test each morning to increase their typing speed and eliminate errors. They use corrective, memorized and rhythmical sentence drills for these short tests. Once a week a ten-minute test and a five-minute timed writing is given. There have been some very good scores.

Typing I students have certainly kept the typewriters busy typing themes, notebooks, and various projects, besides their regular typing assignments. Mrs Way has noticed that more ribbons have been used this year than usual.

For two weeks the commercial department was privileged to have a new Royal typewriter for the students to use, which they enjoyed. A typewriter supply company left it in the room for the students to try.

Some of the typing pupils have been doing artistic typing for the display case, and Mrs Way has selected various papers typed during the year by both classes for this purpose.

Last week's perfect scores in typing were made entirely by the Typing I class. These tests were not figured according to the word per minute, but by the times typed and the number of errors. They were: Alice Louise Claus, 0-3; Bertha Mae Kring, 0-8; Donald Labounty, 0-5.

Friday's scores were figured according to words per minute. The highest in both classes were:

Typing II: Errors and words per minute: Janette Underwood, 1-70; Betty McCaughn, 1-49; Verna Furgason, 3-45; Franklin Barritt, 1-42; Neal Brazee, 1-36.

Typing I: Errors and words per minute: Bertha Mae Kring, 1-49; Ruth Galloway, 0-48; Florence Wilson, 2-45; Willard Woods, 1-35; James O'Neill, 2-34.

The perfect papers were: Ruth Galloway, 0-48; Harry Beland, 0-34; Bill Osburn, 0-34; Donald Woods, 0-25.

The Bookkeeping class has been studying about the cash book and doing work coincident with that in their workbooks. The workbooks will be audited in class Monday by the students.

Janette Underwood, Reporter.

First and Second Grade
East Branch
Miss Borgards, Teacher

In the last seven weeks of last semester we had six children who were not absent or tardy. They were JoAnn Johnston, Mary Glancy, Keith Lewis, Joan Lewis, Jerry O'Brien, and Rufus Spark. Of these, JoAnn Johnston, Mary Glancy and Joan Lewis had a perfect record in this respect for the entire semester.

One afternoon this week we visited the postoffice. The canceling machine, and the way the mail was sorted was of special interest to us. We appreciate Mrs Gillespie's willingness to show us the interior of the postoffice. Now hammer and nails are converting orange crates and lath into a post office in our room.

First Grade — West Branch
Miss Smith, Teacher

We are working out a postoffice unit. In order to better understand the work of the postoffice we visited our Tecumseh postoffice. We enjoyed most of all watching the letters go through the canceling machine. Our plans are made to start the construction of our own postoffice and also the means of carrying the mail.

We have written a story about our excursion, and most of us are able to read it. We are also making a collection of stamps.

Six of the children have finished their work books and are anxious for new ones.

Sixth Grade
Mrs. Smith, Teacher

The following pupils have neither been absent nor tardy during the past semester: Earl Baldwin, Ronald Goodacre, Lois Wilson, Lenore Mohr, Darwin Creger, Marilyn Baaske, Marvin Barber, Roy Sharp, Joan Clark, Donald Everhart, and Lee Clark.

The patrols for this week are Paul Wilcox, Donald Clark, Marvin Barber, James Shavaller, and Earl Baldwin.

Today the room gave Mrs Smith a surprise party. We had candy, popcorn and cake.

Wednesday afternoon we went into room six for pictures. We saw "Don't Be a Goose," "Cell Building" and "Golden Orange."

The following had birthdays during the month of January: Barbara Humble, Darwin Creger, Herbert Farver, Robert Teske, Bobby Randall, and James Shavaller.

The room helpers for this week are Bobby Randall and Ronald Goodacre.

Reporters, Lenore Mohr and Herbert Farver.

Fourth Grade
Miss Kline, Teacher

After our examinations we have settled down to work again.

We had a fruit roll on Miss Kline because she was sick last week. She got a large basket full of apples, oranges, and grapefruit.

We started our "trip" to Norway this week. We were interested in learning about the fjords, sherries, and seeters, which are so well known in Norway. We learned that the farms are small, because they are right on the steep mountain sides. We expect to arrive at Rolf's home next week. He is the little boy that we visit in Norway.

We wrote riddles in language class this week. We read them to the class and then guessed what each one was.

We drew pictures of Arabia because we wanted to remember the desert land that we visited. The seven best pictures are going in our framed wall picture.

Alice Duncan and Charley Bater were room helpers this week.

Third Grade - East Branch
Mrs. Truesdale, Teacher

The following children have had perfect attendance records during the first semester: Martha Ann Hayden, Robert Hickey, Robert Rentschler, Melvin Murphy, Patricia Hammack, and Seaton Wilson. As a reward for their fine records, they each received an attendance certificate.

William Bickham has not missed a spelling word this year. Barbara Schoeck and Irene Wilson have each missed only one word. We think this is a very fine record.

This year we have been interested in learning about our community helpers. The postman, fireman, policeman and many others have been mentioned and their work discussed. This week we visited the postoffice. Mrs Gillespie very kindly explained their work and answered our questions. We are trying to gain a knowledge of our community and a respect for its workers.

EASLICK SCHOOL NOTES
Lillian G. Dibble, Teacher

Our enrollment is now fifteen. Since Christmas Ronald and Gordon Barrett have moved to Britton and Albert Todd is touring Florida with his parents. We miss them all, but hope they are having pleasant times in their new places.

The Citizenship Club have elected new officers for the second semester. The officers are as follows: President, Lucy Adams; Vice President, Ann Page; Secretary, DeWitt Kimerer; treasurer, Bobby Croll.

We observed Benjamin Franklin's birthday with a short program directed by Lucy Adams and Arnett Satterla. The History classes made appropriate postures, Miss Dibble taught us about the picture of Benjamin Franklin, and each person made art work to correlate. We enjoyed learning so many interesting things about Franklin.

Our Primary people are making a "Wild Animal Booklet."

The Eighth grade are making a booklet on "The Presidents of the United States."

We are quite proud of our Cooperative Postures. "An Eskimo Scene" was designed by Lucy Adams assisted by Geneva Kemerer and Eileen Carothers. Arnett Satterla with Anna Satterla and Bobby Croll made an interesting "Safety Posture." A nice snow scene was designed by DeWitt Kemerer assisted by Helen Adams and Harriett Satterla. John Satterla made a fine "Health Poster" with the help of [illegible] Kemerer and Richard Croll.

We are quite pleased with our attendance record. No one was absent or tardy for the month of January.

Helen Adams and Anna Satterla have completed two Pre-Primer Readers. They are beginning their real Primer February 1st.

We enjoyed a day's vacation this month, while Miss Dibble attended the Teachers' Institute held at Adrian.

We are working hard these days on our County Music songs. Several are taking up the rhythm work too. We hope to have several represent our school at the May Day Festival.

Chapel leaders for the month were Rose Marie Kertland and John Satterla. Mr Jennings Frayer was our guest speaker. We enjoyed his stories and especially the lovely poems he recited for us. We hope he will be our guest again some other time.

Reporters, Lucy Adams and Arnett Satterla.

Onsted

A joint meeting of the Onsted Womans Club and P.-T. A. was held at the high school auditorium with 70 members and guests attending.

A business session was conducted by Mrs Harley Roberts, president of the Woman's Club, after which the following program was presented: selections by the German Band in costume, composed of Gordon Williams, George Hunt, Donna Jean Reifneid, Norene Knapp, and Kathryn Reynolds; vocal solos by Dr. Howard Davis of Jackson accompanied by Loudell Kennedy and an interesting talk on "Child Welfare and Juvenile Delinquency," by Probate Judge M. E. Tripp.

Refreshments were served by the men in conclusion. The next meeting of the Women's Club will be held Feb. 6 at the home of Mrs Mabel Sylvester.

18 pupils have been absent from the primary room because of mumps.

Mrs Peter Lorenzen has been spending a few days in Monroe and Toledo.

Mrs Lydia Corson who had been a guest of Mrs Nora Gertz the last few months has gone to Toledo to visit relatives.

Mrs Norman Kelley is ill.

Mrs Thomas Whitmore and son Cloyd of Danville, Ill., were guests recently of Mr and Mrs Hugh Whitmore and family.

St. Peter's Prepares For Lenten Service

The first step in the 1940 Lenten program of St. Peter's Church will be made next Sunday, February 4. It will take the form of a purely spiritual Every Member Canvass. This canvass, unlike the one held regularly each fall, will not involve money or financial pledges. Its sole purpose will be to stimulate and increase the spiritual life of the parish during the solemn penitential season of Lent which begins next week on Ash Wednesday, February 7. The teams will make a corporate communion at the 11:15 morning service next Sunday. Then in the afternoon they will go out and make their calls on every member and adherent of the parish. Sufficient teams have been secured so that the whole project can be completed in one afternoon. C. F. Patterson will receive reports.

This Friday evening, February 2, there will be a short meeting of all the team members in the parish house at 7:30 o'clock. Calls will be assigned and final directions given. Every team member is asked to be present.

Next week on Ash Wednesday, February 7, there will be a celebration of Holy Communion at 10 o'clock in the morning and again at 12 noon. Both of these services will last only a half hour. At 7:30 o'clock in the evening, Evening Prayer with Penitential Office and sermon will be held. Ash Wednesday is a day of solemn observation, and every member and adherent of the parish should attend one of these services. The public is also invited.

MISSIONARY MEETING

The program in charge of Mrs. C. C. Ruppel consisted of assembly singing, vocal duets by Mrs. George Parsons and Mrs. E. A. Collins; review of chapter on "Africa," from the study book, by Mrs. H. H. Temple and a reading by Miss Layle Snedecor. Refreshments were served by the hostess at the close of the program.

MISSIONARY CIRCLE

The Presbyterian Missionary Circle met Friday afternoon with Mrs. F. N. Griffeth and daughter Mrs. E. E. Davis at their home on South Pearl. Mrs. Ida Spencer conducted devotionals and Mrs. D. W. Beck presided at the business session.

Britain entertained 32,118 foreign visitors in May, 6,823 being Americans.

Kentucky's Cold Weather Is Not First Or Worst

The following item, submitted by Miss Edna Gamboe, proves that the present cold spell in Kentucky and other southern states is not the first nor the worst experienced there.

Winchester and Clark county have had their share, possibly more of 'cold spells' during the past several years and Thomas Epperson, Sr., elderly resident of the Ruckerville section of Clark county, agrees that several of the recent wintry sieges have been "very bad."

Mr. Epperson relates that, seeing not forget, let us compare the more recent 'spells' with one that held forth from Feb. 6 to Feb. 14, 1899."

Mr. Epperson related that, seeing a real "freezer" was coming on the night of Feb. 6, 1899, he thought it would be interesting to keep records on the siege. The records were turned over to newspapers and are reprinted as follows:

Feb. 6—Cold rain falling during most of day, heavy sleet at night.

Feb. 7 — Both sleet and heavy snow falling.

Feb. 8—Cold, fierce wind blowing.

Feb. 9—Morning—Thermometer at 12 degrees below zero; most of afternoon at zero.

Feb. 9—Night Thermometer at 20 degrees below zero.

Feb. 10 — Morning—Thermometer at 24 degrees below zero; most of late morning and afternoon, temperature at zero and slightly above.

Feb. 11—Temperature at zero. Heavy snowstorms with a snow fall averaging 9 inches in depth.

Feb. 12 — Cold, blue day with mercury at zero and slightly under.

Feb. 13—Thermometer shows 15 degrees below zero. At noon, mercury has risen to 12 degrees above. Night, back down to 16 below at bedtime.

Feb. 14—Temperature 14 below, signs of clearing weather.

Mr Epperson concluded that he made his findings public to "keep the younger generation from thinking they are the only ones who have ever been through really cold winters!"

CULBERTSON P.-T. A.

The Culbertson P.-T. A. will [illegible] on Thursday, February 5 at the home of Mr. and Mrs. Mervyn Boltz, three miles north-east of town. Potluck supper at 7 o'clock will precede the business meeting and social hour.

The Child Study Club will be entertained Monday evening, February 12, by Mrs. Hugh Andrews. Mrs. Paul Johnson and Mrs Keith Barron, at the former's home on North Union street.

MISSION GUILD

The Florence Weld Mission Guild will be entertained Monday evening by Mrs. W. L. Jones and Mrs. E. E. Davis in the home of Mrs. Jones on South Union Street. Mrs. Sam Reed will lead the devotions and Mrs. F. C. Dickinson will present the topic for study, Alaska.

Grocery Chain Joins In Eat More Pork Drive

In an effort to help move the huge surplus of pork now facing producers, Kroger stores will participate in a producer-consumer campaign on this impotant farm product, staging two intensive ten-day promotions starting Feb. 1 and Feb. 29, according to Wayne Cowling, general manager for The Kroger Grocery and Baking Co., in this territory.

"Pork is one of the most important sources of farm income, not only in the Corn Belt, but all over the country," Mr. Cowling explained. "For this reason it is cause for alarm when the hog market gets out of line. By pushing pork and pork products at this time we hope to increase demand for them, bring about fair returns to swine producers and prevent demoralization of the market on other livestock."

The Department of Agriculture estimates the 1939 pig crop at 84,302,000 head, an increase of 18,201,000 over that of the previous year. In addition, the situation has become even more serious because the war has deprived hog raisers of important European markets.

Pork advertisements carrying the producer-consumer campaign emblem will be placed by the Kroger company in more than 1,250 daily and weekly newspapers throughout the company's territory, according to Albert H. Morrill, president of the firm. He added that the food chain store industry as a whole will use space in more than 8,000 newspapers to tell the pork story to 25,000,000 readers.

Morrill explained that this event is one of more than 30 producer-consumer campaigns on surplus farm products in which Kroger and other chain store companies have participated in the past three years. During a similar campaign on beef in 1936, Kroger sales of this product were increased 14 per cent. Early in 1937 the company's participation in a lamb campaign resulted in a 73 per cent increase in movement of lamb in Kroger stores.

STATE RELIEF

(Continued from Page 1)

It is estimated that this increase, providing $4,000,000 annually, would assure pensions to 25,000 more persons who are now eligible to receive them.

Eighty per cent of the relief jackpot would be allocated to counties on a population basis, according to the supervisors' scheme, and 20 per cent would go to a state fund for emergency needs. Whereas the supervisors' formula is based on population, city officials of metropolitan centers have insisted that relief should be allocated on the basis of actual need on the theory that industrial cities often are harder hit with unemployment than small towns.

The city vs. rural controversy thus may break out into new fury as a result of the supervisors' plan. It will likely be challenged by Detroit and other large cities in Michigan. Labor complications are also foreseen.

Liquor Row

Action of Governor Dickinson, a national and state anti-saloon league leader, in deserting his fellow townsman and temperance-living neighbor, Murl H. DeFoe, was one of those things that makes the Lansing scene of news interest these days.

DeFoe, member of the state liquor commission, believed that the state was putting too much money into liquor inventories, that a reduction of this investment would afford a cool million dollars for welfare use, and that, anyway, the commission was paying too much attention to a few distilleries.

Orrin A. DeMass, Detroit, commission chairman, countered with denials. DeFoe declared he would decline to sign any more orders for purchases with the "big six" distilleries until Feb. 5, the new "buying" meeting.

Then the governor intervened. Despite his personal ideas about temperance, Dickinson said he would sign liquor purchase orders if they were necessary.

It was all a bit disconcerting.

The dispute gave another airing to the problem of liquor purchases and sales, a state business whose gross sales in 1938 totaled more than $37,000,000—5,236,000 gallons of whiskies, gins and rums and 102,873,000 gallons of beer. Last year, liquor sales increased nearly 20 per cent due to better times.

Winter Sports

With winter's cold blasts assuring plenty of ice skating and tobogganing, the Upper Peninsula will celebrate a number of community winter sport festivals during February. The events will continue through Washington's birthday.

Escanaba and Newberry stage their carnivals Feb. 2, 3 and 4. Marquette's showing will be Feb. 6-11; Negaunee, Feb. 8-10; Gladstone, Feb. 9-11; Iron Mountain, Feb. 10-12; Sault Ste. Marie, Feb. 14-17; Munising, Feb. 17-18; Ishpeming, Feb. 19-22; Houghton, Feb. 14-17.

The all-peninsula queen contest will be held at the Soo on Feb. 17.

Members of the Escanaba Ski club made a trip to Tahquamenon Falls last Saturday and Sunday, believe it or not.

In the Lower Peninsula the winter sport centers include Grayling's big toboggan-skating-skiing park, Alpena, Petoskey and Ionia. Winter sports offer a new development for Michigan; a healthful recreation for its residents, and a source of additional income for many communities.

The Springville Ladies Aid met yesterday at the Methodist parsonage in Tecumseh, for pot luck dinner followed by regular meeting and program.

The house on the Harold Cole farm one mile east of Devils lake and a mile south of US-223 burned to the ground about 1:30 o'clock Saturday afternoon. The Onsted fire truck was called and three tanks of chemicals were used to hold the fire in check while most of the furniture was removed from the first floor and articles were taken from the basement.

The fire started in the attic from an unknown cause and spread so rapidly the frame house was destroyed. The fire did not spread to the other farm buildings. The loss, which has not been estimated, is partly covered by insurance.

HAYDEN HI-LITES

Published By Hayden Flour Mills, Inc., Feb. 1, 1940.

GRACE MOORE SAYS "IT'S GREAT"

We were walking home from the mill one night last week and saw Grace Moore (Mrs. Robt. S. Moore) sitting by the window, so we dropped in to visit a minute. Before we left she said, "Perry, there's something I've been wanting to tell you."

"What's that?" we asked.

"It's about that biscuit flour of yours," she said.

"Oh, do you like it?" we asked.

"We certainly do," said Mrs. Moore, with enthusiasm. "It's great for apple dumplings. I just slice the apples and put them in the bottom of the pie tin, and put the crust made from Hayden's Biscuit Flour over them, and bake. Then I serve them with milk or cream."

"Is it really good?" we asked.

"It's just lovely," said Mrs. Moore, "And Dad just loves it."

Ask your grocer for a package of Hayden's prepared Biscuit Flour, and try out this dumpling idea.

We had some at our home the next day, and Grace Moore is right when she says, "It's great!"

READ THIS ITEM OF 56 YRS. AGO

J. N. S. gave us this interesting clipping that appeared June 19, 1884 in the Toledo Evening Post and Tecumseh Herald: "Mr. Hayden, of the Globe Mills, in Tecumseh, on a visit to Ireland not long ago to look after his flour shipments to that country was surprised at seeing many Irishman's pants stamped with the brand of his mills. On closer inspection he found that the patrons of his flour on emptying the duck bags made them into trousers and other garments."

ROOM SHORTAGE FACES HOSPITAL

DEMAND FOR SERVICE EXCEEDS ANTICIPATION; $1,400 PROFIT IN YEAR

Tecumseh Hospital, little more than a year-and-a-half old and built with the idea that its 21-bed capacity would amply serve Tecumseh's needs for at least five years, today finds itself crowded beyond all expectation, and facing the need for at least a 12-bed addition if it is to properly accommodate its growing list of reservations.

Facts concerning the hospital's growth and its over-taxed accomodations were made public to the Village Council on Monday evening by Ray W. Herrick, president of the board. The council immediately authorized the hiring of an architect to draft plans for the building of an addition, subject to the approval of the board and the council, and it is expected that such an addition may be built during the early summer.

"There is no alternative," Mr. Herrick told the council, "but for us to build an addition if we are to continue to give the same high-type service and accommodate the rapidly increasing list of room reservations. It is a fact," he continued, "that we have a waiting list at the hospital now, and have had for some time. Patients need operations, they want the work done here, and they are willing to wait their turn for rooms."

Mr. Herrick attributed the hospital's growth in popularity, in a large extent, to the faultless service that has been accorded to the patients in the past. The hospital also has ultra-modern equipment, and complete cooperation on the part of its doctors and nursing staff.

"We want to see the hospital [illegible] to accomodate everybody and we are proud of the record that we have made," Mr. Herrick said, "but we do not want to crowd the place beyond capacity and to the point that we cannot maintain our high quality service. That is why your hospital board has considered it necessary to submit our plans to the council, and urge immediate consideration of a building program."

Mr. Herrick then pointed out that the hospital originally was built to accomodate 21 patients. During the past year it has accommodated as high as 34 patients, and still had a waiting list. During the year just ended, it was filled constantly to 79 per cent of its capacity, and sometimes it was necessary to put cots in the corridors to accommodate emergency cases.

During the year just closed, the hospital showed a net profit of $1,438.35, after it had charged off $1,400 to depreciation on the building and equipment, or a gross profit of more than $2,800. On January 1 of this year its cash position was $500 better than it was a year ago, despite the fact that $1,058 had been spent for new equipment and in bettering acoustic conditions.

During the month of January this year, the hospital showed a profit of $314.16, after charging off $120 to depreciation, and it is expected that the month of February will show a similar statement. The hospital has no liabilities, except its current expenses."

"I look at the hospital as a bus-

Peeker Still Active, Police Take Up Chase

Tecumseh's window peeker, believed to be a man less than 40 years of age and of not more than average height, is still active, despite efforts on the part of local police to capture him.

The peeker's latest visit, last Monday evening, was to a home on East Chicago boulevard. There he gazed through the window for some time and then, as though to make sure that his activities were noticed, he rapped on the window glass to attract attention.

Reports of activities of the peeker have reached police from almost every part of Tecumseh, his visits last week being made to homes on North Union and Logan streets. At one of these homes he was seen by several members of the family and the officers have an accurate description.

Dance Permit Sought By Beer Parlor Here

Sam Good, proprietor of the Tecumseh Tavern, appeared before the village council, Monday evening, and requested permission to operate a dancing spot in the basement of his beer garden on West Chicago boulevard. The request was referred to the village attorney for consideration.

Mr. Good told the council that he planned to remodel the basement of his garden and to permit dancing there, if the council would approve. Music would be furnished by a mechanical music box. He was advised that there is no ordinance prohibiting such dancing, unless it conflicts with state liquor regulations.

The council listened to the reports of its several committees and departments, including the board of trustees of Tecumseh Hospital. The board stressed the need for an addition at the hospital and a $50 appropriation for the hiring of an architect to make the necessary drawings was approved.

Current bills were audited and ordered paid, and an ordinance governing the operation of the water department was adopted. The ordinance in its entirety is printed on page seven of this newspaper.

RETAIL NEEDS C. OF C. TOPIC

O. A. MONTGOMERY, LANSING, BANQUET SPEAKER HERE ON FRIDAY

The need for greater cooperation between retail merchants, and methods that may be employed to stimulate sales and improve the "shopability" of any trading area were the topics discussed by O. A. Montgomery, field secretary of the Michigan Retail Institute, Lansing, when he addressed a dinner meeting of the Tecumseh Chamber of Commerce, Friday evening. Nearly 100 persons attended the meeting, in the parlors of the Presbyterian church.

Courtesy, good will and smiles are among the outstanding needs for any community if it is to attract and continue to attract customers, Mr. Montgomery said. He pointed to many cities in Michigan where campaigns have been conducted to bring about a more complete understanding between merchants and their customers and declared that communities that have the strength to determine their weaknesses through a survey are the ones that ultimately will prosper.

Mr. Montgomery pointed to the many programs sponsored by the Institute, among them a more complete collection of the sales tax, thumb printing checks, a license for peddlers, and the elimination of purchases through manufacturers' purchasing departments for employees. This so-called "wholesale buying," he said, "short circuits" the retailer and is a detriment. He declared that in the long, run, nothing is saved through such "wholesale" buying and gave facts to prove his statement.

SCOUTS PLAN FOR BIRTHDAY

30TH ANNIVERSARY OF FOUNDING OF ORGANIZATION WILL BE CELEBRATED

The nation's 1,330,000 Cubs, Boy Scouts and their leaders will celebrate the 30th anniversary of the incorporation of the Boy Scouts of America in a week's observance beginning Thursday, February 8.

Boy Scout Week is the most important week in the Boy Scout calendar and nine million present and former Scouts and leaders will join the celebration which this year has as its theme "Scouting—The American Way."

Each Troop will celebrate the birthday anniversary in accordance with its own plans.

Radio will play an important role in the Boy Scout Week celebrations linking together, if only for a short time, the Scouts in the great rural areas with those in the cities and towns.

The high point of the week's observance will be a nation-wide broadcast from the White House, Thursday evening, February 8 in which President Roosevelt, as Honorary President of the Movement and himself an active Scout leader will talk to his "fellow Scouts and Scouters" as well as the millions of friends of Scouting.

Speaking also during the Presidential broadcast will be Walter W. Head, of St. Louis, President of the Boy Scouts of America, who will speak from Detroit, Mich., where he will be attending a dinner of Scout leaders. Mr. Head will speak briefly and then introduce the President of the United States and at that point the broadcast will switch to the Nation's Capital.

A feature of the White House broadcast will be the annual rededication by the nation's Scouts to the—Scout Oath which is the guiding principle of Scouting.

At the conclusion of his address, President Roosevelt will ask the Scouts, listening in every part of the nation as well as in all of its possessions, to take the Scout Oath or Promise led by Dr. James E. West, Chief Scout Executive and Editor of "Boys' Life" who will be "cut into" the broadcast from Radio City.

Sunday, February 11 will be Scout Reverence Day and in thousands of churches of every denomination there will be Scouts attending special services. More than half of the nation's 43,368 Cub Packs, Boy Scout Troops and Senior Scout groups are sponsored by the churches and synagogues of America. Scouts of Jewish faith will hold their special

An effort is being made to seek greater appreciation on the part of of the public of the importance of Michigan's agriculture.

Michigan has been referred to so often as the automobile state that the value of our farming has been lost sight of. The fact is that while we rank only 26th in the number of acres in farms, we rank tenth or better in all of the major crops with the exception of two, one of them being corn. For instance, Michigan's rank among states in agricultural production is as follows: First, cherries; second, beans; third, grapes and potatoes; fourth, pears, peaches, alsalfa hay, clover seed; fifth, apples, field peas and buckwheat.

Every consumer in Michigan should cooperate in promoting all-Michigan products when shopping in your corner grocery store or meat market. If everybody would buy Michigan poducts, it would be one of the biggest booms to the farmers in the State.

MODERN MIRACLES

In this country there are more owners of automobiles than of homes, counting a separate owner for every licensed car.

America has more automobiles than any other country in the world, pretty good evidence, on the face of it, that America is the richest country in the world.

But this is evidence of another fact — automobile production is America's most important industry, measured by value of normal output.

And when it is considered that this industry has reached its tremendous proportions in little more than two decades, one has to believe there are modern miracles.

Radio Fans Due For Surprise In 1940

Sometime before the end of this new year, thousands of owners of automatic-tuning radios will be pushing their station buttons—and not getting just what they expected. Thousands of others with station letters printed on their dials, will be accustoming themselves to forgetting these letters and tuning the stations by frequency—just a few points away. For before the end of 1940 all but about 150 of the 814 broadcasting stations of the United States, and most of those in Canada, Mexico and Cuba, will be shifted in wave length for the sake of better transmission conditions and consequent improved reception.

The new frequency allocations will become effective at a date to be set by the Federal Communications Commission before Dec. 31, 1940—a year after ratification by Mexico of the North American Regional Broadcast Agreement. The other participants in the 1937 Havana Radio Conference had already ratified it.

ness proposition." Mr. Herrick told the council, "and in that respect I am wondering if you realize some of the benefits that Tecumseh derives from the institution other than to care for its sick. Last year, for instance, the payroll at the hospital amounted to more than $16,000, we paid over $1,600 in room rent for nurses and we spent more than $5,000 in merchandise purchased in Tecumseh's stores and shops. We also brought hundreds of persons into Tecumseh to see patients in the hospital, and it is certain that most of them spent some money here during their stay. It is for these reasons that I feel that the hospital is an asset to the village in addition to the service that it renders to those who are sick."

The hospital records show that during the past year 429 patients were accommodated, 92 babies were born, 215 major operations were performed, 82 emergency cases were cared for and 293 X-rays were taken. Patients' addresses show that they came not only from Tecumseh but also Adrian, Manchester, Clinton, Britton, Deerfield, Palmyra, Blissfield, Milan, Saline, Tipton, Onsted, Hillsdale, Ridgeway and a dozen other cities and village.

Mr. Herrick and members of the hospital board who accompanied him to the meeting did not estimate the cost of building the desired addition. This will not be known until after an architect's drawing has been completed and the plans have been submitted to contractors.

"We do not want to build beyond our need," the hospital board president said. "We do, however, need a 12-bed addition, and we can operate it with very little additional cash outlay, and with a reduction in our general overhead percentage."

Tecumseh Hospital was opened in June of 1938, after it had been built through public subscription at a cost approximating $45,000. The land on which the building is built was the gift to the village of Mr. and Mrs. Henry Ford. When the hospital was turned over to the village it was free of debt, and has been operated since that time at a profit.

The hospital board is made up of Mr. Herrick as president, R. K. Anderson, secretary, R. H. Moore, the Rev. Edward Green and Richard E. Roe.

SCOUTS' PLAN

(Continued from Page 1)

services Friday evening, February 9, and Saturday.

Special emphasis will be placed upon the twelfth point of the Scout Law which reads, "A Scout is Reverent. He is reverent toward God. He is faithful in his religious duties, and respects the convictions of others in matters of custom and religion."

In many communities Scouts, by Patrols and Troops, will take an "Old Scout Census," systematically calling at all residences according to pre-arranged plans, to record the names and addresses of those who were once Scouts or Scout leaders. Many of these "Scout Alumni" will be invited to participate in Scout activities during Boy Scout Week.

Scouts will wear their uniforms and have special roles and demonstrations in public and private school assemblies, Fraternal and civic clubs will have Boy Scouts as their guest speakers who will give first-hand accounts of what Scouting means to them.

Hundreds of Troops and Cub Packs will have special "parents' night" meetings in which the parents will be participants in some of the activities. Other Troops will have their meeting during Boy Scout Week set aside for Troop Reunions with former members returning to renew acquaintances and for an evening of fellowship and fun.

The outdoor activities will also have their part in the celebration where weather conditions permit. There will be camping trips, hikes and outdoor rallies, and there will be inter-Troop winter sports carnivals where snow and ice conditions allow.

In those states where Lincoln's Birthday, February 12 is observed as a school holiday Scouts will make patriotic pilgrimages to shrines of the "Great Emancipator." Troops will also engage in special "good turns" during the week to show their appreciation to their sponsoring institutions. They will also participate in Boy Scout Merit Badge Shows, Courts of Honor, Scout Circuses and other similar indoor activities.

Chapel Program

Chapel Monday morning was opened by the customary song, song was "God Bless America," led by Miss Humphrey. We were then entertained by the Girls' Glee Club, who sang "Luxembourg Garden" and "The Italian Street Song." Our speaker this morning was Rev. Hildebrand. He spoke on the subject of opportunity, and making use of opportunities that are offered us. He said that if you love life, you should take care of your time; for time is what life is made of. Great men always take care of their time. He gave Abraham Lincoln as an example of one who made use of his time.

If you don't spend your time right when you're young maybe when you get older you will want to catch up on things and it will be too late.

Display Case

The show case this week contains a display by the Commercial Department. In the center of the case there is a new model typewriter. Near it are the different pins given as awards for satisfactory records in typing. They are as follows: bronze for forty words per minute, silver for fifty words per minute, and gold for sixty words per minute.

The display contains samples of the shorthand books used by the shorthand class. It also has various kinds of leaflets explaining different things about shorthand and typing.

Home Economics

The seventh grade is doing hand work. Their first problem was a towel.

The eighth graders have begun their sewing unit, having their choice of making a housecoat, a skirt, or a smock. No matter which they choose, they must make French seams.

The noon lunches are proving as popular as ever, eating about eighty persons a day.

Sophomore Skating Party

On Wednesday, January 31, the sophomores enjoyed an outdoor skating party at Keeney's Lake. We left at 5 o'clock and came back at 7:30.

Some went ice skating, while others enjoyed themselves by going tobogganing and bob sleighing.

There were about 30 in all. We were chaperoned by Mr Johnson and Mr Young, who also enjoyed themselves by skating and tobogganing.

We all had a grand time, and we shall be looking forward to our next party.

Sophomore Assembly Program

In the absence of Rae Nita Larsen, Herbert Fisher, Vice President of the Student Council, officiated at the Sophomore Assembly Program last Friday and introduced to us the Master of Ceremonies, Bob Mohr. The program was opened with a medley of songs by George "Paderewski" Wilson, pianist, who played, "Lilacs in the Rain," "Scatterbrain," and "Little Red Fox." After much applause Bob made his appearance and said that due to the length of the program and the shortage of time there would be no encores. Next Richard Hammel sang and tapdanced to "Darktown Strutter's Ball," with George playing the piano. Has Dick the talent!

A one-act comedy entitled "Three To Get Ready" was the main feature of the program. In the cast were Joan Hanna, Lois Clark, and Alline Lerch as the three sisters, Mary Wickwire as their mother, and Joan Ward as their aunt. The girls played their parts splendidly and the play ended too quickly. Then Phyllis Ferris, with her beautiful voice sang "Chatterbox," and "All The Things You Are."

The last number was a piano duet by Elva Mae Dickinson and Mary Woltens. The piece they played was "Manhattan Serenade," which brought much applause.

The directing of the program by Mrs. Service was largely responsible for the wonderful performances of the girls and boys.

Operetta

An operetta is to be offered by the High School again this year. The one chopen is "Pirates of Penzance," a two-act operetta by Gilbert and Sullivan. It is to be coached by Mr Young and Miss Humphrey, assisted by other members of the faculty. So far 97 have signed up to take some part in it, either as stage crew or in the choruses or cast.

The leading parts and the choruses are expected to be announced by the early part of next week. The operetta includes most of the well-known choruses and solos of the original Gilbert and Sullivan score.

Sixth Grade
Mrs. Smith, Teacher

Today Justin Coover and Barbara Humble put new dates on the date line. The line so far is coming along very well.

This morning in spelling all the rows except one got A. Each row has a number. The pupils that miss one day go in row six for the next test; then if they get A that day they go back in their own row. This continues for the rest of the year.

In English we are learning to speak correctly and use well-chosen words. Some of the children brought in some toy telephones, and we pretend that we were business men and women calling each other on business calls.

The patrols for this week were Richard Watkins, Lee Clark, Roy Sharp, Darwin Creger, and Herbert Farver.

The helpers for this week are Betty Dibble and Freddie Ward.

The reporters are Lenore Mohr and Herbert Farver.

Fifth Grade
Miss Starr, Teacher

The following members from our room had perfect attendance during the first semester: Esther Frost, Colleen Davidson, Jerry Coffey, Jack Barnes, Jeanette Goodacre, Bill Hayden, Martha Hewlett, Jean Leonard, Jerry Murphy, Jim Sisson, Billy Stuart, Richard Teske and Gwendolyn Watson.

We were proud of some in our class who wrote very good semester exams. Jim Sisson wrote a perfect history exam. Martha Hewlett, Marie Phillips and Louise Wilson, also, wrote some very good tests.

We have chosen our new spelling teams for this semester. The new captains are Jane Hoekstra and Jesse Gray. So far, Jane's team is leading by eight points.

In gym the fifth graders are learning to march.

This week we have been studying some of our greatest children's poets and making a collection of some of their poems which we like best.

We have a miniature rock garden which Martha Hewlett made as a result of our science talks. Our rose geranium is in blossom again.

Reporters: Jane Hoekstra, Jeanette Goodacre.

Fourth and Fifth Grades
Mrs. Pfaus, Teacher

When we finished reading "Heidi Grows Up" we wished that there was another book telling about her later life. In fact, Jean Wilson started writing what she thought might have happened to Heidi. We were pleased to hear that Charles Tritten had just finished writing "Heidi's Children." Our new book is only a few days old, and we are enjoying every page of it.

Billy Fish has moved to Three Rivers and we miss him, although several children have received letters from him.

The fourth grade is studying about matherials out of which we make clothing. Several very interesting booklets and charts are being made. The fourth graders have also been writing some original plays.

We surprised Mrs. Pfaus with a fruit roll last Thursday afternoon.

Harold Anderson and Perry Cook are room helpers this week.

Second Grade - West Branch
Miss La Pointe, Teacher

Gerald Van Valkenburg gave us a very interesting account of his recent visit to the Fisher building and to the broadcasting station.

Howard Adams has learned how to spell the names of all the months of the year as extra work in spelling. Since Howard is not quite seven years old, we consider this quite an accomplishment for a child that age.

In our number classes we are learning how to tell time. Later we will have a contest in time-telling and will report the winning side.

We are enjoying the story of Pinocchio.

Kindergarten - West Branch
Mrs. Updyke, Teacher

We have a long parade of stuffed toys in our room. Marjorie Martin brought us a funny clown. We put him on our lemonade stand and he adds to our circus very much. Our wooden toys are making a fine parade, too. Several children are making clowns from wood.

Nearly every child in kindergarten can now print his own name. Many are interested in the charts that we have about the room, and we expect to start reading from our Pre-Primers very soon.

NURSERY SCHOOL NOTES
Marjorie Boyce

David Green returned last Monday from a visit with his grandparents. He spent all day Wednesday and Thursday at school while his parents were in Detroit. We enjoyed his talking book very much. We looked at the pictures while the record was played on the victrola.

We have been making valentines and are planning to have a party next week.

Last week we learned about the story of milk. We liked the pictures of cows and calves.

All day visitors have been Dickie Lowry of Midland, Sally Jo Rentschler, Judy Sisson, Marcia McGehee, Tommy Baldwin and Keith Parker.

Recent afternoon visitors have been Tommy Rohweder, Sally Brown, Patsy O'Brien and Margaret Touborg.

She Said "You Have the Biggest Ears in Town...."

This poor working woman needed $100 as badly as any corporation president ever needed $500,000. She told us her whole story and we worked out a plan whereby she could borrow the money and pay it back in small payments. After she'd told her problems she said, "You folks have the biggest ears of anybody in town." It sounded funny — but we knew what she meant, and liked the idea. PREXY IS PESTERED

WAYNE (IND.) Americans constituents have kept this city's new president's telephone ringing steadily ever since he took office. One lady asked him to do something about several dogs using her yard as a playground. Another reported snagging her hose on an iron fence post and asked wouldn't he do something about it.

Mining in Colombia is more active than a year ago.

Tecumseh Runners-up For Debate Honors

Members of the Tecumseh high school debate team journeyed to Ypsilanti Saturday to take part in a District Debate Tournament. Eligibility for this tournament was determined by winning three out of four debates in the preliminary series held during the last two months.

The question debated was: Resolved, that the United States Government should own and operate the railroads. Pairings were determined by drawing for opponents and the Tecumseh team drew Plymouth for the first round and also drew the negative side of the question. Each team was allotted one half an hour for preparation and then was called to debate. The local Negative Team, Richard Hammel, first speaker, Betty Joyce Green, second speaker and Rae Nita Larsen, third speaker, was given the decision for the first debate by Dr. McKay of the Ypsilanti State Normal College.

When the drawing for the second round were made, Tecumseh drew a bye and was therefore free during this round. The third round was debated during the afternoon session and this debate determined the district winner, Belleville and Tecumseh were still left in the tournament and this time Tecumseh drew the affirmative side to debate. The affirmative team, Alice Louise Claus, Betty Joyce Green and Rae Nita Larsen lost this debate by a two to one decision given by a court of three judges, thus making Belleville the district champions. Five schools were represented in the tournament: Tecumseh, Ypsilanti Central, Belleville, Dundee and Plymouth.

In the near future Tecumseh will receive a wall placque for having earned the opportunity to debate in the district tournament and each debator will receive a Michigan Forensic Association pin, a replica of the placque, for having taken part in the District Tournament.

This ends the debating activities for the year with Tecumseh having participated in seven debates. They won four, lost two and no decision was given in the other because it was a practice debate. Three of the team members will graduate this year—Alice Louise Claus, Betty Joyce Green and Rae Nita Larsen.

The next speech activity will be the Forensic Association Speech Contests in declamation, oratory and extempore speech. These contests will be held during March and April.

1ST FLOUR GROUND HERE 114 YRS. AGO

In 1825 any wheat to be ground had to be bourne away "through the almost trackless forest, and over Marshy ground to the nearest mill, at Monroe, 30 miles away."

Early in 1826 the first flour mill in the county was erected on the south side of the Raisin River, near where the old paper mill used to be in Brownville.

TOLEDO LAWYER ROTARY SPEAKER

WIVES OF ROTARIANS GUESTS AT DINNER MEETING ON TUESDAY EVENING

Wives of members of the Tecumseh Rotary Club were the guests of honor at the club's annual "Rotary-Ann" dinner-meeting, Tuesday evening in the parlors of the First Presbyterian church. Maurice J. Meyer, Toledo attorney and former assistant attorney general of the state of Ohio was the guest speaker, discussing patriotism, neutrality and preparedness.

"I still believe in the wisdom of the words of Washington," Mr. Meyer declared, "I believe in times of peace one should prepare for war. I believe that if my boy has to fight for his country he should know how to fight; that he should be properly clothed, properly outfitted and properly trained. I don't believe that he should be given the same break that the boys of the last war had. By that I mean that some of them went overseas and were returned home wounded within 60 days. Why were they wounded? Because they didn't know the rules of the game. They didn't know how to protect themselves."

Mr. Meyer referred to the difficulties in Europe and the slowness in America's preparedness program and declared that if this nation must fight in another war he hoped it would be an offensive rather than a defensive battle.

"I don't like the idea of having to fight at home," the speaker said. "Why don't I like it? Because after the fight is over, with the use of modern warfare there isn't any home to return to if you fight in your own back yard. I'd rather fight on someone else's gridiron, and then come back to my home."

Mr. Meyer is a forceful speaker, [illegible] ors of war, having served during the World War with the Rainbow division. He also holds a commission of lieutenant-colonel in the Officers Reserve Corps.

Some eighty persons were seated for the dinner which was served by the ladies of the church. Group singing was led by C. O. Buter, and there were several selections by Wilson's Harmonica Band, a colored group from Detroit. Each Rotary-ann was presented with a corsage.

Karl M. Schneider, president of the club, presided and the speaker was introduced by Earl L. Wickwire, who with Mr. Butler and R. J. Fulver made up the committee in charge of the program.

Three new Rotarians and their wives were introduced, Mr. and Mrs. Larry Larsen, Mr. and Mrs. Henry Smith and Mr. and Mrs. Ralph Oliver, as well as Mr. and Mrs. Wade L. Jones and Mr. and Mrs. Clarence Gilman, recent members of the club. Guests included Dr. and Mrs. J. J. Preston of Wayne, a former president, Mr. and Mrs. Frank Smith, Mr. and Mrs. Glenn VanDenbergh and Mr. and Mrs. W. P. Van Tuyle of Clinton, Mrs. Meyers accompanied the speaker.

Announcement was made of the charter night, to be held at Clinton on March 5, at which time some 23 Clinton business and professional men become Rotarians. The club that has been formed in the neighboring village is the first ever sponsored by Tecumseh Rotary. Much credit for the success of this enterprise goes to Mr. Schneider and to the Rev. Edward Green, who acted as the president's aide in the Clinton organization.

POULTRY MEET WELL ATTENDED

SHEAR OF M. S. C. TALKS ON "FEEDING THE LAYING FLOCK," 4 MORE MEETINGS

A crowd of poultrymen, taxing the capacity of the room assigned to the meeting at the Tecumseh high school, Tuesday night, heard Otis Shear, of the extension department of Michigan State College, speak on "Feeding the Laying Flock."

This was the first of a series of five meetings of interest to poultrymen and women which has been arranged at the request of the Tecumseh Poultry Association of which Fred Shelson is president. George Parsons, agricultural teacher in the high school, working with Louis Hall, county agricultural agent at Adrian were responsible for securing the series of meetings for Tecumseh. Formerly such series had been held in Adrian.

Each meeting will have a definite topic for discussion, and the schedule calls for the appearance of three Michigan State College specialists, who will speak as follows:

February 27—"Replacing the Laying Flock," O. E. Shear.
March 12—"Housing the Laying Flock, O. E. Shear.
March 26—"Production of Quality Eggs," J. M. Moore.
April 9—"Poultry Disease Clinic," Dr. E. S. Weisner.

The meeting Tuesday night was called to order by Mr. Parsons, who introduced Mr. Sheldon. He spoke briefly of the need for a local organization and invited those present to join the Tecumseh Poultry Association.

Louis G. Hall, of Adrian spoke briefly. "It is very gratifying," he said, "To see such a large group out. A poultry project is very difficult to put over, and it is very gratifying that Tecumseh has [illegible] ed that group meetings serve more people and have the added advantage of providing an exchange of ideas.

Otis Shear of M.S.C. was then introduced, and conducted, first, a true and false quiz, listing 21 questions. Although Mr. Shear said that his job was on the "production" end of the industry and there was a possibility that The Tecumseh Poultry Association might undertake later the formation of a marketing plan that would enable the local poultrymen to get a better price for their eggs. He cited the Hamilton Co-operative Association in the western part of the state which produces about 400 cases of eggs a week in the Detroit area, and for which the farmers are getting two cents a dozen more, because they are graded eggs.

"There will be fewer chicks hatched this year," said Mr. Shear. "Locally this might not be true, but indications point that way generally."

Mr. Shear poined out that the average of 276 farms showed that the charges per hen per year were $2.31, distributed as follows: Feed, $1.24 or 54%; Labor, at 34c per hour, $.32 or 14%; Flock depreciation, $.37 or 16%; Building and equipment use, $.16 or 7%; Other costs also 7%. He pointed out that the consumption of eggs would probably increase as the quality was improved, and that the job locally was for poultrymen to study production methods so as to get premium eggs.

'39 License Deadline Is February 29th

The deadline for the use of 1939 automobile license plates is February 29, and there will be no extension of time, according to an announcement today from the office of Harry Kelly, secretary of state. It is estimated that nearly 1,000,000 motorists have as yet failed to buy 1940 plates.

Because the license plate sale started last October, and at that time a warning was given that there would be no extension of the deadline date, Kelly declares that motorists must buy their plates before midnight the last day of this month or lay up their cars.

Branch offices of the secretary of state throughout the state, and in Adrian are open each day to serve motorists, but as yet there has not been the rush that had been expected.

Manchester. Tecumseh called time out to straighten out their difficulty in checking their men. As play resumed, the Indians, with clever passing and nice cutting soon tied the score and went on ahead, not to be out, scored the remaining time of the game.

Neil Brazee comes back into the scoring column, after a three weeks slump, with five field goals [illegible] points. Art Baaske was not far behind with nine points. Clark being the high scorer for Manchester with eight points. The final score, favoring Tecumseh, was 27-23.

Tecumseh played the better ball, although it was highly erratic at times.

The reserves defeated Hudson's second team 39-19. Max Green, by getting seven field goals and one foul took the scoring honors with Johnnie Hamilton second with eight points.

WM. MACKENZIE FATALLY HURT

LOCAL MAN KILLED AS CAR SKIDS ON SLIPPERY PAVEMENT, EARLY SUNDAY

William Tucker MacKenzie, 38 years of age, was instantly killed in an automobile accident about 2:30 Sunday morning, Mr. MacKenzie with his wife and Mr. and Mrs. David Kehoe of Manchester were returning home from a dance at Devils Lake. About four miles west of Adrian on US-223 their car skidded on the icy road, struck two trees and overturned.

Mrs. MacKenzie was thrown clear of the car and Mr. Kehoe was lifted out through a broken window. Mr. and Mrs. Kehoe were taken to Bixby hospital in Adrian for first aid and it was thought Mrs. MacKenzie was uninjured. Later she developed injuries to one hip and one ankle.

Mr. MacKenzie's body was brought to the Belding Funeral Home here.

Deceased was born in Floyd county, Kentucky and came here with his parents about five years ago. In the fall of 1938 he was married to Miss Maxine Clark of Tecumseh who survives. He was an employee of the Tecumseh Products Company.

Besides the widow, he leaves his parents, Mr. and Mrs. Henry MacKenzie, five brothers Thomas, Elmer, Eugene, Willis and Roman, four sisters, Mrs. Virginia Walker, Mrs. Sarah Ostrum, Helen and Louise, all of Tecumseh.

Funeral services were held Tuesday afternoon at the Belding Funeral Home. Rev. Mr. Ballard of Findlay, O., officiated and bearers were Ray, Everett, Clyde and James MacKenzie, Manuel Cruece and Noah Reede. Burial was made in the Deerfield cemetery.

Miss Eunia Weyer of Columbus, Ohio, suffered severe [illegible] injuries Monday night when the car in which she was riding with L. McLain of Belleville, skidded on the icy road and ran into a telephone pole on South Evans street near the railroad intersection at Patterson street. Miss Weyer was thrown out and pinned under the car in the collision. She was taken to Dr. R. F. Helzerman's office where three stitches were necessary to close the wound. Later they proceeded on their way.

Cars belonging to M. L. Dannells, Jr., and Mrs. F. E. Ford of Brooklyn collided Tuesday on Chicago street due to the icy pavement. The Dannells car then collided with Sam Good's car parked at the curb. All three cars were damaged and Mr. Dannells received bruises for which he was treated by Dr. R. F. Helzerman.

Local Shriners Hosts To 'Kids' At Big Top Show

"Hurry, hurry, hurry—get your fresh roasted peanuts here before the big show starts."

Through with the cries of other barkers, the roar of the lions and the blare of bands lingered in the minds of 75 Tecumseh boys and girls on Wednesday as they returned to their grade school seats to wrestle with the problems of readin' and 'rithmetic after a day of fun at the Shrine Circus in Detroit. They were the guests of Ben R. W. Herrick and F. C. Hanna, members of Moslem Shrine, Detroit.

The 75 children, ranging in age from 10 to 15 years and divided about equally, boys and girls, made the trip to the Circus in busses, chartered by the two local men. They left here about noon on Tuesday and were chaperoned by Alvin Brazee, Mrs. Catherine Bliel and Rae Nita Larsen. At 2 o'clock they were under the "big top," eyes sparkling, ready for the show to begin. And as the circus reached the half way mark, the youngsters were announced over the loud speakers.

After the show the youngsters again boarded the busses for the return trip, but there was a halt at Wayne where they were taken to a restaurant for their supper. They reached Tecumseh about 7 p. m.

At the children's request, Mr. Herrick and Mr. Hanna were called to the school yesterday afternoon to meet the group and to receive their personal thanks for a "grand party," a show that they would have missed had it not been for the Shriners' thoughtfulness.

THE QUALITY OF MERCY

We have read editorials that harmonize and have become a little weary of many of their platitudes. But it does us no harm to pause and take thought of some of the things that happen in our state of civilization which we like to think has progressed immeasurably from the past.

A beautiful library in a certain business district has across it the inscription "Civilization is the accumulated culture of mankind." The dictionary explains that culture is "the enlightenment and discipline acquired by mental and moral training." We reflected upon this definition when we read the newspaper account of the case of Carlton Chilton. He is the Cleveland man who 23 years ago escaped from an Oklahoma prison, and who is now ordered by the government of Oklahoma to return to prison to serve his sentence. Accounts of this man's life since his escape give him an excellent record of good citizenship and the respect of his family and associates.

Serving a prison sentence is required as payment for a man's debt to society. In addition, however, intelligent prison administrators and educators have a higher goal in mind, and they bend their efforts to assist prison inmates to adjust their mental and moral differences so that they may return to society and lead normal, useful lives.

If this is the worthwhile goal, what debt can society expect a man like Chilton to pay by a return to prison walls?

'GULLIVER' FILM IS MASTERPIECE OF CARTOON ART

"Gulliver," the giant-sized hero of Jonathan Swift's classic fantasy, is now the central figure in a picture that towers as much over ordinary screen fare as he did above the "Lilliputians!" It's "Gulliver's Travels," Max Fleischer's full length cartoon feature in Technicolor, which has its first local showing at the Strand Theatre Sunday, Monday and Tuesday, Feb. 18-19-20.

"Gulliver's Travels," as it appears on the screen, takes up "Gulliver's" adventures in one spectacular sequence after another; his shipwreck, his imprisonment by the tiny "Lilliputians" while asleep, his moral victory over the little kingdom through amazing feats of strength, his promotion of a romance between a loveable little princess and a handsome prince and his Solomon-wise solution of an international controversy that threatens to bring on a war.

The possibilities in a story of a life-sized man dropped into a land where the tallest citizen is no higher than his boot are obvious, and Feischer has made the most of them with some of the most engaging characters in the history of movie cartoons. All are masterpieces, but especially worthy of special mind are Gabby, the impudent, noisy, gossipy town crier, and the three sly, malicious, rediculous spies, 'Sneak,' 'Snitch,' and 'Snoop.'

"Gulliver's Travels" shows what a master-artist can do. Technicolor, and Fleischer have used brilliant hues in striking combinations to achieve an unforgettable effect. As for the music, if you aren't humming the tunes already, you certainly will after seeing the picture. Especially catchy are "It's a Hap-Hap-Happy Day," "Faithful Forever" and "All's Well."

IRON RIVER (MPA) — "My Prayer" is a popular song that is decidedly unpopular with Dr. Alfred Miller. Although the top of the car was crushed, the radio crooner continued to sing "My Prayer." Miller escaped without serious injury.

Grandma Made All Her Own Clothes

A "store-bought" dress was seldom-attained luxury for Gran'ma. Today, thanks to modern scientific production methods, most women buy smart fashions from local shops at prices home sewing could hardly duplicate.

Gran'ma took a day a week out of her life doing the washing, too. Today, home laundering can't come close to the scientific modern laundering in efficiency or actual cleanliness . . . and we have a service to fit every purse and need.

"Lucy always smells like a filling station."

Not that Lucy isn't fastidious. She has her clothes cleaned regularly. But she's a victim of "bargain" cleaning in which the cleaning solvent has become so dirt-logged that it leaves garments with an unmistakable and obnoxious odor.

We're fussy about clean, fresh cleaning solvents. They do a better job and they leave your garments smelling as fresh and clean as they look. Try us tomorrow. We promise you, "no filling station odor."

County Federation O. K.'s Dies Actions

Mrs. J. O. Eaton, Mrs. E. J. Aebersold, Mrs. C. R. Dustin and Mrs. Jennie Law Hardy were in Adrian Thursday for the executive board meeting of the Lenawee County Federation of Women's Clubs. Thirty members attended and plans were made for the annual convention to be held April 25 in Addison.

The chairman of the Law Enforcement and Legislation Committee, Mrs. Hardy, presented the following resolution, which was unanimously adopted:

The Executive Board of the Lenawee Federation of Women's Clubs goes on record as supporting the Dies Committee for its excellent work in investigating Anti-American Activities, and expresses its heartfelt admiration for Representative Dies of Texas and his associates, for their unselfish, efficient work and for the excellent results they have obtained in uncovering subersive activities.

The Lenawee County Federation of Women's Clubs urges that the Dies Committee should not be hampered by lack of funds, but that this Committee be furnished with ample financial support, to enable them to continue their wonderful work.

The secretary is instructed to spread this resolution on the minutes, and to send a copy to Representative Dies in Washington.

A second resolution was also unanimously adopted as follows:

The Executive Board of the Lenawee Federation also goes on record as expressing its regret at the action of Representative Hook, in his actions in regard to the Dies Committee.

One o'clock luncheon was followed, by a travelogue by Mrs. Byron Foster of Hudson on her recent trip to Europe.

13th Anniversary Observed By D. A. R.

The 13th anniversary of Abi Evans chapter, Daughters of the American Revolution, was observed at the regular meeting held Friday at the home of Mrs. Hoyt Whelan on West Chicago Boulevard.

Mrs. E. D. Brown presided at the business session and announcement was made of the annual banquet to be held in the parlors of the First Baptist church the evening of March 8. Mrs. Whelan was named as alternate delegate to the Continental Congress at Washington, D. C., the regent, Mrs. C. L. Dustin, being delegate because of her office. The delegates to the state conference to be held in Battle Creek March 28, 29 and 30 are to be announced later.

Mrs. Burtsel Caus then introduced the entertainment for the afternoon, which included a George Washington play in three acts, "A View from a Window," with parts taken by Mrs. Dustin, Mrs. C. C. Bedard, Mrs. Whelan, Miss Marion Whelan, Mrs. Eugene Fisher, Mrs. Fay Whelan, Mrs. Virgil Deming, Helen Claus and Herbert Fisher, all in Colonial costume. Mrs. F. C. Dickinson had arranged the music, which was from the Colonial period. A trio composed of Herbert Fisher and Ronald Van Valkenburg, violins, and Helen Claus, cello, played Beethoven's "Minuet in G" and Mrs. Dickinson played as piano numbers "Beneath the Weeping Willow Tree" and "The Wayworn Traveler." In conclusion the entire cast and the chapter sang "God Bless America."

Tea was served at the close of the program. The table was laid with a linen table cloth which had belonged to Mrs. Whelan's grandmother, and a pewter platter, which held the tea things at one end of the table was brought to America in 1600 by Hugenot ancestors of Mrs. Clarence Fisher and Mrs. Claus. The teapots were also antiques. A handsome birthday cake centered the table and was surrounded by 13 red candles in glass holders. The cake was decorated with red and blue rosetts and lettering on the white frosting. Mrs. D. F. Wright cut and served the cake and Mrs. O. W. Laidlaw, the first regent, and Mrs. Dustin, the present regent, poured.

A. & P. Stores Will Observe Founder Week

The founder of the Great Atlantic & Pacific Tea Company, George Huntington Hartford, who created the modern retailing method of direct buying and straight-line, mass distribution, will be honored by all A&P stores during Founder's Week, Feb. 12-19, the company announced here today.

Retailing principles established by Mr. Hartford when he opened the first red-fronted A&P store in 1859, company officials pointed out, are used today by countless chain and independent merchants as the means of providing greater savings to customers.

A young man from Maine, Mr. Hartford entered the retailing field in New York City, where he was impressed by the prevailing high price of tea. A&P executives said. He believed that by purchasing tea direct, eliminating the many handling charges and middleman's profits and retailing through his own store, he could materially reduce the price from the prevailing scale of a dollar and more per pound.

Mr. Hartford's first store, located on Vesey Street in lower New York, offered its customers striking savings on their tea purchases, and was an immediate success, the company officials said. Applying the same principles of direct buying and quick turnover of large volume at small profit, he opened additional units and added other groceries to his stock.

During Founder's Week, all A&P stores will lay special emphasis on tea, as their original stock in trade, and coffee, another early item of which the company is now said to be the world's largest retailer, executives of the food chain declared. Purpose of the merchandising program, they concluded, is to demonstrate how foods and beverages that once were luxuries have been made inexpensive items in everyday diet, through modern, efficient methods of food distribution.

Section 3. Discount of ten percent will be allowed on all bills paid within fifteen days after the date of bill rendered on bill for 100,000 gallons or less.

Section 4. A semi-annual rental charge for meters, except as herein otherwise provided, shall be made against all users of water as follows: For ¾ inch meter Twenty-five Cents; 1 inch meter Forty Cents; 1¼ inch meter Fifty Cents; 1½ inch meter Seventy-five Cents; 1½ inch meter One Dollar; 2 inch meter One and 50-100 Dollars; which rental charges shall become due semi-annually on the 1st day of January and the 1st day of July of each year and shall be added to the charge for actual water consumed.

Section 5. All lawn or yard water taps shall be metered and the owner or occupant of the premises where the same are located shall pay a minimum charge of $10.00 for the time such meter is installed, but no charge shall be made for setting and removing such meters. All such meters shall be removed not later than November 1st of each year.

Section 6. Section 9. Consumers who are tenants of property served with water from the Village system shall deposit $5.00 before service of water shall be permitted to them, the same to be retained by the Village during such tenancy, at end of which it shall be returned less any water bills then due. This deposit by the consumer is not to relieve the owner of the property from responsibility for all water charges, and is to be required only where owner of property is a non-resident, or the deposit is requested by the owner of the property as an added protection to the owner, but shall in no way relieve the owner from responsibility for all water charges.

Section 10. No person residing outside the corporate limits of the Village of Tecumseh shall be permitted to secure water from the Village water system without permission for such use being granted by the Village Council. Any meter hereafter installed outside the corporate limits of the Village shall be paid for by the owner of the premises, and no meter rental charge shall be made. Whenever the Village Council shall grant permission to any person residing outside the corporate limits to secure or obtain water from the Village water system, all cost and expense in connection with laying pipes and providing for delivery of water to the premises shall be paid by the person to whom such permission for use of water is granted. The Village shall not be responsible in any way for any loss, damage or injury which may be caused by the construction and installation of such water system to connect outside the Village.

Section 11. All ordinances or parts of ordinances contravening the provisions of this ordinance are hereby repealed.

Motion made by Smith, supported by Turnbull, that motion as read be adopted. Ayes: Campbell, Van Vleet, Turnbull, Hite, Smith. Nays: None. Motion Carried.

Moved by Trustee Smith and supported by Trustee Turnbull that Sections 23 and 27 of "An Ordinance to Provide for the Management of the Village Waterworks and regulating the use of water therefrom" passed February 5, 1906, be amended and a new section to be known as Section 28 to be added, which amended sections and additional section shall read as follows:

Section 23. Parties vacating premises before the expiration of the term for which they have paid water rates may obtain the application of the unexpired term on other premises, or rebate of such rate by filing notice with the Village Clerk, who, on a proper showing, may allow such transfer and rebate. When premises are left vacated and the owner or occupant does not request in writing that the water be turned off, no rebate shall be allowed. No allowance shall be made for any water registered by the meter that may have been caused by a leak or waste through the plumbing or fixtures. The Village shall not be responsible for any damage caused by failure of giving written notice, as herein provided, to shut off water.

Section 27. Any person making application for a meter to be set in his premises shall be subject to all costs of setting and regulating such meter.

Section 28a. Whenever any pipe shall become frozen between the service cock and any building on the premises supplied by water, the cost and expense of thawing out such pipe or pipes shall be a charge against the user of water and owner of the premises, and shall be collected in the same manner as water rates are collected.

Motion made by Smith, supported by Turnbull that motion as read be accepted and adopted. Ayes: Campbell, Van Vleet, Turnbull, Hite, Smith. Nays: None. Motion Carried.

On Motion Council Adjourned.

Income Tax To Hit Local, State Officials

Giles Kavanaugh, collector of internal revenue for the District of Michigan, announces that several thousand new income taxpayers are to be added to his already large list of 370,000 Michigan persons, who will file income tax returns under the provisions of the Public Salary Tax Act of 1939.

This law passed at the last session of Congress puts to rest the old question of public salary taxation. The salary of federal employees has always been taxable, but until this year, beginning January 1, 1939, state salaries were not taxable under federal taxing authority. All public school teachers, all state and county officials, and city and village executives and employees must pay income tax. Some of them have been paying tax on income received from other sources, but until the current year have not been required to include the salary received as a teacher or public official. Married couples, where one or the other has income from the state or a political subdivision, must now combine their incomes to determine taxability.

For 1939 and subsequent years, the tax is upon the net income which is determined by subtracting the allowable deductions and personal exemptions from the gross income. Ordinary deductions are interest paid on indebtedness (like a mortgage on a home) all taxes paid, (except income and improvement tax) benevolences to one's church or any organized, bad debts which became worthless during the year for which the return was made, and 10% of earned net income. The personal exemption of husband and wife living together is $2500, and an additional $400 for each child under 18 years of age. Single persons without dependents have an exemption of $1000. Persons with a gross income of $5000 or more should file their returns on Form 1040; those below $5000 on Form 1040-A. These forms may be procured from the Collector of Internal Revenue, Detroit, Mich., and will be available after January 5, 1940. These should be executed and mailed to reach his office by March 15, 1940. The forms contain full information relative to their preparation.

ASK ANTHONY KRZYNIAK ! !

Anthony (we'll bet his friends call him "Tony") Krzyniak, didn't drive in from Krakow or Warsow Poland. He lives in Manchester, Michigan, and started last week to exchange his wheat at our mill for "1900" Flour. In fact his grist of over 26 bushels was the largest for the week. And the free dishes that he took home made somebody happy. The 10 largest exchanges last week were as follows:

1st—Anthony Krzyniak, Manchester.
2nd—Frank Wood, Clayton.
3rd—Harvey Proctor, Manchester
4th—Leon Stautz, Manchester.
5th—Lester Kafer, Palmyra.
6th—F. Schultz, Onsted.
7th — Parley Kimerer, West Toledo.
8th—Lawrence Ahrens, Manchester.
9th—Harold Dowling, Onsted.
10th—Arthur Hawkins, Manitou Beach.

ANNA WILKINS LIKES "1900"

Anna Wilkins, one of our neighbors, used to use "1900" Flour, years ago. Then she said it wasn't so good for a while, and she got to using Mold Gedal (or something like that). But this week she got a sack of "1900," and yesterday she said it was just grand. In fact she said that it was the best flour she had ever used.

PEOPLES PARTY NAMES TICKET

SCHNEIDER NOMINATED FOR PRESIDENT; WINTER, TITLEY IN RACE

Karl M. Schneider, who is rounding out his second term as village president, was nominated for re-election to that office when the Peoples Party met in annual caucus at the council building, Tuesday evening. The caucus was attended by 76 voters, one of the largest held in Tecumseh in the past two years.

Mr. Schneider was unopposed for the nomination, as were Wade L. Jones for village clerk, B. H. TurnBull and O. J. Winter for trustees, and Le Roy Titley for treasurer. The only contest was between S. Henry Smith, seeking renomination as trustee, and Hubert Van Camp, whose name was placed in the running in opposition. In the balloting, Mr. Smith received 56 votes to Mr. Van Camp's 21.

Mr. Winter is a new arrival in local politics and he accepted the nomination for the council after E. M. Campbell, who is now finishing a 12-year term as trustee, declined renomination. Mr. Winter is assistant cashier of the United Savings Bank. Mr. Campbell, who will retire next April from the council, first entered local politics in 1920. In 1935 to 1937 he served as village president and for the past two years has been at the head of the finance committee.

Mr. Jones, Mr. TurnBull and Mr. Smith are members of the village's official family at this time. Mr. Jones as clerk and the others as trustees. Mr. Titley is a newcomer in the political field, and if elected will succeed H. S. Waring, who is retiring as treasurer.

Because the time limit for the holding of caucuses has elapsed, it was said today that any one ticket would be in the field at the election next month.

At Tuesday's caucus, F. S. Anderson acted as chairman, Elisworth Collins was secretary and the Rev. E. M. McGehee and Albert Bagshaw acted as tellers.

ATHLETIC PARK TO WAIT FUNDS

SCHOOL BOARD UNABLE TO SPEND MONEY FOR IMPROVEMENT OF FIELD

The Tecumseh board of education, following its regular monthly meeting on Tuesday evening, announced that the program for improving the newly purchased athletic field, immediately north of the high school building, must wait until the district has funds available with which to do the work. The field was purchased during the fall, following a special election.

Like other districts throughout the state, Tecumseh is finding itself short of cash with which to operate the schools. Some time ago it was necessary for the board to negotiate a loan in order to meet running expenses, but this will be liquidated with the arrival of local tax money. C. F. Patterson, secretary to the board, said that he did not anticipate any serious difficulty in financing ordinary school operation during the balance of the year, provided that state aid funds, overdue from Lansing, are paid as promised. He declared, however, that the board is finding it impossible to add to its overhead, even to the amount that would be necessary for the park improvement.

Superintendent W. L. Berkhof was instructed to advise all outside districts sending pupils to the local high school that there is a tuition charge of $11.20 per pupil, which must be paid. This money is returned to the districts by the state. About 70 "tuition pupils" are attending the local school.

The board voted to pay $25 for the expense of a commencement speaker, authorized the purchase of 60 steel chairs for the use of the band, and listened to reports superintendent. L. G. Hall, county agricultural agent, was granted permission to use a room in the high school building for poultry lectures, the next to be held on Tuesday evening.

Feb. 29 Is Last Day For Use Of 1939 Plates

Thursday midnight, February 29, is the last day that motorists in Michigan may operate automobiles legally on 1939 licenses, the Secretary of State's office warned today as they let it be known that there are still some 10,000 licenses to be issued in Lenawee county.

To accomodate motorists who desire to buy their plates today, Budd Goodwin, manager of the Adrian branch office of the secretary, said that his office would be open all day today, although it legally is a holiday—Washington's birthday.

If all the cars that are still unlicensed in the county are to have plates before the deadline is reached, the office must issue more than 1,000 plates daily—an almost impossible task.

Harry Kelly, secretary of state, has announced that there will not be an extension in the deadline date, that the law fixes the date as March 1 for new licenses, and it must be observed.

CAGE TOURNEY ENDS SATURDAY

DEERFIELD, BRITTON, JACKSON, MICHIGAN NORMAL IN THE FINALS

The Independent Cage Tourney, an annual event at Tecumseh High School, shifted into high gear last night with semi-finals in both the open and closed classes. Emerging as victors in four hotly contested games were Deerfield and Britton in the closed class, and Jackson and Ypsilanti Collegians in the open class. Deerfield won from Leslie by a 31-30 score and Britton from Milan by 26-20. Jackson defeated Coldwater, 42-24 and Michigan Normal All-Stars lost to Ypsi Collegians, 38-40.

These teams will battle for the championships in their respective classes in the finals Saturday night. The first game will start at 8 o'clock, the second an hour later.

In the opening rounds of the tournament on Monday, Britton tangled with Dundee in the closed class to come out on top of a 26 to 15 score. In the same class Blissfield tunred in a win over Hudson in the tune of 30-22.

Quints from Ida and Waldron furnished a nip and tuck contest before Waldron cagers hung up a 28 to 23 victory, in other games in the closed class Leslie handed Imlay a 25 to 17 licking, while Deerfield came through with a 26 to 21 win over Petersburg.

Mrs. Ida open Mrs. Young's Jewelet's team of Jackson showed the most class of the evening in defeating Smith's Grocers of Toledo by a score of 39 to 14.

In the second night of play the Coldwater Brass team and the Brooklyn Purity Shop quintet staged a thriller. When the final whistle sounded the score stood even at 28 to 28. In the three minute overtime period Coldwater tallied one free throw to end the game with the score 28-29.

A fast-stepping team from Michigan Normal and a fine, rangy team from Hillsdale Stocks Mikota Maroons, managed to keep the fans on their feet in a hard fought, close-finish game. Closely contested all the way, the game was the high point of the evening. With the final score decided by the last few seconds of play Michigan Normal eked out a 30 to 28 win.

In another tight affair the Ypsilanti Colegians battled to a 28-27 victory over the Kewpee Hotel team of Toledo.

In the closed class the Milan Merchants made their first appearance in the tournament by defeating the Baily Drugs of Blissfield by a score of 30-18.

The Deerfield Oilers won their spot in the semi-finals by defeating Clinton in a not too hotly contested game in the closed class.

The biggest upset of the evening came when the Leslie Merchants, after trailing at the half by 9 points, came to life and with a strong finish whipped a smooth working team, the Waldron Independents, to the tune of 30-25.

WILL BE STAGED AT HIGH SCHOOL, FEBRUARY 27 & 28

A three-act comedy, "Headed for Eden," will be presented in the high school auditorium next week Tuesday and Wednesday evenings, February 27-28, by the Junior Class of Tecumseh high school.

The play tells the story of an innocent landlady with six working girls very much on their own. She soon finds her boarding house anything but peaceful when the girls become involved in — but that would be telling too much of the story, the director says. However, an evening of fyun for everyone is promised by those in charge of the performance.

A GRATIFYING REPORT

One of the most gratifying reports that we have read in many months—a report that should make Tecumseh feel proud—was issued recently by the Board of Trustees of Tecumseh Hospital, showing that the institution not only is self-sustaining, but is also making a modest profit. And, in addition, the report also shows that during the year 1939 the hospital cared for 429 patients, was most of the time crowded to capacity, and has a waiting list for room reservations.

The fact that the hospital is on a firm financial basis and is making money is one side of the picture that is unusual, not only in Michigan but throughout the nation. There are few hospitals, government or privately operated, that even come near to paying their own way, and a majority of them are are constantly seeking endowments or public subsidy in an effort to operate on the right side of the ledger.

But such is not the case with Tecumseh Hospital. During the year just closed it actually operated at a profit, after all charge-offs had been made. True, the profit was small, but that was as it was intended. The hospital was not conceived as a money making institution; it was not built to be operated at a handsome profit. It was built to be of benefit to Tecumseh and its service area, and judging from its public reception it is filling the bill. Its prices are modest, its equipment is of the finest obtainable, its service is the best that a trained staff of nurses and doctors knows how to give. The public has learned these facts during the year-and-a-half that the hospital has operated, and has endorsed such a policy with generous patronage.

Mr. Ray W. Herrick, president of the hospital board of trustees, has advised the Village Council that the hospital, although it was built with the idea of serving this community for five years without enlargement, already has outgrown its present building. More room is needed, Mr. Herrick says, if the hospital is to continue to give the same high-type service to its rapidly growing list of patients. Mr. Herrick and members of his board are studying plans for the enlargement of the building and architects' drawings will be submitted to the council within a few weeks. And in all probability the council will approve an expansion program during the summer months.

A report such as Mr. Herrick and his board has made to the council must be very gratifying to the public, and it also must be very pleasing to the board itself. In the face of the "red ink" reports that have been received from other hospitals where endowments and subsidy have failed to keep them "out of the hole," there can be but one answer to Tecumseh's apparent secret of success. The answer must be highly efficient management, complete cooperation on the part of its doctors, superintendent and nurses, and above-the-average service to its patients—a service so good that it is constantly attracting public attention.

And since Mr. Herrick and his board of trustees are in complete control of all departments of the hospital, it is to them that credit for its successful operation must be given. They can be justly proud of the fact that they are doing a good job well. Theirs is a unique position—they are members of the executive board of one of the few hospitals in the country that is "out of the red."

Strand Theater

"ALLEGHENY UPRISING"

Claire Trevor and John Wayne, who recently won salvos of praise for their superb performances in "Stagecoach," again combine their talents in an historic epic, "Allegheny Uprising," the attraction at the Strand Theatre, February 25-26-27. The film is based on Neil Swanson's best-seller, "The First Rebel," and deals with a stirring chapter in American history.

The colorful story laid in the 1760's depicts in dramatic fashion the revolt of Pennsylvania colonists against British soldiery over protection given unscrupulous traders selling guns and ammunition to Indians. These events are said to have forecast the Battle of Lexington more than several years later when Minute Men, called from their plows, grabbed up muzzle-loaders and precipitated the Revolution of 1776.

John Wayne is cast in the role of James Smith, a name all but lost to history. As the courageous leader of the frontiersmen who were driven to take up arms against the arrogant British army officials, Wayne has a most virile part.

Claire Trevor portrays Janie McDougall, impetuous daughter of a tavern keeper, whose hectic romance is constantly being thwarted by her lover going off to do battle.

George Sanders heads the supporting cast in this RKO Radio picture as an arrogant British officer. Brian Donlevy, as a disinherited trader, Wilfrid Lawson, as the father of Claire Trevor; Robert Barrat, as a magistrate, and John P. Hamilton, Moroni Olsen, and Eddie Quillan all have important roles.

SECURITY STORY TO BE TOLD ON THE AIR

A dramatized story of the amended Social Security Act will be presented over Station WIBM in Jackson starting at 7 p. m. tonight. This announcement was made today by William J. Rhynsburger, manager of the Social Security Board field office in Jackson, Mich. His office is sponsoring the program in the Tecumseh area.

"The series tells the story of a typical American family," Mr. Rhynsburger said.

"It is called 'Pleasantdale Folks' and shows how the average family may, at some time, be benefited by one or more of the programs which are included under the general heading of social security. The dramatized text has been produced by a professional cast of radio players. Each episode is of 15 minutes duration. After the first presentation other episodes will be presented each Thursday at the same hour."

LITTLE FISH IS FATAL

ROGERS CITY (MPA)—Two Onaway ice skaters have reported how a big fish found a little fish to be a fatal mouthful. When a 20-inch pike tried to swallow a six-inch sunfish, the little fellow, instead of sliding down the pike's gullet, pushed its snout through the pike's gills. Its' sharp spines made it impossible for the big fish to disgorge the meal.

Former Local Girl Is Well Known Writer

An interesting article concerning Miss Hazel Zimmerman appeared in the February 4 edition of a San Francisco newspaper. Miss Zimmerman is spoken of as the most versatile of San Francisco career women, a poet, business woman, song writer and novelist. She heads her own investment brokerage concern, and in addition to her writing has developed a new flair—that was writing songs.

Her first song she calls "Let's Talk of Spring" and relates that it came to her by inspiration in the night. On completion she showed the score to Vincent Lopez who arranged it for orchestra and will soon give it its premier over the air by his famous orchestra.

It took Miss Zimmerman five years to write "Green Grows the Laurel," her first book of sonnets. "Sovereign" the narrative poem based on the romance of the Duke and Duchess of Windsor, was written in the interim between the two volumes of sonnets and was turned out in less than six weeks. She is now at work on a novel.

Miss Zimmerman is a daughter of the late Mr. and Mrs. M. A. Zimmerman and spent her girlhood and school days in Tecumseh.

No one ever found a bargain when he went shopping for friendships.

School Notes

Girl Scouts

This week, instead of holding their regular meeting, the Girl Scouts had a Valentine party. After playing games and enjoying ice cream and cake, we opened our valentines which had been distributed previously. We all had lots of fun, which is always the case at a Girl Scout meeting.

The older Girl Scouts have changed their meeting time from Tuesday to Monday night after school in order to be with the younger Girl Scouts. We find it very pleasant to meet with the younger group, as there are more of us to play games. Oh, we have another surprise! We have a new leader! Mrs Robert H. Moore has kindly consented to help us with our Scout work.

In our meetings we have been working on handicraft, making bracelets, lanyards, etc. Do we have fun! Say, girls, come and find out!

Some of the Girl Scouts were greatly honored by being chosen to serve at the Boy Scout Banquet last Wedesday night. This, as you know, is Boy Scout Week.

We are announcing a Girl Scout cooky sale. So, folks, when a Girl Scout comes to your house in the near future, be sure that your heart is in the right place and give her an order.

A Girl Scout, Margaret Jack.

Chapel Program

Last week on a beautiful Monday morning, we opened chapel by singing "Holy, Holy, Holy" and "America the Beautiful." As our speaker we had our old friend, Mr Brazee. He first read some verses from the 12th chapter of Matthew. The topic which he discussed was Abraham Lincoln. He told two very interesting stories of him. One was the story of a little girl who was saving money for a missionary fund. She helped Lincoln carry his bags to the train when he was leaving town. He gave her a bright new coin, which she thought was a penny. When she took her money to church, the minister asked her how much she had. She replied "82 cents." But the minister upon counting it found $5.81. What she had thought was a penny was a five dollar gold-piece.

Mr Brazee ended by saying a very nice prayer.

Reporter, Mary Jane Smith.

The chapel services this morning opened with Rae Nita, president of the Student Council, announcing our song "Battle Hymn of the Republic." Then Rev. Escolme spoke about the George Washington memorial at Valley Forge in Pennsylvania. He refreshed our memory about Lincoln's birthday and compared Washington with Lincoln. He read us passages from a book called "[illegible]" which expressed the religious views of various Presidents of the United States.

The service was closed by a prayer. We appreciate having our Tecumseh ministers bring us these messages every Monday morning, and we try to show our interest by paying attention.

Reporter, Margaret Jack.

As a spelling project this semester each Junior High teacher keeps a list of words misspelled in his classes during the week, and the spelling list are made up of those words. A spelling test is given each Friday, and a "check test" is given sometime during the following week. There were 18 on the spelling honor roll last week.

Last Monday night the seventh grade had a Valentine Party at the high school building. Games were played until 8:30, when the guests were called for refreshments of jello and valentine cookies, after which they watched the opening of the well-stuffed Valentine box.

The 8th grade, A section, has been studying insurance in both English and arithmetic class. Last week a mock trial was held to determine which insurance company would be liable for damage in an accident case. The students also made notebooks which included articles on the types of insurance, and why each type is valuable, as well as problems worked out in arithmetic class.

Freshman Class Party

We left the school house in the District 5 School bus about 4:30 o'clock and arrived at Keeney's Lake about 5 p. m.

We enjoyed ourselves very much by sliding down a hill, skiing, and skating. However, one girl, (the President of the Class) had a little accident and skinned her nose.

Just a little before dark we started back for the bus and ate our supper there. Some of us skated after we had our supper.

We started home about 8:00. On the way, we had another accident. The battery "went dead," and the boys had to push the bus to get it started again. This happened twice. We had quite a bit of fun, though, and sang songs coming and going.

Mr and Mrs Mead were our chaperones, and Mrs Brooks drove the bus.

Mary Stevenson, Reporter.

Junior Play

On the evenings of February 27 and 28, there will be presented in the High School Auditorium, an outstanding event on our school calendar—the Junior Play. Ever since the present high school building was erected in 1918, the Junior Play has been an annual event. The Class of 1940, proudly carrying on this tradition, presents "Headed For Eden." With our most talented Juniors under the direction of Mr. Young, we are preparing for you a full evening's entertainment, which you are cordially invited to attend. It's super colossal," promises the Juniors and 60 Juniors can't be wrong.

Margarett Cadmus, Reporter.

Juniors See "Gone With the Wind"

Last Thursday the Juniors' American Literature Class, accompanied by Mr Young, had the privilege of seeing that motion picture for which the nation has been waiting for two years — "Gone With The Wind." We engaged the District 5 School Bus, driven by Mrs. Brooks, who enjoyed the picture with us.

The picture proved to be well worth waiting for. It is everything you have read about it, with Clark Gable and Vivian Leigh portraying their roles marvelously. How did we like the movie? Words like "wonderful" or "great" couldn't begin to express it; it was one of those things you can't express in words, or even begin to describe to anyone.

Margaret Cadmus, Reporter.

Spot Light

1. What Freshman girl forgot and called Mrs Service, her English teacher, "Mr Parsons?"

2. Who is the Sophomore boy that worked some Algebra problems for a certain Senior, and when one of these problems was placed on the board, how embarrassed they both were when neither could explain it!

3. What Freshman girl hasn't a seat in the assembly, but sits near a Senior boy's desk, and when he isn't there, sits in his seat? It wouldn't surprise us if she put a note or two in his desk.

4. What five Seniors went to Toledo without a chaperone to see "Gone With The Wind?"

5. Who were the boy and girl at the Freshman Class Party who went down the hill on their heads?

6. At the Freshman Class Party, what boy helped push the bus without his shoes on?

Mr. Mead's Classes

The American History Class has been studying the progress of America between the periods of 1800 and 1830. Projects are being completed over this unit of study which shows the work of American inventors and American writers during this period.

The ninth grade Citizenship class have been studying the work of various departments in the United States government. Projects in the form of charts and essays show graphically the work of these departments.

The World History class has begun the study of the French Revolution and its effect upon Europe. They have been taking notes in class every day.

Margaret Jack, reporter.

Home Economics

The Freshman Home Economics girls are planning breakfasts. Section one served breakfast in families, each "family" planning its own menus. Section two served in groups, using one menu.

The Sophomore girls served a pancake supper last Thursday evening at the high school for the business men of Tecumseh.

Margaret Jack, reporter.

Junior High English
Miss Elliott, Teacher

The seventh graders have each made a poetry anthology in connection with their study of a unit called "Learning About Nature." Several students have included original selections in their collections.

Both the 7th and 8th grades are at present studying units on the Library and its place in the community. An interesting exhibit of unusual books is being displayed in the English room. An especially good collection of great poems by English and American authors, a "Book of Old Ships," two Godey's "Ladies' Books" (Dec. 1861 and June 1865), an Almanac for 1829, a Polyglot Bible (1844), a "Book of Moral Philosophy" (1833), and an 1839 edition of Volume One of "The Arabian Nights" are included in this exhibit. There is also a copy of Carl Sandburg's "American Song-bag." One day the class examined a volume of Edgar Allen Poe's "Tales of Mystery and Imagination" to see how the construction of the book lent an appropriate atmosphere to the weird stories included in it, for the inside covers are black, and the illustrations very fanastic.

Sixth Grade
Mrs. Smith, Teacher

Last Thursday morning we went into room six where we saw three pictures called "News of the World," "Little Dutch Tulip Girl," and "The Castle" film.

Today we are having art, and in class we are making valentines and rose windows. Barbara Humble brought us a rose widow to show us how they make them in Indianapolis. Some of our rose windows turned out very well.

Last Thursday in music class the boys in Mrs Smith's and Miss Starr's room had a Major Bowes' program. Billy Hayden was Major Bowes, Mrs Smith and Miss Starr came in to see it. They said it was very good.

Room helpers for this week are Justine Coover and Thomas Tomasak.

Reporters, Lenore Mohr, Herbert Farver.

Some of the pupils in the room were able to go faster in their work than others so Mrs Smith divided the room into an A and a B class. One pupil so far has been good enough to go from the B class into the A class.

In geography we have finished studying the British Empire, and are now studying France. So far we like it very much.

Last Monday we had a new girl join our group. Her name is Betty Turner. We are very glad to have her in our room, and we find that she is a lot of fun.

Wednesday afternoon we had our Valentine party. We all received many valentines, and we had candy and apples for refreshments.

In music class Wednesday the girls had a Major Bowes program. Barbara Humble acted as Major Bowes. She was very good. Mrs Smith and Miss Starr attended the program.

Tuesday afternoon we had science class. We studied the migration of birds.

The room helpers for this week were Martha Jane Kempf and Lynn House.

Fifth Grade
Miss Starr, Teacher

On the bulletin board in the back of our room we have pictures of Abraham Lincoln. Jimmy Sisson and Dwaine Louden made up poems about him. We are very happy to know that Robert Osburn's birthday is February 12th the same as Lincoln's.

We drew pictures of Pinocchio, and Miss Starr hung them in our room. Some of us would make very good artists.

Louise Wilson's spelling team lost in the contest for A's so she and her group planned a Valentine party which was very successful. The refreshments consisted of heart shaped cookies and jello. Some of us brought candy.

We are still enjoying our weather calendars.

Our books of poems are almost finished. We are going to learn a poem from them to recite for the class.

In gym, the girls are learning the camel walk, the elephant walk, the knee walk, the head roll, and the rocking chair. The boys are doing most of the same things.

Louise Wilson gave Miss Starr two beautiful red roses as a valentine. She liked them very much.

The girls had their Major Bowes program, and everyone enjoyed it very much. We all hope to have another soon.

The room helpers are LaMar Cheever, Gloria Underwood, and Irene Poley.

Reporters, Colleen Davidson, Esther Frost.

Fourth and Fifth Grades
Mrs. Pfaus, Teacher

The fourth grade entertained the fifth with a Valentine party last Wednesday afternoon. We had decorated cookies and chocolate milk for refreshments. Each pupil delivered some of the dozens of valentines.

Several children were chosen from our room to go to the circus in Detroit. Judging from their tales, the trip was well worth while.

We have finished reading "Heidi's Children," and now we are reading the children's edition of "Uncle Toms' Cabin" because we are studying the Civil War in History.

In arithmetic the fourth graders have made play money and have learned how to make change. We played store on Thursday and Friday.

Eldon Service and Stanley Frost are room helpers this week.

Fourth Grade
Miss Kline, Teacher

Some of us went to the Shrine Circus in Detroit on Tuesday. We had such a nice time! We talked about the animals and the performers in language class to tell the others the marvelous things we saw. We saw trapeze performers and lion tamers, and we laughed at the clowns.

We had a Valentine Party, too, this week. We played games and had lots of fun. Marlou Gilman gave each of us a dixie ice cream cup for a valentine, and Miss Kline gave us each a cup cake with a rose bud decoration on top. Each of us received lots of valentines. It was a happy day.

In gym we are having tumbling on large mats. We like it very much.

In arithmetic we are multiplying and dividing by eight and nine. In dividing, especially, we have to be careful to follow the steps exactly.

Richard Lent and Charles Bater were room helpers this week.

The first row and the fifth row were the winners of our health inspection this week.

Third Grade - East Branch
Mrs. Truesdale, Teacher

Dr. Brown visited our room on Thursday afternoon and showed slides on the care of the teeth. He also brought each of us a set of dental posters, which we are eagerly looking forward to coloring. We learned from the slides what happened to Bobby Don't-care's teeth, and we decided to keep ours clean and healthy.

Group one has two number drills, in arithmetic. The class average entitled them to a rating of "Good" on both of the drills. We have just received class progress charts on which to record our class ratings on these drills, and also individual progress charts on which we can graph our individual ratings. These charts are in the form of thermometers, and we like to see the mercury climb to the top.

First and Second Grade
East Branch
Miss Borgards, Teacher

The second graders have learned the Roman numerals form I to XII. These we have put on clocks and showed dicerent hours for doing things. We made some large clocks, and one of these is in our Post Office.

Our Post Office is almost completed. Rearonn has a box, the [illegible] a number. We have written letters, made envelopes and stamps, and some of these have gone through our Post Office. On Valentine's Day our Post Master expects to be very busy.

Many interesting things have been learned about Abraham Lincoln this week. We have illustrated incidents in his life. These we have mounted for the display case at the high school.

Second Grade - West Branch
Miss LaPointe, Teacher

Jimmie Weller is absent from school on account of illness.

We had a Valentine party Wednesday afternoon. Our songs in music classes last week were about Valentines.

We have finished reading our Elson reader and will now review the book.

We are learning much about the life of Abraham Lincoln by means of stories. We have dramatized many incidents in the early life of Lincoln. Next week we learn about George Washington.

Gerald Van Valkenburg was eight years old February 12th.

Kindergarten - West Branch
Mrs. Updyke, Teacher

We have made two large Valentine boxes, one for the morning group and one for the afternoon group. We are using a little time each day to make Valentines for our friends. We have had many beautiful ones. Our toy making is taking most of our time these days as every child is making his own toy.

We started our Pre-Primer reading this week, and we are looking forward to using our little blue books that will tell us all about two children, Billy and Sally.

We all enjoyed our Valentine party. Several happy surprises made it a real party, and there were many valentines for every child.

Mrs Freckelton visited us one morning. We enjoy having our mothers come.

Onsted

Mrs Mary Potter spent the past week in Wauseon, Ohio, with Dr. and Mrs James Boydston.

Onsted Lodge, F. & A. M., held a card party Tuesday evening in the Masonic hall when tables were arranged for pedro, bridge and pinochle. Lunch was served after the games. The proceeds will be added to the fund for a new hall rug.

Mr and Mrs Victor Bowers of Toledo have moved to the Mack Cooley home and will work for Mr Cooley.

Mrs Eva Bum is improving slowly from her recent serious illness at the home of her daughter Mrs Lear Van Valkenburg in Adrian.

The Onsted Woman's Club held a "Needlecraft Day" Tuesday at the school with an interesting display of all types of needlework, both hand and machine work.

Mrs Mary Bills is ill of pneumonia.

The Onsted chapter, F.F.A., will hold a Father & Son banquet Monday evening February 26 at the school when Dr. Warningham, a leader of the American Youth Foundation will be the speaker. Each father and son is to exhibit products grown upon their farm and prizes will be awarded the three best exhibits. Delmar Hardy and Len Vallad are in charge of the ticket sale.

Lyle Vanderbrook is a member of the handicraft committee to assist with the Spring Achievement Day program for the 4-H clubs of Lenawee county. Other members of the committee are John Walkup of Rollin, Herbert Fisher of Tipton, Clarence Ehlert of Lenawee Junction.

Mrs Bertha Smith was hostess at dinner Sunday honoring the 64th wedding anniversary of her parents Mr and Mrs L. S. Mann.

FELDKAMPS LIKE "1900" FLOUR

It's fun to see a farmer exchange wheat with us for the first time. We know he's been talking to some neighbor who has been here. But it's really more fun to see the same farmer come back himself for another trailer load of "1900" Flour.

A. A. Feldkamp of Manchester exchanged 28 bushels in 1938, and was back again last week with another 20 bushels. Last week, thru February 16th, the largest 10 exchanges were as follows:

1st — A. A. Feldkamp, Manchester.
2nd — Ben Breitenwischor, Manchester.
3rd — Leon VanValkenburg, Tecumseh.
4th—Fred Barth, Chelsea.
5th—Burt Osborn, Saline.

WE ARE NOW IN SEED BUSINESS

We are happy to announce that our company has been appointed distributor for Michigan State Seeds for southeastern Michigan. This week Roland Mohr, Bill Beardsley, Sheldon Chase and Perry Hayden were in Grand Ledge inspecting the plant of the Michigan State Seed Co. It is one of the finest plants around, and we are satisfied that Walter Abrams, the proprietor of this rapidly growing business, knows seeds, and s packing only the very best seeds with highest purity and germination under the brand of "MICHIGAN STATE."

Terribly exasperating!

GROUND BROKEN FOR GAS OFFICE

TANK AND OTHER EQUIPMENT ARRIVES; BUILDING IS NOW ENROUTE

Ground was broken yesterday for the cement footings preparatory to the construction of the new office building of the American Gas Service Company, a subsidiary of the Blaw-Knox Steel Corporation, which will be erected on South Adrian stree, immediately north of the D. T. & I. tracks. It was estimated that it would take about 45 days to complete the job, and that the company would be in operation here here by mid-April.

Announcement of the removal of the Gas Service company to Tecumseh from Sylvania, Ohio, was made here on January 25, after the company had purchased the land on which to build its office and warehouse. At that time it was believed that the company could open its new office here by April 1, but this date has been moved up to April 15.

The company, employing about 30 people, with an annual payroll near the $100,000 mark, at the present has its offices in Sylvania, out of which city it has operated for the past two years. Because of expansion, and the company's plan to service 10 lower Michigan counties and six northern Ohio counties out of this division, Tecumseh was chosen in preference to Sylvania because of its more central location, geographically.

Buildings to be built here of pre-fabricated steel include the office, warehouse and store room. The first of the building equipment arrived on Monday of this week, including a huge steel tank, chain link fence, with which the property will be enclosed. The pre-fabricated building is understood to have been shipped from Pittsburgh last week.

The company [illegible] rural and urban homes that do not have the advantages of gas for cooking or heating, a new type of fuel that is to the average person the same as that sold by public utility companies. The company also completely installs the service, including stoves, heaters, hot water heaters and refrigerators, and services such units. The gas, in liquid form, is stored in a tank outside the home, store or plant where it is used, and through carburation is broken down for use in the heating or cooling element. Several homes in this village and its vicinity already are using the company's products, it was said and there are hundreds of new prospects.

The company plans to introduce its gas and gas products to the homes in the 16 counties it will service out of Tecumseh, including Wayne county and its many suburban areas. The gas, in its liquid form, will be stored here and hauled to the users in 11 tank trucks that will be a part of the local equipment.

Dr. Preston Will Speak At Lenten Service Tonight

Tonight at 7:30 o'clock, the third in the series of mid-week Lenten Evening Prayer services will be conducted in St. Peter's church by the Rev. James Horton, rector of Christ Church, Adrian. These services last only one hour.

The speaker this Sunday evening at the regular Sunday evening Lenten lecture class, beginning at 7 o'clock, will be the Rev. J. J. Preston, D. D., formerly rector of St. Peter's church, and now chaplain at the Eloise Hospital in Wayne. It was at this time twenty years ago that Dr. Preston assumed a joint rectorship of the parishes in Tecumseh and Clinton.

His address entitled, "Twenty Years in Retrospect," will commemorate that occasion. His incumbency began in March 1920 and terminated in May 1930. Leaving this area, he took charge of St. John's church, Alma, and he remained there until almost three years ago when he went to Eloise as chaplain.

In the absence of the rector, who has a preaching engagement the same evening in Royal Oak, Junior Warden P. J. Satterthwaite will preside and introduce Dr. Preston. A short social period will follow the lecture in the parish house with the vestry wives acting as hostesses and serving light refreshments. Mrs. Karl M. Schneider is in charge.

Herricks Give $200 To First Set of Twins Born In Hospital Here

The first set of twins born in Tecumseh Hospital—John Richard and David William, sons of Mr, and Mrs. James Elliott of 208 North Oneida street, are doing nicely, thank you, and with their mother will return to their home next week with $200 in greenbacks tucked in their crib, the gift of Mr. and Mrs Ray W. Herrick.

The twins were born last Friday morning, John Richard arriving at 3:50 a. m., and David William at 4:46. John, weighing six pounds, four and a half ounces, has dark hair while David, weighing six pounds, three and a half ounces, has red hair. Otherwise, hospital nurses say, they look as much alike as "two peas in a pod." The attending physician is Dr. Ralph Helzerman.

When Tecumseh Hospital was opened in June of 1938 Mr. and Mrs. Herrick offered $200 as a gift to the first set of twins and Mr. and Mrs. B. B. TurnBull $100 to the first baby born in the hospital. The parents of the first baby were Mr. and Mrs. W. B. Weatherman, and this gift was paid a few days after the hospital opened. But it was not until last Friday that twins were born, making possible the claiming of the gift of Mr. and Mrs. Herrick.

At the hospital today it was said that the mother and her twin sons are doing "just fine," and that in all probability they would go to their home about Tuesday of next week.

The hospital, as it has been for many weeks, was crowded to capacity yesterday, with 30 patients registered. Three babies were born there on Wednesday, bringing the nursery population of the hospital to seven.

Mr. Herrick, who is president of the hospital board, said yesterday that plans for the enlargement of the hospital are progressing, and architect [illegible] with estimate costs would be submitted to the council in the near future.

ENGLAND AND RADIO ADVERTISING

Over in Great Britain, one listening in on the radio has not been compelled to hear blah about suspenders, cigarets or toothpaste in order to enjoy a musical program that would otherwise be well worth attention.

So well has this plan worked out that the British government has just announced a ruling forbidding direct advertising in British radio for at least ten years more.

This comes, the announcement says, because after an extended inquiry "the complete exclusion of advertising from British broadcasting stations is widely approved."

It was suggested that sponsored programs might be permitted as a means of carrying on experiments with television programs, But the government ruled out this suggestion also, declaring "there is no good ground for making any exception."

Over in Britain, the owner of a radio must pay a fee of 10 shillings every year. This goes to the upkeep of the broadcasting stations. In 1927, there were more than two million receiving sets licensed. By June 30 of last year, the number had increased to over seven million. Which can only indicate that the British listener does not find a fee of around $1.25 per year excesive, also that the program which comes thru without being sprinkled with uninteresting advertising pleases the public.

This wonder remedy was said to cure everything from chilblains to summer complaint. Today, thanks to the advancement of medical science, fake nostrums no longer flood the market. In Gran'pa's day, home laundering was said to be superior. Today, with the modern laundry offering the advantages of marvelous equipment, scientific testing and skilled workers, "home washing" can't even approximate it in cleanliness or care. And the modern laundry has a service and price for every need.

GOVERNORS JOB NOT CHILD PLAY

OBSERVER FINDS IT'S HARD TO MAKE GOOD SOME PRE-ELECTION PROMISES

LANSING, Feb. 29—If you were a candidate for the governorship of Michigan, what would YOU do about that annoying $30,000,000 deficit in the treasury at Lansing?

Here is a question that is easier to propound than to answer.

Many an aspirant for office has made serious campaign promises during speech - making tours, pledges which he honestly intended to carry out but which he seemingly was unable, after election, to fulfill. Somehow, realities are different when the candidate-elect arrives at Lansing. New situations develop like plagues of locusts. Pressure groups protest at economy at their expense. Other interests demand additional state aid, and so it goes!

Being governor of Michigan is no child's play. The more we view the Lansing scene the more we appreciate the difficulties which beset the state executive in his endeavor to execute his duties.

For example, if there was ever an economy-minded state legislature, it was the 1939 one. Admonished by Governor-elect Frank Fitzgerald to effect savings in the cost of government, the lawmakers wielded the axe judiciously.

When they were finished, the budget was nearly balanced on paper.

If general revenues totaled more than $82,000,000 the legislature in a compromise with the school teachers earmarked the next $2,000,000 to go to the public school fund.

In the meanwhile, the state welfare fund is beginning to run precariously low; C.I.O. labor leaders are demanding a special session to authorize another $10,000,000 for welfare needs; and the state deficit is not less than it was a year ago, but in fact it is said to be a little higher.

What to do?

The choices are few.

Politicians of both parties are in apparent agreement that a special bond issue, to retire the $30,000,000 red-ink entry, would be turned down overwhelmingly by the voters.

Another device is to increase the sales tax from 3 to 4 per cent. This is an old oratorical device. But how is this economy to be accomplished? Auditor General Vernon J. Brown has revealed that Lansing is a tax-collector for local government to the grand tune of $132,000,000 a year. The state's grants-in-aid come to this surprising total; thus actually the major part of the state's bill is not for the state government at all!

Total state revenues come to about $160,000,000 a year.

Grants to local governments aggregate $132,000,000, leaving only $32,000,000 for state needs.

Are you, the local taxpayer, going to support a state economy campaign that doesn't really economize much at Lansing at all, but which comes right back home in your own community to pinch you, here and there?

The question of state finances, we again emphasize, is not easy to answer.

This year is campaign-time. So consider another choice of solving the problem—levying a new tax or increasing a present one.

Senator Don VanderWerp, chairman of the senate finance committee, recently referred to the need for additional money and the desire to retain the state deficit. Additions to state hospitals, affording accomodations for 2,000 persons seeking admission, cannot be utilized fully because the 1939 legislature appropriated only $1,000,000,000 to equip and operate them whereas $3,500,000 a year is necessary. Furthermore, 25,000 persons are eligible to receive old age pensions but state appropriations are not sufficient to care for them. (Old age lists now total 77,000.)

"The state government can't continue to operate without additional taxation," concludes VanderWerp.

Tax possibilities: Restoration of the state property tax, such as has been done in California to meet demands of special pressure groups for more state aid; imposition of luxury taxes on tobacco, amusement admissions, etc.; a temporary increase in the state sales tax, now 3 cents on the dollar.

New taxes are not popular with the average voter.

But some answer must be found. The Michigan citizen can't have his cake and eat it, too. If more social benefits are to be granted, means should be found to finance them. Unless, of course, Michigan emulates the example of the federal government's 10-year record of annual deficits, not in millions but in the billions.

If Murray D. Van Wagoner is a candidate for governor, as some observers believe he will be, then one of the 1940 political issues will probably be highways.

That is a reasonable assumption, for Van Wagoner is the highway department commissioner and president of the American Road Builders association.

County road commissioners, for example, look longingly at the sales tax fund, now that state highway revenues have been earmarked for highway purposes. Louis Webber, their Lansing representative, believes that the 1941 legislature should tap $10,000,000 for local road needs.

School teachers will probably be back, too, in 1941 insisting on more state aid. And so it goes—hospital beds, welfare funds, pensions for widows and orphans, crippled children care, old age pensions and a long parade of genuine social needs.

And still the $30,000,000 deficit is with us. Whosoever he may be, the 1940 governor-elect will have tough decisions to make, and the financial decision is certainly one of them.

STATE'S DEFICIT IS $31,000,000

AUDITOR GENERAL BROWN EXPLAINS HOW MICHIGAN FUNCTIONS, FINANCIALLY

LANSING, Feb. 29—Just 'where' is Michigan's $31,000,000 state deficit?

"Who" holds the bills?

How long can the state government continue to meet its obligations with cash?

Auditor General Vernon J. Brown, in response to the above questions, presents to readers of The Herald a brief picture of how Michigan functions financially and how the present plight has developed.

"In the mind of the general public," states Mr. Brown, "the condition of the general fund of the state attracts most attention. However the general fund is but one of 57 accounts into which the financial transactions of the state government are divided.

"These 57 accounts are actually required for the purpose of proper accounting. The number has not been taken from the advertising of a popular brand of pickles and relishes, but the figure represents actually the number of accounts required to be maintained.

"The general fund holds popular attention because into it go the revenues from a large number of sources and out of it are paid the expenses of most of the large number of governmental agencies and functions.

"The Michigan Mirror has asked me to define for its readers just what constitutes the general fund. Briefly, the general fund carries the expenses of all the various state departments, including contributions to education, public health, welfare and social aids, public safety and defense, conservation and recreation, the department of agriculture, grants to local units of government for various purposes, as well as payments to be made to the sinking funds for the retirement of bonds and the payment of interest thereon.

"In point of total receipts to and expenditures from, the general fund of course overshadows all the special funds. Total receipts to the general fund during the last fiscal year amounted to $93,768,656.02; the total expenditures from the general fund during the same period, including those expenses actually paid and those incurred but not paid at June 30, 1939, amounted to $117,483,273.57.

"Many people ask how the State can operate on a $31,000,000 deficiency.

"That, of course, can only be accomplished because funds other than the general fund carry substantial balances offsetting the overdrawn or deficiency balance in the general fund. Obviously, when the total of the deficiencies in the general fund and other funds having deficiencies equals the total of the balances contained in the funds having balances, then the cash resources of the state become exhausted.

"This vanishing point becomes dangerously close when total deficiencies reach the $32,000,000.00 level."

Unless a combination of additional sales tax revenues and reduced liquor inventories come to the rescue, Michigan's $31,000,000 deficit is likely to grow during the next five months. (The state's fiscal year begins on July 1.)

Faced with the alternative of calling a special session of the legislature to appropriate more welfare money, Governor Dickinson has decided to risk a paper deficit during the 1939-40 fiscal year and thus to permit welfare spending in excess of 1939 appropriations.

Only $2,000,000 will remain on March 1 from the $8,750,000 welfare appropriation. This is about $2,000,000 short of estimated needs from March 1 to June 30. If that sum is offset by a million dollars from a reduced liquor inventory and another million rising from sales tax revenues, then the state's deficit will stay at the $31,000,000 mark. Otherwise, it will keep climbing.

It was Murl DeFoe, liquor commissioner, who contended recently that present inventories were higher than they should be (and that buying orders were favoring a few distillers). The governor's decision is considered to be a tacit admission that DeFoe's judgment of the situation was right. (Frank Murphy, when governor, did the same thing; liquor stocks were cut to squeeze out cash for relief.)

The decade of 1930-40 just closed was one of business hard times.

State expenditures, however, will be $46,000,000 more than they were in 1930. Of this amount $40,500,000 constitute grants of aid to local units and only $5,500,000 is for administrative and operating costs. Out of the $40,500,000 a round $37,000,000 a year goes for new benefits, not provided 10 years ago, such as old age assistance, dependent children aid, help for blind, welfare relief and so on.

To handle the combination of local and state functions, the state's payroll during 1939 was $329,719 more than it was during the previous year. Compared with 1935, the state army of employees has increased 5,100. These are cold facts.

They afford a better understanding of the financial dilemma facing state officials today.

SQUIRREL SWIPES FLAGS

PORTLAND (MPA)—For a time WPA workers here were wondering what was happening to red danger flags that disappeared from projects. They found the answer one morning when a big fox squirrel came down and ripped a flag from a stick. The animal took four flags in this manner, rolling each into a ball easy to carry in its mouth.

ROBIN PREFERS CAGE

NEW BOSTON (MPA) — Last year Mrs Jane Schilling rescued a robin and began caring for it. When the injury was healed, she put the bird in a cage in the yard and left the door of the cage open. The robin refused to leave. Every day it goes out for exercise, but always returns to the cage.

MICE ROUT FAMILY

LOWELL (MPA) — Because a couple of mice had an appetite for matches, the William Collins family was routed out of their home about 3 a. m. recently by fire originating in the kitchen. It was thought that mice gnawing matches in the cupboard caused the blaze, which did about $800 worth of damage.

"Christ Jesus" will be the subject of the Lesson-Sermon in all Christian Science Churches throughout the world on Sunday, March 3, 1940.

The Golden Text (II Corinthians 4:6) is: "God, who commanded the light to shine out of darkness, hath shined in our hearts, to give the light of the knowledge of the glory of God in the face of Jesus Christ."

Among the Bible citations is this passage (Matthew 9:35): "And Jesus went about all the cities and villages, teaching in their synagogues, and preaching the gospel of the kingdom, and healing every sickness and every disease among the people."

Correlative passages to be read from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy, include the following (p. 136): "Jesus established his church and maintained his mission on a spiritual foundation of Christ-healing. He taught his followers that his religion had a divine Principle, which would cast out error and heal both the sick and the sinning."

Girl Scouts

Our Girl Scouts meeting opened with a circle. Miss Starr appointed the color guards and color bearers, who were Dorothy Bowen, Maureen McLain, Dorothy Jean Brandt, and Geraldine Daniels. We then saluted the flag and sang "God Bless America." After that came the repeating of our promise and our laws. Just before the circle broke up, inspection was taken by the leaders of the patrols. After meeting in our corners to discuss the cookie sale, we gathered with our patrol leaders, who took the dues and attendance. Then each patrol worked on different Scout work. Today we had three new members, Ruth Schneider, Katherine Gray, and Barbara Kerby. After several minutes in our patrols, we made a circle and sang several songs. Then we said

Display Case

The show case this past week held an attractive display by the first, second, and third grades. The foreground showed interesting scenes, including the boy Lincoln reading in front of a fireplace. In the background were interesting and neat posters drawn by the pupils themselves. The whole thing made a very decorative show case well in keeping with the season.

Third Grade - East Branch
Mrs. Truesdale, Teacher

This week concludes our study of the Eskimos. The igloo that we built for our room is about five feet in diameter. It is covered with chite cloth, which we have blocked to represent cakes of ice. We have enjoyed cutting animals from large cartons. There are three dogs harnessed to a sled in front of our igloo. The leader dog was made by Kenneth Adams and named Panuck, Puzwuk and Taglac were made and named by Richard Hoag and Michael Chamberlain.

William Bickham has cut out a good polar bear, and we hope to have a seal and walrus also.

We have become acquainted with the history of our flag, what it stands for, and how we can honor it. We have learned the pledge of allegiance to our flag and discussed its meaning. Now we are proud to be able to pledge allegiance to the flag and sing the four verses of "America" each morning.

Mrs Genevieve Chamberlain was a recent visitor in our room. We were pleased to have her and urge all mothers to visit as often as possible.

Second Grade - West Branch
Miss La Pointe, Teacher

We have learned the flag salute and several patriotic poems during the month of February.

Many children have been absent recently on account of illness. The attendance has increased again during the past week.

We enjoyed a trip to the meat market last week. We learned many things about meat, also the names of various kinds of meats.

Honoring her daughter Martha's eighth birthday, Mrs Paul Seger served ice cream and cookies last Friday afternoon. Dolores Burton and Gordon Keyser also celebrated their birthdays on the 19th and 20th of February, respectively.

First and Second Grade
East Branch
Miss Borgards, Teacher

The second graders are enjoying reading in their Weekly Readers. They receive the paper thru our "East Branch Post Office." We have also received letters thru our postoffice. Different boys and girls have taken turns acting as postmaster.

All of us have made Stamp Books and we hope to make a collection of stamps.

Several different editions of the book of Pinocchio have been brought in. We enjoyed the story so much that we are planning to make a movie of it.

Along with our discussion and talks of Washington we have learned many things about our flag. Many of us can say the flag salute.

All of the first graders are reading in their Primers now. We also find our new Workbooks an added interest.

Kindergarten - West Branch
Mrs. Updyke, Teacher

The mothers of the kindergarten children met Thursday afternoon to plan the costumes for our program. The program will be held on Friday evening April 12, in the high school auditorium. Pictures of the children will be taken in costume a few days previous to the program.

We are enjoying our Pre-Primer reading very much, and we have many games we play with our beginning reading.

EASLICK SCHOOL NOTES
Lillian A. Dibble, Teacher

February is a patriotic month, so we decorated our room with red, white and blue crepe paper.

We observed Lincoln's birthday with appropriate songs, recitations and a play entitled "Abraham Lincoln Meets Johnny Apple Seed." Lucy Adams had charge of the arrangement.

We greatly enjoyed our cooperative dinner on St. Valentine's Day. In the afternoon we read valentine stories and had an exchange of valentines. Our surprise valentine was a lovely letter from Albert Ward Todd who is spending the winter in Florida. We greatly enjoyed Albert's letter and are looking forward to his return in a few weeks.

Our Mothers Club helped serve our Second Birthday Dinner. The following birthdays were observed Lucy, Donna and Helen Adams; Gene ann Geneva Kimerer, Richard Croll and Miss Dibble. With our birthday pennies we are planning on buying some useful gift for our school room.

De Witt Kimerer had the pleasure of attending John Deere Day held in Tecumseh this past month. The next day he gave an interesting report on different types of machinery ,showing pictures to illustrate his talk. We enjoyed his report very much.

Donna Adams and John Satterla have completed their large map of the United States. They colored in the states and put a silver star for each state capital.

The Eighth Grade have completed reading "Snowbound" by John Greenleaf Whittier. They memorized several noted selections.

Fourth, Fifth and Sixth Grade pupils have studied the poem "The First Snowfall," by James Russell Lowell. After memorizing it, they made illustrated booklets.

We have two fine patriotic posters in our room. Lucy Adams, Rose Marie Kirtland, Virginia Kirtland and Donna Adams made "George Washington At Valley Forge" while Arnett Satterla, John Satterla, De Witt Kimerer and Bobby Croll made "Abraham Lincoln in His Country Store."

We are enjoying new library books from the County Library. We read them week ends or when our regular school work is done.

We have ordered our Weekly Readers for the second semester. We read our Weekly Readers every Friday and by that are able to keep track of important happenings.

Arnett Satterla taught the picture "George Washington" and Lucy Adams taught "Martha Washington" for our English work on Washington's birthday. Both of these pictures were painted by Gilbert Stewart. We like to study pictures, as we are learning to appreciate good art.

Chapel leaders for the month were Donna Adams and Lucy Adams. We had a patriotic chapel on Washington's birthday with the Barrett school and their teacher Miss Mary Priest as our guests. Our special guest speaker for the day was Rev. O. E. Priest who told us many fine things about Lincoln and Washington that I'm sure we will remember. After chapel the following patriotic numbers were given by the Barrett school: a play, 6th grade; recitation, "Our Flag," 2nd and 3rd grade; song, Mount Vernon Bells, school.

The Easlick school presented three numbers by their Rhythm band; a play, "Facts About Washington," and closed with a song "Lincoln and Washington."

After light refreshments were served both schools joined in singing their County Music Songs and doing their Rhythm work.

Reporter, Arnett Satterla, Jr.

MOVIES ARE SOOTHING

WHITEHALL (MPA)—Six-year-old Virginia Snyder finds movies are soothing, but she won't be enjoying them for a while. She went to the show with her brother one night, but failed to return with him about 11 p. m. Parents, after checking places she might be, got the theatre manager to search the movie house. Sure enough, there was Virginia, curled up in a seat and sound asleep.

EMBARRASS POLICE

TRENTON (MPA)—Grosse Isle police were considerably embarrassed when the Trenton police department called them and notified the Isle officers that a radio had been stolen from their scout car. Thieves broke into a Trenton garage, where the Grosse Isle cruiser was undergoing repairs, and took the set.

A Cell In the Jail Was all He Could See

A fellow told us the other day that he worried so much about his back bills that he just couldn't pay that he felt like a jail bird. He was honest—had a good reputation but because of illness in his family he had gotten behind, financially. It took less than $100 to get this fellow "back on his feet" and he's repaying the loan in monthly payments.

HAYDEN HI-LITES

PUBLISHED BY HAYDEN FLOUR MILLS, INC., FEB. 29, 1940.

CHAS. ODELL'S HENS NOW GOING STRONG

Be sure your sins will find you out! The editor of the "Hi-Lites" certainly had faith in Hayden's Egg Mash, or we couldn't tell this story .But since it turned out so well, here's the dope.

Several months ago Charles Odell, of Ridgeway was telling us about his hens and about not getting such good results with the laying mash he was using. We apparently made the statement that if he would switch to Hayden's Egg Mash, and not get results in 10 days the feed would not cost him a cent.

Well, Charley was in the office this week, and he said he did switch to Hayden's Egg Mash, and THAT IN SEVEN DAYS HIS HENS STARTED SHELLING OUT THE EGGS. The day prior to his visit to the mill he got 22 eggs from 38 hens, which he said was nothing unusual, But the point that tickled us was that by switching to Hayden's the results were so noticeable in such a short time.

THE TECUMSEH HERALD

NINETIETH YEAR—NUMBER TWENTY-THREE. TECUMSEH, MICHIGAN, THURSDAY, MARCH 7, 1940. FIVE CENTS PER COPY.

BEER HALL DANCE SPOT IS OPPOSED

TWO PETITIONS READ AT MEETING OF COUNCIL ON MONDAY EVENING

Permission to operate a dance spot in the basement of his beer garden, the Tecumseh Tavern, presented to the council informally, 30 days ago by S. E. Good, met with vigorous opposition when the council convened in regular March session, Monday evening.

Two petitions, one of them bearing 67 signatures, the other 35, urged that the council disapprove the proposal. One of the petitions asked the council not to allow a dance hall in connection with any place where liquor or beer is sold in Tecumseh.

At the time Mr. Good made his request, he told the council that he did not care to go to the expense of remodeling his garden if the council would not grant the permit. The council, however, did not act immdelately, but rather contacted the Michigan Liquor Control Commission relative to its rights. In a letter to Mayor Karl M. Schneider, the Commission advised that such dance spots must operate with the approval of local governing bodies, including the council, chief of police, county sheriff and the fire marshal.

Because Mr. Good did not make his request to the council formally and in writing, the council did not act, and it is doubtful that the proposal will receive further official consideration until formalities are complied with. The petitions of the citizens were read and placed on file.

Except for routine affairs, little other business came before the council.

Combined Choirs Prepare For Program On Easter

The Easter chorus, composed of the combined choirs of the several churches of Tecumseh this year will present the 26th annual Easter program, and will give their first oratorio, The Messiah, making the service more pretentious than any before attempted.

When the Easter chorus was first organized in 1913, it was on a very small scale, with only 20 voices, compared with 60 voices at the present time. Simple Easter programs were given first, then cantata, gradually growing in difficulty and aside from the Hallelujah chorus, the Messiah is the most difficult and the highest form of sacred music.

In the first program in 1913, Mrs. Jennie Root Look acted as organist with Lynn Rogers, violinist. The soloists were Mr. and Mrs. Fred Dickinson, Mrs. Charles Ruthruff, Mrs. R. S. Moore, W. S. Dickinson, Ellsworth Ellis, Prof. D. MacAlpine, and Miss Ruth Kimball, now Mrs. Eugene Rosecrans. Mrs. Moore has always been active in these programs and much credit is due her for their continuance during the past 25 years.

Mrs. George Parsons is acting as director for The Messiah, with Mrs. F. C. Dickinson as organist. The orchestra from the several churches is under the direction of Carlton Gobba.

The twins were born February 23, and with their mother they left the hospital on Tuesday of this week for their home. They are alike as two peas in a pod except that John Richard has dark hair while David William's hair is red.

NOTICE TO SUBSCRIBERS IN BRITTON AND TIPTON

The Herald has received many complaints from its subscribers in Britton and Tipton during the past week relative to the failure of the postoffice department to deliver Heralds dispatched to those points last Thursday.

For the benefit of its subscribers, The Herald desires to announce that newspapers for Britton and Tipton, both village and rural, were mailed in Tecumseh about 10 o'clock Thursday morning and left the Tecumseh postoffice. The Adrian postoffice reports that they were delivered there and dispatched to both Tipton and Britton.

What became of the newspapers after they left the Adrian postoffice is still a mystery. The Herald has asked that the postoffice department investigate the failure in service and such an inquiry is now going on.

LUTHERANS BUY NEW PROPERTY

ENTERTAIN HOPES FOR CONSTRUCTION OF CHURCH; ALSO SUBDIVISION

Hopes for the construction of a new church, sometime in the future, were made known today by the Rev. R. W. Scheele, pastor of the Grace Evangelical Lutheran Church Society here, when it became known that the society had purchased the George Coscarelli property on North Maumee street, comprising a house and some 17 acres of land. The Grace Evangelical Society is now using the Braun building on East Chicago boulevard as its edifice, and the pastor resides in apartments on the second floor.

The Rev. Mr. Scheele said yesterday that it was impossible for him to say at this time when the new property might be used as a site for a church. He indicated, however, that such plans were being discussed, but said that it would be some time yet before a definite announcement could be made. He let it be known, however, that the Cascarelli property would be vacated immediately, and that it would be repaired and redecorated and that he and his family would move there probably in April.

The village council was notified of the purchase of the property by the Society and also was advised that plans are being made to subdivide the land into building lots. It is said that there is sufficient acreage to afford 14 lots, and that several persons have indicated an interest in their purchase, provided sewer, water and streets will be provided by the village. The Society asked the council to consider such an improvement, and the request was referred to the street, water and sewer committee for a report at a subsequent meeting.

Large Crowd Visits Moore Company Office

More than 700 people visited the offices of the R. S. Moore & Son Company here, Saturday, the company observing "open house" to display its remodeled and redecorated showrooms and offices. Flowers, cigars and balloons were presented to the visitors, and a corner china closet, the grand prize of the opening, went to Wesley Schaefer, of West Chicago boulevard.

The Moore company recently remodeled its offices and show rooms at a cost of several hundreds of dollars, and the rooms now present to visitors the most modern in woodwork, floor coverings and wall construction. Indirect lighting, a "kitchen corner" with built in cupboards and other special features add greatly to its attractiveness.

The company also is introducing a new stoker to its trade and has installed a completely new heating unit in the basement of the building.

CLINTON GETS ROTARY CHARTER

HON. HARRY KELLY SPEAKS AT BANQUET THERE, ON TUESDAY EVENING

The recently formed Rotary club at Clinton was presented with its charter in Rotary International at a banquet-meeting held Tuesday evening in the gymnasium of the high school in that village. Some 300 Rotarians, representing 25 clubs in the United States and Canada, attended the meeting.

The Hon. Harry F. Kelly, secretary of state and a past district governor of Rotary in Illinois, was the principal speaker. Using as his subject, "Citizenship," Mr. Kelly pleaded for a better understanding between men and for the abolishment of hate in America. It is with this in mind, the speaker said, that Rotary should carry its principles to the world, in Michigan and in Lenawee county. He urged that each community practice this spirit of love and friendliness, setting an example to the warring nations of Europe.

"We have men here tonight from Canada," Mr. Kelly said. "They are from across that imaginary boundary that thank God has not been fortified for more than 120 years. There are no guns, no forts on this boundry, but it is well guarded by a spirit of friendship and goodwill."

The charter was presented to the Clinton club by Ernest Chapelle, district governor, of Ypsilanti, it was accepted by W. F. Van Tyle, president of the Clinton organization. Dr. J. R. Foreman, vice president of the club and mayor of Clinton, welcomed the guests, expressing especially a spirit of friendliness for the Canadian visitors. Many gifts, presented by visiting clubs, were accepted by A. D. Woodward, secretary.

HAYDEN HI-LITES

PUBLISHED BY HAYDEN FLOUR MILLS, INC., FEB. 29, 1940.

CHAS. ODELL'S HENS NOW GOING STRONG

Be sure your sins will find you out! The editor of the "Hi-Lites" certainly had faith in Hayden's Egg Mash, or we couldn't tell this story .But since it turned out so well, here's the dope.

Several months ago Charles Odell, of Ridgeway was telling us about his hens and about not getting such good results with the laying mash he was using. We apparently made the statement that if he would switch to Hayden's Egg Mash, and not get results in 10 days the feed would not cost him a cent.

Well, Charley was in the office this week, and he said he did switch to Hayden's Egg Mash, and THAT IN SEVEN DAYS HIS HENS STARTED SHELLING OUT THE EGGS. The day prior to his visit to the mill he got 22 eggs from 38 hens, which he said was nothing unusual. But the point that tickled us was that by switching to Hayden's the results were so noticeable in such a short time.

STEVEN & DRYER HEAD FLOUR LIST

Eight different post office addresses were given by the 11 largest flour exhange customers this past week. The largest was Steven & Dryer of Hanover. The list this past week is typical of most every week. Some were new customers, and others were back for the 12th time in 2 1-2 years:

THE TECUMSEH HERALD

NINETIETH YEAR—NUMBER TWENTY-THREE. TECUMSEH, MICHIGAN, THURSDAY, MARCH 7, 1940. FIVE CENTS PER COPY.

BEER HALL DANCE SPOT IS OPPOSED

TWO PETITIONS READ AT MEETING OF COUNCIL ON MONDAY EVENING

Permission to operate a dance spot in the basement of his beer garden, the Tecumseh Tavern, presented to the council informally, 30 days ago by S. E. Good, met with vigorous opposition when the council convened in regular March session, Monday evening.

Two petitions, one of them bearing 67 signatures, the other 35, urged that the council disapprove the proposal. One of the petitions asked the council not to allow a dance hall in connection with any place where liquor or beer is sold in Tecumseh.

At the time Mr. Good made his request, he told the council that he did not care to go to the expense of remodeling his garden if the council would not grant the permit. The council, however, did not act immdelately, but rather contacted the Michigan Liquor Control Commission relative to its rights. In a letter to Mayor Karl M. Schneider, the Commission advised that such dance spots must operate with the approval of local governing bodies, including the council, chief of police, county sheriff and the fire marshal.

Because Mr. Good did not make his request to the council formally and in writing, the council did not act, and it is doubtful that the proposal will receive further official consideration until formalities are complied with. The petitions of the citizens were read and placed on file.

Except for routine affairs, little other business came before the council.

Combined Choirs Prepare For Program On Easter

The Easter chorus, composed of the combined choirs of the several churches of Tecumseh this year will present the 28th ~~Easter~~ program, and will give their first oratorio, The Messiah, making the service more pretentious than any attempted.

When the Easter chorus was first organized in 1913, it was on a very small scale, with only 20 voices, compared with 60 voices at the present time. Simple Easter programs were given first, then cantata, gradually growing in difficulty and aside from the Hallelujah chorus, the Messiah is the most difficult and the highest form of sacred music.

In the first program in 1913, Mrs. Jennie Root Look acted as organist with Lynn Rogers, violinist. The soloists were Mr. and Mrs. Fred Dickinson, Mrs. Charles Ruthruff, Mrs. R. S. Moore, W. S. Dickinson, Ellsworth Ellis, Prof. D. MacAlpine, and Miss Ruth Kimball, now Mrs. Eugene Rosacrans. Mrs. Moore has always been active in those programs and much credit is due her for their continuance during the past 25 years.

Mrs. George Parsons is acting as director for The Messiah, with Mrs. F. C. Dickinson as organist. The orchestra from the several churches is under the direction of Carlton Gobba.

Lutherans Will Hold Lenten Service March 13

The regular meeting of the Men's club will be held Friday evening March 15.

CHILD STUDY CLUB

The Child Study Club will meet Monday evening at the home of Mrs. Walter Pfaus on South Wyandotte street, with Mrs. Vincent Haight and Mrs. Herbert Dillon as co-hostesses. Mrs. Sam Seison is leader of the discussion on "When Boy Meets Girl" and roll call will be answered with "My First Date."

Members are to bring sewing equipment.

REHEARSAL TONIGHT

Rehearsal for the Easter vesper will be held tonight at 7:30 in the Baptist church, with the orchestra accompanying. Another rehearsal will be held Sunday afternoon at 3 o'clock with the organ at the Methodist church.

FIRST TWINS BORN IN TECUMSEH HOSPITAL AND RAY W. HERRICK WHO GAVE THEM $200

Photo shows Ray W. Herrick, president of the board of directors of Tecumseh Hospital, holding the twin sons of Mr. and Mrs. James Elliott, 208 N. Oneida street, and to whom he and Mrs. Herrick gave $200, the twins being the first to be born in the hospital since it was opened in June of 1938.

The twins were born February 23, and with their mother they left the hospital on Tuesday of this week for their home. They are two lovely bouncing babies, and according to nurses at the hospital they are "doing just fine." They are alike as two peas in a pod except that John Richard has dark hair while David William's hair is red.

ELECTORS GO TO POLLS MAR. 11

QUIET ELECTION ANTICIPATED FOR VILLAGE OFFICES; ONLY ONE TICKET

With only one ticket in the field, and as the result only casual interest on the part of electors, a light vote was forecast today as preparations were completed for the annual village election, to be held here next Monday. As has been the custom in the past, voting will take place in the council building, and polls will be open from seven o'clock in the morning until six o'clock at night.

The Peoples Ticket is the only one to appear on the ballot and this is headed by Karl M. Schneider, for president. Mr. Schneider is now rounding out his second term in that office. Other on the ticket are Wade L. Jones, clerk, J. Fred Rector, assessor, Le Roy Pixley, treasurer, and B. B. Turnbull, S. Henry Smith and Oscar J. Winters, trustees. Mr. Tilley and Mr. Winter are the only newcomers into local politics, all of the other officers seeking reelection.

Tecumseh Airport Gets State Aeronautics License

Tecumseh Airport has just been recognized as an official airport by the Michigan Board of Aeronautics, the license being received this week, according to an announcement today.

The airport has also been recognized by the Civil Aeronautics Authority in Washington, D. C., and has been listed all over the United States in the federal weekly air notices.

Although privately owned, the Tecumseh Airport Association is a non-profit organization for the purpose of providing a field for local flyers, and the flying public in general. When at all possible to fly, from three to a dozen ships have landed here daily, since the port was opened early last fall.

NOTICE TO SUBSCRIBERS IN BRITTON AND TIPTON

The Herald has received many complaints from its subscribers in Britton and Tipton during the past week relative to the failure of the postoffice department to deliver Heralds dispatched to those points last Thursday.

For the benefit of its subscribers, The Herald desires to announce that newspapers for Britton and Tipton, both village and rural, were mailed in Tecumseh about 10 o'clock Thursday morning and left the Tecumseh postoffice. The Adrian postoffice reports that they were delivered there and dispatched to both Tipton and Britton.

What became of the newspapers after they left the Adrian postoffice is still a mystery. The Herald has asked that the postoffice department investigate the failure in service and such an inquiry is now going on.

Large Crowd Visits Moore Company Office

More than 700 people visited the offices of the R. S. Moore & Son Company here, Saturday, the company observing "open house" to display its remodeled and redecorated showrooms and offices. Flowers, cigars and balloons were presented to the visitors, and a corner china closet, the grand prize of the opening, went to Wesley Schaefer, of West Chicago boulevard.

The Moore company recently remodeled its offices and show rooms at a cost of several hundreds of dollars, and the rooms now present to visitors the most modern in woodwork, floor coverings and wall construction. Indirect lighting, a "kitchen corner" with built in cupboards and other special features add greatly to its attractiveness.

The company also is introducing a new stoker to its trade and has installed a completely new heating unit in the basement of the building.

WED 45 YEARS

Mr. and Mrs. Delbert Beevers were surprised by their children and grand children last Wednesday evening, honoring their 45th wedding anniversary. A potluck supper was served and featured two wedding cakes for the honored guests, also a birthday cake for George Holmes who was celebrating his 12th birthday. The evening was spent playing cards.

QUILTING PARTY

Mrs. E. J. Asbersold entertained a group of 14 ladies at an old fashioned quilting party and tea Tuesday afternoon at her home northeast of town. Four quilts were tied.

PASTOR AND FORMER EDITOR TO SPEAK TO MEN OF ST. PETER'S AT FISH-FRY

A Lenten "fish-fry" dinner for all the men of St. Peter's Episcopal church will be served in the parish house next Wednesday evening at 6:45 o'clock. Following the dinner there will be an address by the Rev. Irwin C. Johnson, rector of St. John's Church, Detroit. Mr. Johnson will speak on the subject "Christianity in a Day of Conflict."

Mr. Johnson is well known here as an able speaker. Prior to becoming a clergyman, he was editor of the diocesan magazine "The Michigan Churchman." Later he became director of the department of boy's work in the diocese, a position which earned for him a national reputation. Along with this work, he began preparing for the priesthood, and was ordained. He became rector of St. Thomas' church, Detroit, and in 1934 was called to take charge of historic St. John's church, one of the largest parishes in Detroit.

Rev. Irwin C. Johnson

Mr. Johnson has travelled widely, both in Europe and in the Orient, just a year ago he spent a summer in England.

LUTHERANS BUY NEW PROPERTY

ENTERTAIN HOPES FOR CONSTRUCTION OF CHURCH; ALSO SUBDIVISION

Hopes for the construction of a new church, sometime in the future, were made known today by the Rev. R. W. Scheele, pastor of the Grace Evangelical Lutheran Church Society here, when it became known that the society had purchased the George Coscarelli property on North Maumee street, comprising a house and some 17 acres of land. The Grace Evangelical Society is now using the Braun building on East Chicago boulevard as its edifice, and the pastor resides in apartments on the second floor.

The Rev. Mr. Scheele said yesterday that it was impossible for him to say at this time when the new property might be used as a site for a church. He indicated, however, that such plans were being discussed, but said that it would be some time yet before a definite announcement could be made. He let it be known, however, that the Cascarelli property would be vacated immediately, and that it would be repaired and redecorated and that he and his family would move there probably in April.

The village council was notified of the purchase of the property by the Society and also was advised that plans are being made to subdivide the land into building lots. It is said that there is sufficient acreage to afford 14 lots, and that several persons have indicated an interest in their purchase, provided sewer, water and streets will be provided by the village. The Society asked the council to consider such an improvement, and the request was referred to the street, water and sewer committee for a report at a subsequent meeting.

CLINTON GETS ROTARY CHARTER

The recently formed Rotary club at Clinton was presented with its charter in Rotary International at a banquet-meeting held Tuesday evening in the gymnasium of the high school in that village. Some 300 Rotarians, representing 25 clubs in the United States and Canada, attended the meeting.

The Hon. Harry F. Kelly, secretary of state and a past district governor of Rotary in Illinois, was the principal speaker. Using as his subject, "Citizenship," Mr. Kelly pleaded for a better understanding between men and for the abolishment of hate in America. It is with this in mind, the speaker said, that Rotary should carry its principles to the world, in Michigan and Lenawee county. He urged that each community practice this spirit of love and friendliness, setting an example to the warring nations of Europe.

"We have men here tonight from Canada," Mr. Kelly said, "They are from across that imaginary boundry, that thank God has not been fortified for more than 120 years. There are no guns, no forts on this boundry, but it is well guarded by a spirit of friendship and goodwill."

The charter was presented to the Clinton club by Ernest Chapelle, district governor, of Ypsilanti. It was accepted by W. P. Van Tuyle, president of the Clinton organization. Dr. J. R. Foreman, vice president of the club and mayor of Clinton, welcomed the guests, expressing especially a spirit of friendliness for the Canadian visitors. Many gifts, presented by visiting clubs, were accepted by A. D. Woodward, secretary.

The club was sponsored by Tecumseh Rotary and the Rev. Edward Green acted as a special representative of Governor Chapelle and Karl M. Schneider, local president. Mr. Green acted as toastmaster at the meeting, over which Mr. Schneider presided. The Rev. R. E. Simons of Clinton asked the invocation and past District Governor R. O. Plumb conducted roll call. Group singing was led by Charles O. Butler and special instrumental numbers were furnished by the Davis Sisters of Detroit.

A three-course turkey dinner was served preceding the meeting.

DESTINY

A course of reckless living brings on such restraining or punitive consequences that we marvel at the exacting rule of cause and effect. We allowed ourselves to be drawn into a cruel and useless war, and we have been paying for it ever since. Sacrifices in the conflict were followed by an aftermath of high living and wild spending. Society was riding for a fall. Values skyrocketed until everybody thought he had the world by the tail with a down grade. People couldn't stand altitudinal living and a ruinous pace forever. They had to slow down, and economic [illegible] them.

The slogan that "kept us out of war," but didn't, brought a wave of sharp resentment. Then consequently came a new party control. The ascending privilege was abused. Cocksureness in public life proved as disastrous as that in private life. Coolidge wiped out a lot of debts, and Hoover did his best against an obstructive congress and an onrushing depression.

In this downward course, people grabbed for new leadership, and they happened to grab Roosevelt who, however, has proved a disappointment in violating pledges, surrounding himself with theorists instead of statesmen and engaging in the greatest spending spree in the history of the world. We have moved so fast in the wrong direction that popular disapproval is bound to call a halt. The depression brought people to their senses, and now the people will have to bring the government to its senses. No other course will insure sound progress.

Strand Theater

"BROTHER RAT AND A BABY"

"Brother Rat and a Baby," the comedy successor to last year's comedy success, "Brother Rat," will be the attraction at the Strand Theatre Sunday, Monday and Tuesday, March 10, 11 and 12.

"Brother Rat" was filmed just a year ago. In the follow-up production, the same players are picking up the lives of the same movie characters after a lapse of just one year.

The first production, it will be recalled, saw Wayne Morris, Eddie Albert and Ronald Reagan safely graduated from military college. It also saw Albert and Miss Bryan the proud parents of a newly born baby boy. Morris and Reagan got no further than engagements to Priscilla Lane and Jane Wyman.

When "Brother Rat and a Baby" picks them up once more, Morris and Reagan are working in New York. Miss Lane and Miss Wyman are still in college, Albert and Miss Bryan are living in a small southern town, where he is the high school athletic coach. And their baby, payed by Peter B. Good, is a bouncing, mischief-making youngster just past his first birthday.

The characters are all brought together, and the new story starts on its way when Albert, Miss Bryan and the baby are brought to New York to see about a better job for the head of the family as varsity coach.

Complications immediately ensue. But Baby squares matters for everybody in the surprise finish.

Head of the *Class*— and *fit* to be Tried!

Above is the BUICK SPECIAL *4-door touring sedan* **$996***

THERE are a lot of things about this stunning 1940 Buick to claim your attention, if you want to know what's what in motorcars.

For instance, you've got to admit that it has done a lot to beautify the boulevards.

And, from the way folks are swinging over to Buick, it must have something *value*-wise that's pretty important.

What you hear about its quick-off-the-mark engine and the silkiness it gets from balancing *after* assembly certainly calls for inquiry.

So do the rave notices BuiCoil Springing gets and the talk you hear about five-foot front seat room in the SUPER and its Foamtex cushions soft as a down puff.

But skipping this, even skipping the fact that Buick's prices are lower than some sixes, one thing alone is enough to send you hot-footing to your Buick dealer.

That's the obvious fact that as Buick goes these days so goes the industry.

So do the obvious thing. Go try out this superb traveler. We think you'll decide you'll never be really happy till you have one.

Prices Begin at **$895** for Business Coupe —Sedan prices start at $955—

*delivered at Flint, Mich. Transportation based on rail rates, state and local taxes (if any), optional equipment and accessories—extra. Prices subject to change without notice.

REGISTRATION NOTICE

for Annual Township Election

Monday, April 1, 1940

To the Qualified Electors of the Township of Tecumseh, County of Lenawee, State of Michigan.

Notice is hereby given that in conformity with the "Michigan Election Law," I, the undersigned Township Clerk, will upon any day, except Sunday and a legal holiday, the day of any regular or special election or primary election, receive for registration the name of any legal voter in said Township not already registered who may Apply To Me Personally for registration. Provided, however, that I can receive no names for registration during the time intervening between the Second Saturday before any regular, special election or primary election and the day of such election.

Notice is hereby given that I will be at my office in the Bidwell Block

on

Tuesday, March 12, 1940

the twentieth day preceding said election as provided by Sec. 2767, Michigan Election Laws, Revision of 1929 From 8 o'clock a. m. until 8 o'clock p. m. on such said day for the purpose of Reviewing the Registration and Registering such of the qualified electors in said Township as Shall Properly apply therefor.

In any Township in which the clerk does not maintain regular daily office hours, the township board of such township may require that the clerk of each township shall be at his office or other designated place for the purpose of receiving applications for registration on such other days as it shall designate prior to the last day for registration, not exceeding five days in all.

Saturday, Mar. 23rd-Last Day For General Registration by Personal Application for Said Election.

The name of no person but an Actual Resident of the Precinct at the time of said registration, and entitled under the Constitution, if remaining such resident, to vote at the next election, shall be entered in the registration list.

Notice—Absent Voter Must Be Registered

Although 2774, Laws Relating to Elections, Revision of 1939, still provides that an absent voter may apply for registration at time of applying for ballot, and gives form of Affidavit he should make, Act 63 of P. A. 1939 stipulates that in absent voter's application for ballots he must state that he is a "duly qualified AND REGISTERED elector."

Opinion of the Attorney General is that Act 63 of 1939 is "must be construed to repeal the inconsistent provision of Sec. 2774 permitting absentee registration AT THE TIME of making application for an absent voter's ballot."

Thus the Absent Voter's application and affidavit for registration are useful only in cases where voter may mail these in, then make application for ballots later after registry has been completed.

The portion of application enclosed in brackets should be crossed out when applying for registration.

Form of Application

State of Michigan, County of....ss. I...being duly sworn, depose and say that I am a citizen and duly qualified elector of the...precinct of the township of...in the county of ...and State of Michigan; that my postoffice address is No....street or R. Taken, subscribed and sworn to before me this...day of...19.... Notary Public in and for said County, State of Michigan. My Commission expires...19....

Upon receipt of such affidavit in the time specified herein, the clerk shall write in the registration book the name of the applicant together with the other information required by this chapter and such applicant shall thereupon be deemed to be duly and properly registered.

Note—If this acknowledgement is taken outside of the State, the Certificate of the Court that the person taking the acknowledgment is a notary must be attached.

If such applicant shall in said matter wilfully make any false statement, he shall be deemed guilty of perjury.

OHIO CHINA CO. UNLOADS AGAIN

Last Friday afternoon the ibig truck from the Ohio China Co. at Monroe again unloaded more dishes. We are adding a beautifully decorated colored tumbler, the first glass ware to be seen out. It's so attractive it's bound to make a hit. And in addition to the standard dishes in the beautiful Gaylea pattern that we have given out since last July we are adding cereal dishes, soups, picdle dishes, large platters, salt and peppers, syrup jugs, gravy boats, tea pots and butter dishes. We give dishes to our customers in appreciation of their patronage.

REMEMBER US ON QUALITY SEEDS

For years Tecumseh has needed a dealer who would really carry a big enough stock of quality seeds to really merit the name of "Seed Headquarters." Well, that's us and company from now on out. Any day now we'll be receiving in a shipment of thousands of dollars worth of the best seeds we can buy. If it's only three square feet of lawn, or 1900 acres of clover, see us for seed that will grow!

DOG QUARANTINE IS LIKELY HERE

FEAR ANIMAL WITH RABIES HAS BITTEN TWO OR THREE LOCAL FOLK

An absolute quarantine on all dogs in Tecumseh township was being considered today by Lloyd Van Etten, county dog warden, after it became known that three or four persons had been bitten by an animal that was killed on Tuesday, and which perhaps was suffering from rabies.

"I don't know what is the matter with dog owners," Deputy Van Etten said, "but they seem to think that all that is necessary for them to do under the law is to buy a dog a license and then let him run wild. That's not the law.

"The statute provides that dogs should be off the street or highway between sundown and sunup, and that any animal on the street during the daytime should be accompanied by a master. That goes for all dogs, whether they are licensed or not. Dogs running at large may be killed on sight.

"We have had no end of trouble with dogs in Tecumseh this year, and in other parts of the county as well. Unless some steps are taken by dog owners to control the animals as the law provides, then the law must step in and act accordingly," he declared.

Deputy Van Etten was in Tecumseh on Tuesday and killed three or four animals found running at large. One of the dogs was an airdale, feared to be suffering from rabies and the head has been sent to the University of Michigan for an analysis. George Isaacson, deputy sheriff, said today that any person who has been attacked recently by an airdale dog should consult with him at once to determine whether or not anti-rabies shots should be taken.

Officers said that it was known [illegible] been attacked during the past few days by dogs, one of them being Bertram Updyke. He was attacked while at work at his filling station on East Chicago boulevard, Sunday. The dog bit Mr. Updyke in the right leg, and as the result he is now taking anti-rabies shots.

— Rotary Speaker —

Dr. Mark Hillary

Dr. Hillary, public relations counselor of Detroit, addressed Rotarians and a general high school assembly here, Tuesday afternoon. For 12 years, Dr. Hillary was an instructor in the University of Vienna, where he received his Ph. D. He was assistant director of the commission which designed the Krupp personnel plan, headed by Dr. Henry Steinach.

CHILD GUIDANCE OFT ERRONEOUS

SOCIAL ECOLOGIST LECTURES TO ROTARY AND HIGH SCHOOL ASSEMBLY

Dr. Mark Hillary of Detroit, public relations counselor and social ecologist, was the guest speaker at the regular noon-day luncheon meeting of the Tecumseh Rotary club, Tuesday at the high school. The luncheon was served by the home economics classes, under the direction of [illegible] Rotarians then joined a general high school assembly for the lecture.

Dr. Hillary advised adults "not to worry about the youngster finding his niche in the economic world, but, rather, to worry about the amount of external force being applied which might put the child into the wrong niche."

Dr. Hillary has made a study of child guidance and the most effective methods of vocational guidance in this and other countries. He declared that one of the major problems of youth today was the direction of their efforts by their elders into the wrong fields of endeavor. You can not judge a child's tendencies by his first impressions of any subject, he said.

The key to child guidance, according to the speaker, is to place upon the child when he becomes 12 or 13 years of age, a certain amount of responsibility. Make the child form his own decisions and let adults act only as auxiliary agents.

Six high school students, at Dr. Hillary's request, were given brief examinations and then were advised by the ecologists as to what courses to pursue in life.

W. L. Berkhof, superintendent of the school and a member of Rotary, presided at the meeting. E. E. Berry, a new member of the Rotary, was introduced to the club.

Spring Vacation Will Begin Here On March 22

Yes, spring is here, and if you doubt it, ask any of the pupils of the Tecumseh public schools and you'll find that the board of education has officially declared the Spring vacation date to be from March 22 to April 1.

The board of education met in regular session on Tuesday evening and approved a plan to enlarge the room space of the manual training department, because of increased interest in the subject. The enlargement includes the addition of a planning room to the regular space now occupied.

The board was advised by W. L. Berkhof, superintendent, that handicraft activities have been resumed at the East Branch School, under the direction of the WPA. Instructors come here from Blissfield and the expense of the course is being defrayed by the Tecumseh Youth Council.

The closing of the schools on Good Friday afternoon was approved by the board, and Mr. Berkhof announced that Dr. O. J. Cleary of Ypsilanti, would be the commencement speaker.

A report of the treasurer showed the receipt of $2,920.57 in state aid, $1,232.49 delinquent taxes and $1,277.06 tuition money. District taxes in the amount of $5,000 also have been received.

ARRESTED BY SHERIFF

Virgil B. Redlin, 21, of Adrian R. F. D., was arrested about 1:30 Wednesday morning by Deputy Sheriff George Isaacson, charged with operating a motor car while under the influence of intoxicating liquors. He was taken to the county jail to await arraignment.

The Band Mothers Club is elated over the fact that the final payment has been made on the high school band uniforms.

Three new members have been added to the band and uniforms for them are to be ordered in the future, completing the equipment of the band as it is today.

Mrs. John Wilson, president; Mrs. Pearl Elliott, vice president; Mrs. John Larsen, secretary; and Mrs. L. A. DesErmia, treasurer, are present officers of the club, and have worked untiringly in their efforts to make it a success.

ICY PAVEMENT DELAYS TRAFFIC

MOTORISTS DRIVE AT SNAIL'S PACE AS RESULT OF WEDNESDAY STORM

Motor traffic moved at a snail's pace throughout Wednesday and last night as the result of the worst sleet storm of the season in Lenawee county. County highway officials declared the roads to be in the worst condition of the winter, yesterday afternoon, and warned all motorists to "stay at home" unless driving was urgent.

The sleet storm started about 1:30 Wednesday morning when rain began to fall and freeze in a 22 degree temperature. The storm continued throughout the day, but the temperature rose to 28 degrees at 5 p. m., four degrees below the freezing mark. County and village trucks were busy sanding streets and roads, and car operators were exercising extreme caution.

From the offices of the Consumers Power Company and the Michigan Associated Telephone Company reports were to the effect that no difficulty in service had been experienced in spite of the storm. Officials of both companies, however, were hoping for a continued temperature rise.

Many local folk recalled yesterday that it was just a year ago, March 12, 1939, that Tecumseh and Lenawee county experienced the worst sleet storm in more than 50 years. In the storm of a year ago, telephone and power lines were snapped and damage resulted in thousands of dollars.

The only accident as the result of the storm here was reported Tuesday by Charles I. Weirich of Butler, Ind., who had parked his car on W. Chicago boulevard, in front of the Dr. P. B. Hardy home. A truck owned by the Ervin Foundry of Adrian skidded and hit the Weirich car, damaging it considerably. No one was injured.

Miss Edith Ingersoll was leader of the program and introduced Jon Young of the high school faculty, who gave a most interesting talk on his last summer's visit to Mexico. Miss Ingersoll also read a letter from an absent member, Mrs. Eugene Rosacrans, now in Albuquerque, New Mexico, and a poem "Husbands," which was included in the letter. Other numbers on the program were vocal solos "An Old Love," "In Old Mexico," and "South of the Border," sung by Fred C. Dickinson, accompanied by Mrs. Dickinson.

Mrs. Cleveland L. Dustin presided at a brief business meeting, preceding the program when the chapter voted to change the date of the April meeting from the 12th to the 2nd of April for the convenience for the speaker at that meeting, Mrs. T. J. Foley of Akron, N. Y., editor of The Early Settler, a D. A. R. publication.

The blaze started in the basement, and was discovered about 9:30 by the family when smoke was seen coming from a hot air register. Mr. Brainard attempted to use a hand extinguisher but intense smoke kept him from the basement.

Tecumseh and Onsted fire departments were called and both water and chemicals were used. It was impossible to save the house and furnishings but the departments, after three hours work, prevented the blaze from spreading to the barn and other buildings.

The cause of the fire is unknown and the loss is not yet estimated.

PEACE YEARS FEW

Unless human nature has changed more than is generally believed, the future holds little chance for protracted peace, in the opinion of one student of military history.

Only eight per cent of the time since history was first recorded, it develops, has there been absolute peace. Data was compiled for 3,521 years back and in that time there were only 268 years without hostilities.

Furthermore, 8,000 treaties were made, but were observed only on an average of two years apiece.

Accuracy of these statistics is not guaranteed, since there must have been many little wars which didn't get in the books. But the fair conclusion is that man will fight and that peace, as yet, cannot be counted on to last very long.

"Darling! How thrifty!
You pressed it yourself!"

Just because Alice is no expert at pressing garments is no reason why Kitty should make fun of her. It's smart to be thrifty.

However, pressing your own clothes is definitely NOT thrifty. Unless you have the proper equipment and an expert knowledge of the clothes pressing art, it's possible to press the style right out of garments. Tomorrow, get thrifty by sending your clothes to us and letting us press new smartness into them.

Chapel Program

Because our piano was on the stage for the Junior play, we omitted our song at chapel last week.

Rae Nita introduced to us the Rev. Mr. McGehee. He spoke on how certain persons, for example farmers, are particular about the feed they give their cattle. If they want their cattle to give rich milk, they give them a certain kind of feed. But humans sometimes misuse their bodies by overeating or by not eating the proper food.

After his little talk, we bowed our heads and said, "The Lord's Prayer."

We began our Chapel program last Monday morning with a salute to the flag.

Our speaker was Reverend Robinson. He read us some verses from a chapter of John and discussed the topic, "Who is Our God?" He raised the question, "Is He a glorified policeman or a kind father, or just what is our conception of Him?"

Chapel services were closed with a prayer by Mr. Robinson.

Junior Play

On Wednesday evening, Feb. 28, the Juniors gave the final presentation of "Headed For Eden." The play proved a good choice both from the standpoint of plot interest and opportunity for student participation. Despite last moment reverses caused by mumps and flu, the cast may credit itself with two good performances played before large audiences.

General opinion seems to give first honors to Ernest Van Valkenburg for his excellent portrayal of Benny, a gangster stooge. Seldom has a high school student been able to hold an audience so completely. For comedy relief Bill Leonardson and Frances Glen certainly captured their share of laughs. Bill in true Barrymore fashion kept his audience and director guessing as to his next speech and move. He varied each performance Bertha Mae Kring and Ernest Oliver in the two leads kept everyone on his toes. Their final reconciliation after such displays of temper during the first part of the play was indeed a welcome. The singing of "Onward Christian Soldiers" at the end of Act III scene one was a splendid climax. Everyone in this large cast aided in making the play a success. Ida Woodcox gave a very admirable performance without rehearsals.

At the conclusion of the play the cast felt more united as a class, and knew that the effort had been worthwhile. Much credit for an excellent performance goes to Mr Jon Young, the director.

Spot Light

What brown and white dog who answers to the name of Confucius is a most regular member of T. H. S.? He has a place in the assembly now and occasionally attends a class or two.

Who goes there, girl or hair ribbon? That seems to be the question now, since the newest fad is the biggest hair bow you can find.

Who owns that classy car? Oh, that's Mr Young's car in its new Easter outfit presented by the Junior class. And why not? Did you see the Junior Play? Orchids to you, Mr Young!

Why were three certain freshmen disappointed? Upon Mr Mead's return after a short ill. ness, they found out that he did not have the mumps, after all. You see, it seems to be the style these days to have the mumps.

Display Case

The seventh and eighth graders are the proud displayers of their projects this week. The arithmetic and English and seventh grade health and eighth grade American history projects are all featured. The health class has food charts and vitamin charts. The 8a arithmetic projects are about automobiles and life insurance, which they studied. The English classes made posters showing how a book should be treated and drew some fine pictures illustrating "The Pied Piper of Hamlin." The American history class made projects during the time they were studying the development of the U. S. from 1800 to 1850. Illustrations of water travel, cartoons, and the Presidents were among these projects.

It must have taken plenty of time and hard work to produce such good results.

Commercial Department

The Bookkeeping students have completed Exercise 44 in their workbooks and audited them in class. This lesson gave practice in working with the Cash Journal, Purchases Journal and posting in the Ledger. This week they have begun a new chapter in their textbooks which deals with the General Journal, and they will be doing exercises coincident with this material in their workbooks.

The Shorthand class has been taking practice dictation at the rate of 75 words a minute. Each day the pupils read their lessons aloud in class from their own shorthand. They have also been transcribing their shorthand.

The Typing classes are striving for perfect speed test records. The students have been working for awards which are given at the end of each year. A gold pin is received for 60 words per minute, a silver pin for 50 words, and a bronze pin for 40 words per minute. There have been some very good scores, and by taking a timed-writing test every day, many errors have been eliminated.

Girl Scouts

Our last Girl Scout meeting started with a circle in which the color bearer and guards were chosen. They were Joyce Service, Maureen McLain, Lillie Jean Dewey and Louise Bowen. Next we saluted the flag and sang "America." Then inspection was taken by the patrol leaders, who are Marda Jean Duncan, Martha Jane Kempf, Lenore Mohr, Dorothy Bowen, and Joyce Sallows. After our inspection we gathered into troops with our captains to learn how many cookie orders each had taken. We found that we were getting along marvelously with the sales.

We then played two games called "My Lady went to Paris" and "Bumps." They were both exciting. Before saying goodnight we sang some of our favorite songs, and then had our goodnight circle and our "squeeze," which is started by one of the leaders and is passed on by each girl until it comes back to the person who started it.

Kindergarten - West Branch
Mrs. Upcyke, Teacher

Several of our mothers have met together and cut out capes and hats which we will wear at our program on April 12. A sample is in the kindergarten if any mother wishes to see it.

We are busy these days with our Pre-primer reading and with practicing for our program. Our wooden toys are finished, with the exception of one or two.

First and Second Grade
East Branch
Miss Borgards, Teacher

The following children have not been absent or tardy the first six weeks of this semester.

Jennie May Bird, Jerry Eggleston, Jo Ann Johnston, Marvin Higgins, Joan Lewis, Billy Baker, Marietta Service, Mray Ellen Glancy, Keith Lewis.

The second graders have been working very hard on their number combinations. They have made individual flash cards which have been a great help in mastering these. In a recent test Jennie May Bird and Marvin Higgins had 'A' papers and Jo Ann Johnston, Mary Glancy, and James Stuart had very good papers.

We have a pretty pink hyacinth in our room and also a bunch of lame pussy willows. Some of our children have drawn very nice pussies. We have also learned a poem about them.

Second Grade - West Branch
Miss La Pointe, Teacher

In our time-taelling contest 18 girls and 18 boys have learned how to tell time accurately.

At the close of our day's work on Wednesday, February 28th, Mrs Martha Adams served ice cream and cake in honor of her son Howard's seventh birthday. Mrs Shoch and Sylvia Helezrman were guests at the party.

Norman Felger celebrated his ninth birthday March 3. On Saturday his grandmother, Mrs. Spencer, entertained a few of Norman's friends.

Third Grade - East Branch
Mrs. Truesdale, Teacher

In a recent test sent by "My Weekly Reader" twenty-nine children in our room tested averag or above in reading. The following received very high scores: William Bickham, Irene Wilson, Patty Hammack, Wilbur Kimball, Michael Chamberlain, Gerald Tomezak, and Norma Potts.

We are reading a children's edition of "Gulliver's Travels." Many of us saw the movie, so the story is proving very enjoyable. Miss Humphrey taught us the song "It's a Hap-Hap-Happy Day" from this movie.

Group one in arithmetic has started multiplication. Many think that it is much easier than either addition or subtraction. We have completed five Number Drills also.

Mary Brown brought some pussywillows last week. We are very glad to have a suggestion of spring in our room. The flower pots have been in our room. The flower pots have been decorated in yellow and green, and all of our winter pictures and snowflakes have been taken down.

Michael Chamberlain was quite disturbed to learn that there is no pole to be seen at the North Pole. After deep tohught he said, "Do you know what I'm going to do when I grow up? I'm going to put a pole up there where one is supposed to be."

Fourth Grade
Miss Kline, Teacher

We are visiting Dirk in Holland now. We have seen dikes, windmills, canals and tulips. The Dutch people have had to work hadr to get safe barbors, for their coast line is straight and the water shallow. They have widened the Maas river and dug it deeper for fifteen miles inland to make the great harbor at Rotteradm. It is interesting to see how neat and clean everything is.

We painted a little Dutch boy and girl in art class, and we are planning to use them on the cover of a booklet about Holland.

We saw a film reel of Holland this week and another of Modern and Primitive Homes. We are studying about "Homes and Building Materials" in social studies next week.

Mrs Plaus' room invited us in to see their Esikmo village, showing the homes of the Eskimos. We also saw some of their Holland exhibit. We enjoyed it very much.

Junior Martin brought in a cocoon that he found. We had just read about caterpillars spinning cocoons in our science books, and we were glad to see a real one.

Conrad Fosbender and Albert Cook were helpers in the room this week. Ardyth Cole, Marlou Gilman, and Irma Wright got A's on both our six weeks' spelling tests.

Fourth and Fifth Grades
Mrs. Plaus, Teacher

Our room is beginning to look like a small section of Holland. We are studying this interesting country in geography. Our exhibit table is full of articles that were made in the Netherlands, and our bulletin board has many Dutch pictures and artices on it. We are making notebooks and filling them with articles and pictures.

In history the fifth grade is studying how our early authors and poets were "Makers of Our Flag."

We are continuing the study of fractions in fifth grade arithmetic, while the fourth graders are multiplying with two numbers.

Ben Hammach won the prize in our room for selling the most Junior Play tickets.

Irving Shaw and Bobby Moore are the room helpers this week.

Fifth Grade
Miss Starr, Teacher

Jeannine Clark won the prize of a quarter for selling Junior play tickets.

We are now receiving our second semester "Weekly Readers," and we are enjoying them very much.

Marie Phillips brought us some booklets about great physicians and health habits.

We had our six weeks' tests in spelling this week and some of us did very well.

He Couldn't Speak Understandable English

This immigrant came to us in need of money—but we could not understand his "brand new" English. We recognized the seriousness of his problem and got in an interpreter to tell his story. We loaned him the money he needed and prepared a plan which permits him to pay it back in small monthly payments. The interpreter said, "He says maybe you can't understand him but he's sure you can see the look of gratitude in his eyes."

Although 2774, Laws Relating to Elections, Revision of 1939, still provides that an absent voter may apply for registration at time of applying for ballot, and gives form of Affidavit he should make, Act 63 of P. Opinion of the Attorney General is that Acts 85 and 63 "must be considered to repeal the inconsistent provision of Sec. 2774 permitting absentee registration AT THE TIME of making application for an absent voter's ballot."

The Absent Voter's application and affidavit for registration are useful only in cases where voter may mail these in, then make application for ballots later, after registry has been completed.

"Sponge Week" in observance of Leap Year, was held last week at the high school and it was up to the girls to show the boys how they would like to be treated.

During the week the girls opened doors, carried books and sharpened pencils for the boys. They also asked for dates, sent flowers to the boys, escorted them and paid the bills.

"Sponge Week" ended with the P.-T. A. dance Friday night and the boys thought it was a huge success and would like it repeated often.

NINETIETH YEAR—NUMBER TWENTY-FIVE. TECUMSEH, MICHIGAN, THURSDAY, MARCH 21, 1940. FIVE CENTS PER COPY.

ASK OBSERVANCE OF GOOD FRIDAY

UNION SERVICES AT PRESBYTERIAN CHURCH; STORES TO BE CLOSED

Good Friday, March 22, will be fittingly observed in Tecumseh with a three-hour Union Service at the Presbyterian church, during which time practically all business will be suspended under a proclamation issued by Mayor Karl M. Schneider.

In keeping with a custom long-standing in the community, the Union service will be built around the Seven Last Words that Jesus spoke from the Cross. Ministers participating, and their subjects are: Rev. E. E. Escolme of the Friends church: "Father, forgive them for they know not what they do." Rev. E. M. McGehee, Presbyterian church: "Today shalt Thou be with Me in Paradise." Rev. E. F. Hildebrand, Methodist church: "Woman, behold Thy Son—Behold Thy Mother." Rev. Edward Green, Episcopal church: "My God, My God, Why hast Thou forsaken Me." Rev. A. C. Brazee, Iron Creek church: "I Thirst." Rev. O. V. Robinson, Baptist church: "It is finished." Rev. W. H. Skentelbury, Clinton: "Father, unto Thy Hands I commend My Spirit."

The Union service will start promptly at 12 o'clock and continue until 3 p. m., but people are at liberty to come and go at will. However, it is expected that no one will enter or leave the service except during the singing of hymns. As in previous years, offering plates will be placed near the doors of the church so that folk desiring to make a Good Friday offering may do so. The offering this year will be given to aid to Protestant Minorities in strife-torn Europe and other benevolent causes.

Mayor Schneider's proclamation, calling for the observance of Good Friday, follows:

"Friday, March 22nd, is Good Friday, the day when Christians of all persuasions solemnly observe the death of Jesus Christ, the Son of God, Our Savior upon the cross of Calvery.

"As a token of reverence and respect for what this day has come to mean to all Christians everywhere and more especially to us as a Christian Community and to make it possible for all of our citizens to attend the Union Three Hour Service to be held in the First Presbyterian Church or a service in such other place of worship as they shall choose, I am asking that all the business houses and all recreation and amusement places close from 12 o'clock noon until 3 o'clock in the afternoon."

Probation Is Ordered For Window Peeper

Wayne Hintz, 20, of Tecumseh, pleaded guilty to a charge of window peeping when he was arraigned before Justice Franklin Russell in Adrian, Monday. He was sentenced to pay costs of $7.45 and to spend 30 days in the county jail. The jail sentence was suspended and Hintz was placed on probation for six months. He paid the costs.

State police arrested Hintz Saturday night after he had been found peeping into a window here. Justice Russell said he was convinced that Hintz is not the peeper who has annoyed many local residents in the last few weeks, and it was for this reason that he suspended the jail sentence. The justice said that his probation order advised Hintz to remain off the streets in the evening or nighttime, except when in the company of his wife.

ROTARY CLUB HEARS PAPER ON TECUMSEH

A highly interesting and educational paper on the history of Tecumseh, prepared by J. N. Satterthwaite, Tecumseh pioneer, was read at the regular meeting of the Rotary club on Tuesday by Perry C. Satterthwaite, son of the writer.

The paper traced Tecumseh's history for more than 140 years, told interesting happenings during the early days, and of the location of the county court house and jail here, under a bond to the state.

Mr. Satterthwaite, author of the paper and one of the ablest historians in the county, will augment the article and it will be published in installments soon by The Herald.

6 ARE TREATED FOR DOG BITES

AIRDALE KILLED LAST WEEK HAD RABIES; LAW STRICTLY ENFORCED

If you don't want your dog killed, don't let him run at large.

That, in substance, was the warning issued today by Lloyd Van Etten, county dog warden and deputy sheriff, when he visited Tecumseh on another inspection after it had been definitely determined that an airdale, killed here last week and which had bitten at least five persons, had the rabies.

"We are going to enforce the dog law to the letter, and there are not going to be any expections," the officer said. "The law provides that dogs cannot run at large, whether or not they are licensed. They must be accompanied by a master, otherwise they are 'stray dogs' and may be shot on sight."

The dog warden killed three or four more dogs here on Wednesday, and said that he intended to "keep up the practice" until such time as owners of the animals abided by the law.

Thus far, six persons have been bitten by dogs here, and are taking anti-rabies treatments. Bertram Updyke, who was bit by a stray dog 10 days ago, is under the treatment of Dr. R. G. H. Marsh. Mr. Updyke was bitten while at work at his filling station on East Chicago boulevard, and the dog died before it could be killed.

The five persons known to have been bitten by the rabid dog, and who are taking the treatments from Dr. Marsh, are Paul Breitenwischer, Melvin Murphy, Jr., Jack Whelan, Robert Rentschler and Gerald Tomezak.

The airdale dog was killed by Deputy Van Etten last week Wednesday and the head was examined. The sheriff's department announced definitely that the animal was rabid and suggested that persons attacked submit to immediate treatment. Thus far, it was said, only five persons have been found that were bitten by the dog before a rifle bullet ended its life.

SCARLET FEVER HITS IN RAISIN

COLVIN SCHOOL IS CLOSED, TEACHER AND FIVE PUPILS ARE SICK

The Colvin school in Raisin township was ordered closed this week when five of its pupils and the teacher, Mrs. LeRoy Titley became ill with scarlet fever. The school, it was said, will remain closed all of this week, and next week is Spring vacation. If health authorities deem it advisable the reopening date has been tentatively set for April 1.

Pupils ill with the disease are children in the Ralph Dazey, Harry Withrow, Orin Francis and Melvin Gordon families. All are under quarantine.

In the Newburg school district northwest of here, it was reported last week that about a dozen children and their teacher, Mrs. Chris Nobles, were ill with the disease. That school was ordered closed last week, but it is understood that it reopened this week with a new teacher in charge.

Dr. H. H. Loveland, Tecumseh village health officer, said today that so far as he knew only three cases of scarlet fever existed in this town. There is no epidemic locally, he said, but he asked for parents and teachers to co-operate with his office in checking the spread of the disease.

Dr. Loveland issued the following signed statement:

Because of the prevalence of Scarlet Fever in and about Tecumseh it is requested by the Health Officer that parents, school teachers and others having to do with children, watch carefully for any signs of the disease and either call their family physician or report to the Health Officer as soon as anything suspicious is noted, Sore throat, a fine rash on body, initial vomiting, fever, are to be noted carefully.

Early diagnosis is important — most large and serious epidemics are caused by MILD CASES which are either not recognized or not reported because of their mildness.

H. H. LOVELAND,
Health Officer.

TAXPAYERS' DUTIES

Taxpayer associations are being formed every day throughout the country. They are made up of men and women who have come to the tragic realization that they —Mr and Mrs John Citizen—have got to take an interest in how and where their tax dollars are being spent—or it won't be many more years before they may lose that privilege.

This year it is a truth that we all must work 14 weeks for the government in order to share our separate burdens of taxation. Those 14 weeks represent more than one-fourth but not quite one-third of your working year. Twenty-five years ago we worked less than two weeks or not quite one-twenty-sixth of a year, to pay our taxes. What has happened to cause this tremendous increase in the size of our tax burden, is being made a study by thousands of citizens throughout the country.

For years as the burden increased by leaps and bounds it made little or no difference to the majority, for it had not actually affected their incomes. Today it does. And today it is a vital question to our future welfare. We must face the issue now and do our share toward building those fortifications against its re-occurrence. We can do this better when banded together in local tax associations where we can strike at the curse more directly because of our familiarity with our local needs and will know when they are exceeded.

Join your local tax study group immediately—and start doing your share in this work.

Strand Theater

"LITTLE OLD NEW YORK"

The boisterous town of the good old days, when cows roamed Fifth Avenue and a barmaid—or a lady—could win a man like Robert Fulton, are brought vividly to life on the screen in Darryl F. Zanuck's production of "Little Old New York," the 20th Century-Fox film, which comes to the Strand Theatre on March 24-25-26, with Alice Faye, Fred MacMurray, Richard Green and Brenda Joyce heading a splendid cast.

Others prominently featured in the cast are Andy Devine, Henry Stephenson and Fritz Feld.

"SWANEE RIVER"

The very heart of America is embodied in the familiar melodies of Stephen Collins Foster, inspirationally expressed in such songs as "The Old Folks at Home" (Swanee River), "Old Black Joe," "My Old Kentucky Home," "Oh! Susanna!," "De Camptown Races," "Jeanie with the Light Brown Hair" and "Ring, Ring de Banjo," to mention but a few.

The colorful, romantic days of minstrels and river boats, when a stormy love wrote the songs that are America's own, are brought stirringly to the screen in "Swanee River," at the Strand Theatre March 28-29-30. The cast features Felix Bressart, Chic Chandler, Russell Hicks, George Reed and the Hall Johnson Choir.

Other famous Foster songs heard in the film are "Beautiful Dreamer" and "Soiree Polka."

TAXPAYERS' DUTIES

Taxpayer associations are being formed every day throughout the country. They are made up of men and women who have come to the tragic realization that they —Mr and Mrs John Citizen—have got to take an interest in how and where their tax dollars are being spent—or it won't be many more years before they may lose that privilege.

This year it is a truth that we all must work 14 weeks for the government in order to share our separate burdens of taxation. Those 14 weeks represent more than one-fourth but not quite one-third of your working year. Twenty-five years ago we worked less than two weeks or not quite one-twenty-sixth of a year, to pay our taxes. What has happened to cause this tremendous increase in the size of our tax burden, is being made a study by thousands of citizens throughout the country.

For years as the burden increased by leaps and bounds it made little or no difference to the majority, for it had not actually affected their incomes. Today it does. And today it is a vital question to our future welfare. We must face the issue now and do our share toward building those fortifications against its re-occurrence. We can do this better when banded together in local tax associations where we can strike at the curse more directly because of our familiarity with our local needs and will know when they are exceeded.

Join your local tax study group immediately—and start doing your share in this work.

Strand Theater

"LITTLE OLD NEW YORK"

The boisterous town of the good old days, when cows roamed Fifth Avenue and a barmaid—or a lady —could win a man like Robert Fulton, are brought vividly to life on the screen in Darryl F. Zanuck's production of "Little Old New York," the 20th Century-Fox film, which comes to the Strand Theatre on March 24-25-26, with Alice Faye, Fred MacMurray, Richard Green and Brenda Joyce heading a splendid cast.

Others prominently featured in the cast are Andy Devine, Henry Stephenson and Fritz Feld.

"SWANEE RIVER"

The very heart of America is embodied in the familiar melodies of Stephen Collins Foster, inspirationally expressed in such songs as "The Old Folks at Home" (Swanee River), "Old Black Joe," "My Old Kentucky Home," "Oh! Susanna!," "De Camptown Races," "Jeanie with the Light Brown Hair" and "Ring, Ring de Banjo," to mention but a few.

The colorful, romantic days of minstrels and river boats, when a stormy love wrote the songs that are America's own, are brought stirringly to the screen in "Swanee River," at the Strand Theatre March 28-29-30. The cast features Felix Bressart, Chic Chandler, Russell Hicks, George Reed and the Hall Johnson Choir.

Other famous Foster songs heard in the film are "Beautiful Dreamer" and "Soiree Polka."

KATTY KITTY Says

"Edna should get air conditioning or a new cleaner."

Edna knows how important it is to have smartly pressed, freshly cleaned clothes. But the poor girl carries an odor of rancid cleaning solvent wherever she goes.

We use only fresh, clean, pure cleaning solvent that leaves no objectionable odor. We think clothes should SMELL clean and fresh. Try us tomorrow and give the garments we clean the "nose test."

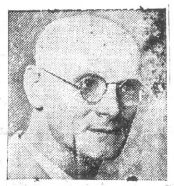
"I can never thank Herbtex enough for the amazing relief it brought me, yet it seems so simple after having tried so many expensive treatments which did not help at all," said Mr. Horace F. George, former Pennsylvania Railroad Engineer, now residing at 723 Market St., Wheeling, W. Va.



MR. HORACE F. GEORGE

"There is no doubt but that constipation is what was causing my troubles, but I thought almost everything was wrong with me. I ached so bad that I could hardly keep at work. My back was so stiff and I ached all over my body most of the time. Every time I stooped over I'd feel so dizzy I had to grab hold of something. My nerves kept me awake for hours every night, then the next morning I felt all tired out.

"I have thanked a friend of mine many times for telling me to try Herbtex. I wish I had started taking Herbtex years ago. Herbtex worked off my bowels thoroughly, yet no griping or pains, and now I'm regular every day. I feel like I've had a bath inside. All the poisons seem to move out regularly instead of staying there and causing trouble.

"Since Herbtex cleaned my bowels I am free of backache and pains in my body, neither do I have sour gas that I always belched after eating, all the dizziness has passed off and my nerves have calmed down so that I can now enjoy restful sleep at night.

"I wouldn't take anything for the good that Herbtex has done for me. I know that Herbtex is really a good medicine. Herbtex gives relief for common ills like Stomach Trouble, Sluggish Liver, Weak Kidneys, Painful Joints, Aching Muscles, when do to constipation."

SPECIAL OFFER: regular price of Herbtex is $1.25, send only $1.00 Money Order Cash or Check to Herbtex Co., Dept. MH18, Wheeling, W. Va., and a package of Herbtex (over a two weeks supply) will be sent you postage paid. —advertisement—April 4

Unforeseen Expenses Got This Fellow Down

Yes, there had been illness in the family and work hadn't been too steady, and all in all this man was "behind the eight ball." He owed about $90 and some of his creditors were pushing him for payment. He came in, told us his troubles, and because he had a reputation for honesty and fair dealing we loaned him the cash. He's repaying us in small monthly payments out of his income.

Oldsmobile Sales Set New All-Time Record

Oldsmobile retail sales for the last 10 days of February set a new all time high for the period with a total of 5,753 cars. This represents a gain of 102% over the 2,855 cars sold in the same period a year ago, according to D. E. Ralston, general sales manager.

Sales for the entire month of February also established a new record with a total of 13,541 units which is an increase of more than 59% over the 8,495 cars sold in February, 1939.

Mr. Ralston also pointed out that retail sales of 13,541 for February exceeded the January sales of 12,370, bich is the first time since the fall announcement of neu models that February sales have been larger than those of January.

"This great record, set by our dealers in February, seems to be conclusive proof that the forthcoming spring selling months have great possibilities and that Oldsmobile will continue to make new sales records for the balance of the model run." Ralston said.

Another interesting fact, Ralston mentioned, is the increased sales of the Custom Eight Cruiser. During the month of February, 3,506 of this model were sold against 1,069 eight cylinder Oldsmobiles a year ago.

"This particular model is meeting with a splendid reception from fine car buyers everywhere. With deliveries of Oldsmobile's exclusive Hydra-Matic drive on the increase and the enthusiastic response from owners, we expect an even greater popularity for the Custom Eight Cruiser in the months to come," Ralston added.

Small Building Burns

The Clinton fire department was called Friday afternoon to the home of Mrs John Staib two and a half miles north-west of the village where a small building, formerly a shop, had caught fire from an over heated stove which had been used while the men had been oiling harnesses. The firemen used 80 gallons of chemical and more than 400 gallons of water to put out the fire. The building was burned beyond repair. The house, barns and sheds nearby were not threatened at any time.
